Promise Of Easter

NEA COLOR PHOTO BY HENRY M. MAYER

The promise of spirtual rebirth implicit in the Easter story has for millenniums been affirmed by nature each spring, when she brings forth life from the death that was winter. Here, double daffodils bespeak praise of the Creator in a woodland setting reawakening to a new life.

Man Found Dead Near Oran

Frank Lesure, 67, a colored farmer living on Oran route, was found dead in his 1957 Buick station wagon, today at 7:30 a.m. He apparently died of a heart attack.

He apparently was on his way home and his car was found on the dirt road along the railroad tracks less than a mile from home, and a half-mile off of Hy. 91 (Baseline road). He was found by a neighbor, Jim Hamilton, according to deputy sheriff Jack Stewart.

Mr. Lesure had become stuck in the sand, according to witnesses early this morning, and was last seen by relatives last night at 7:30 p.m.

Surviving are his wife, Mrs. Nora Lesure, whom he married in Marion, Ark., in 1938; 10 children living at home, four married children, and four children by a previous marriage.

Sunrise Service To Begin 6 a.m.

The Sunrise Service that is going to be held tomorrow in the Band Shell at the Sikeston High School is scheduled to begin at 6 a.m. with Prelude.

Rev. Watson of the Presbyterian Church will give the Call to Order. The Sikeston High School Concert Choir will sing the Anthem, "As It Began To Dawn."

The Invocation by Rev. Watson will follow and then the congregation will sing a hymn, "Crown Him With Many Crowns."

Rev. James Smith, Assembly of God Church, will give the Welcome. The Scripture lesson will be delivered by Rev. James Hackney of the First Baptist Church. Prayer service will follow with Rev. Oral Withrow, of the Tanner St. Church of God.

The Sikeston High School Concert Choir will then follow after the Lord's Prayer, with "Christ Is Our Eternal Spring."

The Sermon, "Goodness of the Morning," will be given by Rev. Wagner, pastor of the First Methodist Church.

A hymn, "All Hail the Power of Jesus Name", will be sung by the congregation, followed by the Benediction, to be given by Rev. James Hackney.

Keith Collins will direct the choir.

Four Arrests

The City Police Department made four arrests during the past 24 hours, three of which were for assualt and affray.

Louis A. Marshall, 338 Magnolia, charged with assault and affray.

Jerry Smith, Alabama St. charged with assault and affray.

Carl Howard, 206 Westgate, charged with assault and affray.

Leo McCormick, Sikeston, charged with being drunk in public.

Weather

EAST and SOUTHERN MISSOURI -- Increasing cloudiness and mild tonight with a 30 to 50 per cent chance of showers east sections tonight. Low tonight in 50s. Sunday partly cloudy to cloudy and turning cooler with high near 60 extreme northeast.

HIGH AND LOW YESTERDAY

High and low temperatures for the 24 hours ending today at 7:30 a.m. were 59 and 43.

Sunset today--------6:35 p.m.
Sunrise tomorrow---5:21 a.m.
Moonrise tonight---8:35 p.m.
Last Quarter------April 23

At midnight tonight the Big Dipper will be high in the north and the Twins will be in the west. Mars, in the southwest, will be the only planet above the horizon.

Hearnes Speaks Out For War On Poverty

JEFFERSON CITY (AP) — Gov. Warren E. Hearnes today announced these developments in the war on poverty in Missouri:

Approved three neighborhood youth corps projects, including one for $1,435,000 in St. Louis, for $19,600 in Ste. Genevieve and for $7,100 in Gainesville.

Approved a $76,683 community action program for Mississippi County.

Approved a school improvement program at Kinloch, in St. Louis County, for $234,214.

Announced formation of the first five-county non profit community action program corporation in the counties of Mississippi, New Madrid, Dunklin, Scott and Pemiscot.

Howard, Linn, Livingston, Davies and Oregon counties, he said, have submitted plans for community action programs.

The so-called head start proposals to provide the children of economically disadvantaged families with pre-school experience, have drawn interest since school superintendents were notified of the program two weeks ago.

Some 200 districts have filed proposals. If all are approved in Washington it will mean about $5 million to help preschoolers in Missouri.

The community action programs generally provide remedial reading courses for adults, day nursery care for children of deprived families, counseling, work training, a summer recreation program for youngsters and homemakers sessions.

Capture Escapees

MARBLE HILL--Joseph S. Motley and Roscoe B. Hall, escaped prisoners from the Bollinger county jail, were captured Tuesday in Mississippi and Alabama. Motley was captured by authorities in Iuka, Miss., and his campanion in Cherokee, Ala.

The two had escaped earlier in the week when they broke jail and stole a car in Leopold Monday night. Motley is a German immigrant, and had been in previous trouble, and was held in jail on a charge of burglary and resisting arrest. Hall was also charged with burglary and car theft, and had escaped twice from jail.

Motley was arrested in the Mississippi town when he attempted to sell some whiskey to a service station attendant, and is being held in jail there in a security cell.

Hall is being held in the Cherokee jail, and was found to have $50 in his possession, and is believed to have stolen four cars, in both Mississippi and Alabama.

The two escaped prisoners will be returned to Missouri to face earlier charges.

Seven Southeast Missouri Students Make Honor Roll

COLUMBIA, Mo.--Announcement of Honor Roll names was made today by Elmer R. Kiehl, College of Agriculture dean.

A grade of 3.0 or above is required to be included on the Honor Roll, Kiehl said. A 4.0 grade is perfect, 3.0 superior, and 2.0 average.

Seven students from Southeast Missouri made the Deans Honor Roll at the University of Missouri's College of Agriculture. They are: John Hyslop, Bloomfield; John Burnett, Parma; John Koch and Roy Dooley, Rt. Sikeston; Rollin T. Mungle, Kennett; Herman Harrison, and Jerry Woodham, both of Malden.

THE TIRELESS car of Mr. and Mrs. Fred Williams is setting here after thieves swiped three of the four tires sometime during the night.

Thieves Lift Three Of Four Tires From Car

The car of Mr. and Mrs. Fred Williams, Rt. 3, Sikeston, had three of its four wheels and tires removed sometime during the night.

No clue has been turne d up as to how many or who the vandals were. It was probably more than one, for there were several sets of footprints found in the back of the house that led to a field planted in rye.

Mr. Williams said that this is the second time that his car has been lifted of its tires in six years. He has installed a Mercury Vapor light in the yard where the car was, but apparently the thieves were very sure of themselves or stupid, for it appears that the home of Mr. and Mrs. Williams is foolproof, concerning safety measures for burglars.

There were no jack marks at the scene, indicating again that there were more than one. One good thing though, they left the spare tire.

The thieves appeared to be very neat about their work. They replaced the nuts on the wheel bases, not wanting anyone to think they were sloppy, I suppose.

1,114 Positive Reactions OnTest

DEXTER — There were 1,114 positive reactions, indicating that this number of Dexter students have histoplasmosis, or 93 per cent of the number of students who were tested, according to Dr. S. B. Beecher, district officer for the Missouri Division of Health. In a second test held at Malden, 37 per cent of the school children tested showed positive reaction in 422 cases of 1,127 tests taken.

In the Malden tests the greater positive reaction the high school students showed 50 per cent positive reaction, while the elementary students showed 28 per cent.

In the Dexter school tests Dr. Beecher added that it does not mean that the 1,114 have histoplasmosis now, but they have been infected at some time in their life.

The tests in the two cities was made to provide a comparison between Dexter and an area where no known large roosts of birds are present, with a distance of 20 miles between the two cities. The tests should prove three things, a relationship established between the bird roosting areas, the residence of the person and the results of the tests. It will require about two months to make the complete survey.

The doctors said a three per cent formaldehyde solution would kill the histoplasmosis fungus which finds a ready habitat in the bird droppings.

The city officials are now studying action to remove the birds from the area, and now has state permission to rid itself of the birds.

ONE EMERGENCY

One person was treated and dismissed from the emergency room of the Missouri Delta Community Hospital yesterday.

C. J. McFarling, Morehouse, caught hand in power mower.

Four City Accidents

Four accidents took place in the City over the past 24 hours. None of them serious.

Wanda Williamson, Dexter, struck Lacy Tabor, Matthews, as he pulled out from Murray Lane onto S. Kingshighway. No injuries. Mr. Tabor was charged with careless and imprudent driving.

Auburn Quertermous, 1701 E. Malone, headed west on Murray Lane struck Cardyn Kirby as she pulled out from Prairie St. No injuries.

Richardson Hutchinson, 946 Cresent, headed east on E. Malone hit Patsy Stallings on the right back fender. No injuries.

Florence Briggs, 320 Matthews St., pulled out in path of Doris Clayton, Rt. 1, New Madrid, damaged right front fender on Mrs. Briggs car. No injuries.

Christians All Over The World Observing Easter

Christians around the world epared today for a joyous aster while Jews continued the bservance of Passover, the ost ancient of Jewish festials.

Holy Saturday services were ld in many churches throughit the world.

Pope Paul VI, leader of the orld's half billion Roman atholics, took part in Holy Satday services in St. Peter's asilica as the huge Vatican urch took on a look of rejoicg for the evening's Easter vil ceremony following the auerity of sorrow of Good Fri-y.

n Roman Catholic churches, ere were the traditional essing of baptismal fonts and renewal of baptismal promes. In early Christianity, Holy turday was a day when conrts were baptized and adtted to membership.

he holy weekend will be pped Easter Sunday in joyous clamation of the Resurrecn.

any persons will worship at arise services Sunday.

he 48th annual Easter dawn rvice, beginning at 7 a.m., is pected to fill Radio City Mu- Hall in New York. It will be der auspices of the Manhat- Division of the Protestant uncil of the City of New York. he 193rd consecutive sunrise rvice of the Moravians in nt of the historic home Moran church in Salem Square, aston- Salem, N. C., is expected to draw large crowds as usual. Between 2 a.m. and 5 a.m. small bands of people will assemble at street corners and awaken the city with Easter chorals and hymns.

At Rindge, N. H., the annual sunrise service at 4:30 a.m. at the Cathedral of the Pines is expected to attract thousands of persons from many parts of the United States and other countries. The Altar of the Nation is in the cathedral at the tip of Mt. Monadnock which will be the first in the nation to greet the sun with its message of rebirth.

A number of churches near Travis Air Force Base in California have scheduled a sunrise service at 5:30 a.m. at a Nike missile site on the base.

The First Baptist Church of Burlingame, Calif., plans to release 100 "doves of peace" at a 5:30 a.m. sunrise service in Millbrae, Calif.

In Phildelphia, the Messiah Lutheran church will release 1,000 helium-filled balloons at an Easter service. Each balloon will have the words "Christ is Risen" on it and will contain a return postcard addressed to the church.

Centuries --old ceremonial dances will begin Sunday at Santo Domingo Indian pueblo north of Albuquerque, N. M., and will continue four days with about 500 men, women and children taking part.

Some 7,000 persons are expected Sunday for the 24th annual Easter pageant in the Marion, Ind., Auditorium, only two miles from where devastating tornadoes struck a week earlier.

The Jewish Passover, which began Friday night, marks the release of the Israelites from bondage in Egypt more than 3,000 years ago. Orthodox and Conservative Jews observe the holiday for eight days; Reform Jews observe it for seven.

Thieves Caught At Charleston

Jimmy Dale Bone of East Prairie, a 19 yr. old youth, has been apprehended and charged with five automobile thefts at Charleston. There is an accomplice charged but he is a juvenile.

They are charged with stealing five cars over a two day period, one of which was stolen in Sikeston from Don Baker Wednesday night. Two cars were stolen in Charleston and two were stolen in East Prairie.

Also, they are charged with stealing some luggage from the car of Dr. James Cullison of Charleston.

Grass has a wider range than any other plant, occupying virtually all parts of the earth and tolerating both torrid and extremely cold weather.

ALAN BARBOREK, son of Mr. and Mrs. Tony Barborek, finds an egg at the Egg Hunt sponsored by the Junior Woman's Club. The hunt was held today in Malone Park.

Cherries In Bloom At Washington

WASHINGTON (AP) — Washington's famed cherry blossoms are at the peak of their beauty.

Thousands visited the Tidal Basin area Friday to see the blossoms, and park officials say they expect them to remain in good shape through the Easter weekend.

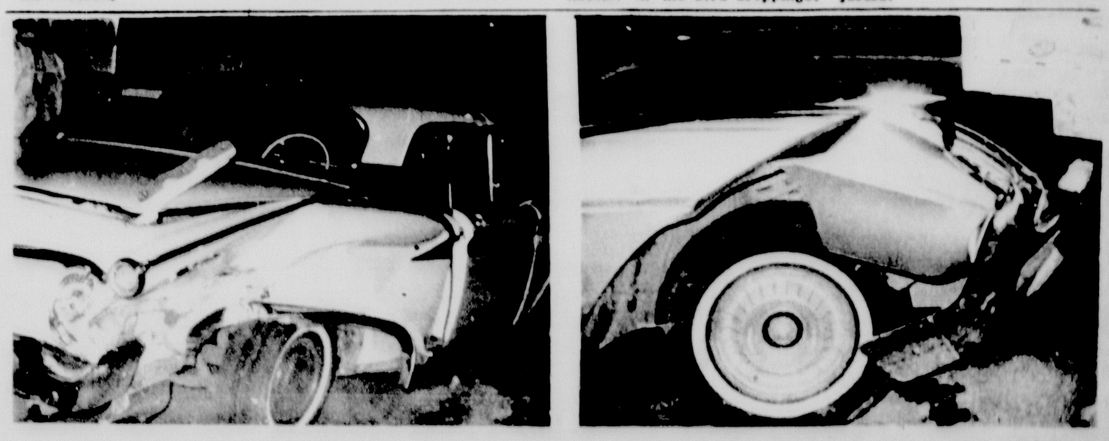

Wood cellulose (tree-derived source of paper) is the fibrous part of wood.

Jackson Man Dies In Accident

FRUITLAND, Mo. (AP)—The driver of a car was killed early today in a collision between the auto and a tractor - trailer in southeast Missouri.

The victim was August Sides, 35, of Jackson, Mo.

The Highway Patrol said the car was on the wrong side of U. S. 61, about one mile south of Fruitland. The truck driver, James Fowler of Memphis, escaped injury.

Mrs. Charles Manley

Janette Higgs And Charles Manley Wed In Impressive Candlelight Ceremony

The soft glow of lighted cathedral tapers cast their radiance upon the beautiful and impressive Good Friday wedding of Miss Janette Higgs, daughter of Mrs. Louise Higgs of Sikeston, and Charles Manley, son of Mr. and Mrs. Howard Manley, also of Sikeston.

Reverend John Rhame officiated at the double ring ceremony in the First Church of the Nazarene on April sixteenth at eight o'clock before a setting of an arch decorated with blue ribbons and white gladioli. A kneeling bench completed the background.

Mrs. Glenn Van Zant, organist, provided the nuptial music and accompanied Glenn Van Zant, soloist, as he sang "I Love You Truly," "Because" and "Wedding Prayer."

The bride, given in marriage by Clyde Nicholas, a close friend, wore a floor-length gown styled with a close fitted bodice with long fitted sleeves that came to a point over the wrist and accented with tiny covered buttons. The dress featured a sabrina neckline. The bouffant skirt fell in long cascades of scalloped ruffles and was fashioned from Chantilly lace over taffeta and net over a Southern bell hoop. The skirt was enhanced with sequins and swept into a chapel train.

Her queen's type tiara was of pearls and centered with cut crystal and fell into an elbow-length veil of imported English silk illusion. She carried a white orchid bouquet.

Miss Jan Nicholas, a close friend of the couple, attended the bride as maid of honor. Miss Emily Manley and Miss Margaret Manley, sisters of the groom, served as bridesmaids.

The attendants were gowned in blue satin sheath dresses with three quarter length sleeves. The frocks were styled with scooped necks with Georgettes draped around the neck and hem-length streamers down the back.

Their headdresses were of satin bands with blue net attached. The attendants carried blue candles decorated with a corsage of white carnations.

Dennis Miller served his friend as best man. John Southern, a friend, and Rudy Manley, brother of the groom, were groomsmen.

Mrs. Higgs chose for her daughter's wedding a beige two-piece sheath which she enhanced with orange accessories. Mrs. Manley, mother of the groom, wore a pink cream puff dress with white accessories. Both mothers wore corsages of white carnations.

RECEPTION

Immediately following the ceremony, a reception was held in the Educational Building of the church. The bride's table was decorated with a blue cloth overlaid with white net and centered with silver holders and blue tapers.

A three tiered wedding cake topped with the traditional bride and groom appointed one end of the table and a crystal punch bowl appointed the other end. Nuts and mints were served to the guests from silver compotes.

Mrs. Clyde Launius, close friend of the couple; Mrs. Jimmy Higgs, cousin of the bride; and Mrs. Charles Campbell, close friend of the couple, assisted with the serving at the reception.

The guest book table was decorated with a bouquet of blue flowers. Miss Linda Manley, sister of the groom, presided at the guest book.

Miss Debra Launius presented the guests with rice bags from a brown wicker basket decorated with white and blue ribbons.

WEDDING TRIP

Following the reception, the newlywed couple left on an undisclosed wedding trip. For traveling, Mrs. Manley changed to a two-piece sheath made of green brocade. She complemented her attire with white accessories and wore the white orchid from her bridal bouquet.

The young couple will be at home at 953 Lake Street on April 20. Mrs. Manley is secretary to Robert Miller at Matthews Elementary School. Mr. Manley is employed by Pyramid Roofing Company.

REHEARSAL DINNER

On Thursday, April 15, Mr. and Mrs. Howard Manley entertained the wedding party with a rehearsal dinner at their home. Those attending were Mrs. Louise Higgs, Mrs. Jimmy Higgs and daughters, Debbie and Terry, Mr. and Mrs. Clyde Nicholas, Mr. and Mrs. Glenn Van Zant and Cindy and Don, Miss Jan Nicholas, Dennis Miller, Rev. and Mrs. John Rhame, Rudy Manley, Linda Manley, Miss Margaret Manley and Miss Emily Manley. After dinner, the bride and groom presented the wedding party with gifts.

OUT-OF-TOWN GUESTS

Out of town guests at the Higgs-Manley wedding were Mr. and Mrs. Finus Beggs, Carol Sue Beggs, Blodgett; Sharyn Cowell, St. Louis; Mrs. Jimmy Higgs and daughters, Debbie and Terry, Great Lakes, Ill.; Mrs. Ted Kelly, Jr., Cape Girardeau; Joe Sherrod, Miss Phyllis Simmons, Memphis, Tenn.; and Miss Garnetta Byrd, Branson, Missouri.

Rev. and Mrs. Harold G. Belsheim are shown with their two sons, Harold II, left and David, right. The Belsheims recently celebrated their Silver Wedding Anniversary.

Rev. And Mrs. Belsheim Honored With Reception

At six o'clock in the evening on April eleventh at the Concordia Lutheran Church, members and friends surprised Rev. and Mrs. Harold G. Belsheim with a dinner reception to mark their Twenty - Fifth Anniversary.

The church basement was decorated for the occasion by the Friendship Circle. A special table was covered with a white taffeta cloth. Centering the table was a white cake decorated with "Happy 25th Anniversary to Pastor and Mrs. Belsheim." The cake was flanked by white tapers in candelabra with a crystal punch bowl gracing one end. Compotes of party mints complemented the table. Accompanying the arrangement was also a silver tree decorated with silver dollars which completed the table appointments.

Mrs. Belsheim was given a corsage of white carnations to wear during the evening.

Rev. and Mrs. Belsheim have three children. Their daughter, Mrs. Don Hurtgen of St. Louis, Missouri, Harold II Junior at St. Paul's High School in Concordia, Missouri and David, a sophomore at the Sikeston Senior High School. The Belsheims will be leaving after Easter to visit their parents in Iowa to further celebrate their 25th Anniversary.

Eastern Star Has Regular Session

MOREHOUSE -- Morehouse Chapter #450 O. E. S. met in regular session and opened in due form with Worthy Matron Eleanor Fox presiding.

The flag of the United States was borne to the East by the Marshall and all joined in repeating the Pledge of Allegiance.

The minutes of the last meeting were read and approved by the Chapter.

A report on sickness was made and cards were sent to Douglas Hammock, Jr., son of Mrs. Shirley Hammock, Mrs. Opal Harris and Mrs. Freeman, mother of Mrs. Edna Jackson.

Communications read was a letter explaining the O. E. S. Retirement Home and the cost and size of the track of land where it would be built; a letter from the Worthy Grand Matron about the Estorial Awards; an invitation from the Charleston Chapter for the party night when the District Deputy makes her official visit and an invitation from Advance Chapter for Easter Parade Night.

Mrs. Jeraldine Estep was installed by Past Matron Georgia Henning in the Chaplain's chair for the current term.

The Worthy Matron thanked her pro-tems and expressed her thanks for all who attended the School of Inspection at Dexter.

Lodge closed in regular form.

MISS BRENDA KAY BIRD's engagement to Glenn A. Matthews III has been announced by her parents, Mr. and Mrs. Kermit D. Bird. Mr. Matthews is the son of Mr. and Mrs. Glenn A. Matthews, Jr. Plans are being made for a July wedding.

"Natural Beauty With Perpetual Care"

Easter Greetings

We, as a family, and professional cemeterians in this locality, are dedicated in our efforts to serve Sikeston and surrounding territory. We pledge to all who place the burial of their loved ones in our care that we will faithfully continue to improve and develop Memorial Park in a manner that will meet with their approval and be worthy of civic interest. Moreover, it is our earnest desire that present and future generations will be pleased and proud of our accomplishment . . . .

Recently, the Ben Carroll family presented a beautiful cross to our cemetery. The cross will be lighted at night and we invite you to come out and view this memorial as well as other beautiful features.

Our office, located at the Cemetery on South Kingshighway near South Y, is open daily. Stop in and say "hello" while you are out driving around this Easter Sunday . . . . Spring is in bloom at Memorial Park.

Missouri Sweeps Oklahoma

Oklahoma State jumped into a first-place tie with Kansas in Big Eight Baseball Friday while Missouri, the defending champion served notice it still is in the title picture by sweeping a doubleheader from Oklahoma.

Kansas and Nebraska, tied for the top with perfect records before this weekend, split doubleheaders.

Oklahoma State rallied twice and beat Kansas State 7-6 and 4-2 at Stillwater, giving OSU a 4-1 record, Kansas beat Iowa State 5-3 but lost the second game 2-0 at Ames, leaving Kansas at 4-1.

Nebraska dropped to third place at 3-1 by losing 3-2 at Colorado and winning the second game 4-2.

Missouri rapped 23 hits in its 10-2 and 12-1 victories over Oklahoma at Columbia. This moved Missouri into fourth place at 2-2.

In the second division are Iowa State and K-State at 2-3 and Oklahoma and Colorado at 1-4.

Single games will be played today in each series.

OSU's Tony Sellari singled home Freddie Moulder in the last of the seventh for the winning run in its first game after K-State scored three runs with two out in the top of the inning, the last two on Joe Beck's home run.

Bill Matan's two-run homer put Kansas State ahead in the second game, but the Cowboys rallied to win it with a four-run fifth inning.

Spray-hitting Tony Stark of OSU, a Juco transfer, was five-for-six at the plate, lifting his average to .786, best in the conference.

Missouri's Bob Robben had seven hits in eight trips, including two homers, two doubles and six runs batted in. Jack Stroud pitched a three-hitter in the first game for Missouri. Mike Eader won the second game, contributing a home run.

Scott Morton, a sophomore lefthander, pitched a two-hitter and Tim Mahoney and Wendy Blankenburg batted in the runs which gave Iowa State its second-game victory over Kansas. Steve Renko pitched a five-hitter for Kansas in the first game. The Jayhawks clinched it with a three-run fourth in which Bill Fenton doubled home one run and Dick Ruggles singled home two.

Colorado won its opener with Nebraska on Jim LaFoe's five-hitter and a two-run single in the fifth by Don Sessions. Nebraska's Bob Hergenrader, a lefthander, didn't allow a hit in the first 5 1-3 innings and finished with a three-hitter in the second game. The winning blow for the Huskers was a two-run seventh-inning double by Randy Harris.

Kennett Takes Meet

Kennett's fighting Freshman and Sophomores powered their way to an easy victory, in the Southern Division meet. This was the last meet for the Kennett Junior Varsity, in the Southern Division, Kennett will be in the Northern Division next year.

Kennett's Steve Turner paced the Indians to the victory. Turner led all scorer's with 24 points. Dexter's David Guethle tallied 18 1/2 to be runner up in the point totals.

RESULTS

100 - Johnson (H), Jennings (P), Coleman (P), Skidmore (G), Greg (D), :11.6.

220 - Turner (K), Johnson (H), Skidmore (G), Jennings (P), Garner (D), :23.4.

440 -- Farmer (K), Fingers (K), Jones (D), Carnean (C), Hamlett (C), :57.1.

880 -- Harper (K), Arment (C), Hensley (C), Vance (K), Barker (M), 2:12.4.

Mile -- Reed (K), McCoy, (C), Henry (K), Strosnider (D), Kersey (C), 5:05.0.

Two Mile -- Coleman (D), Wardron (K), Kersey (C), Slicer (K), Trost (M), 11:29.8.

Celtics Picked to Take Los Angeles For Championship

By BOB HOOBING
Associated Press Sports Writer

BOSTON (AP) — Boston Coach Red Auerbach fears a letdown more than the Los Angeles Lakers in the National Basketball Association championship series opening here Sunday, although his Celtics are 2-to-1 favorites to gain their seventh straight NBA crown.

The Celtics won an NBA season's record 62 games, then survived a fright to edge Philadelphia 110-109 in their Eastern Division showdown Thursday.

Los Angeles wrapped up the Western Division series in six games against Baltimore despite the absence of all-league forward Elgin Baylor, who underwent knee surgery at the start of the playoffs. Boston beat the Lakers 7 out of 10 meetings during the season with Baylor in the line-up.

"Don't tell me they're crippled without Baylor," Auerback said. "I see they're scoring just as well. And it took more than Jerry West and Dick Barnett to pick up the slack."

"Los Angeles should be easier after Philadelphia and that Wilt Chamberlain," said veteran Celtics cornerman Tommy Heinsohn. "But all playoffs are tough. We've got to be careful not to have a letdown after the 76ers finish."

West, second high scorer to Chamberlain this season, averaged a fantastic 46.3 points a game against Baltimore and Barnett had a hot hand, too.

Boston has had two previous finals' encounters with the Lakers. Three years ago Frank Selvy's shot with two seconds left in regulation just missed bringing Los Angeles a title before Boston won in overtime 110-107. A year later Boston won in six.

Boston Race Starts Monday

BOSTON AP - - Two-time defending champion Aurele Vandendriessche of Belgium heads a quartet of former winners in a record field of 441 for the 69th Boston AA Marathon Monday.

Although there are 50 more entries than in any previous BAA test, the winner is expected to be one of eight -Vandendriessche, two Finns and five Japanese.

Eino Oksanen, 34-year-old Helsinki detective who won here in 1959, 1961 and 1962, has brought Finnish national champion Eino Valle with him. Finland has had six BAA winners in 11 years.

The Japanese, who won this event three times in the 1951-55 span, have dispatched a swift delegation headed by Takayuki Nakao, 26, author of a 2:15.37 clocking last December. Vandendriessche holds the Boston course mark of 2:18:58. The other men of Nippon are Morio Shigematsu, Hideaki Shishibo, Yoshikazi Funasako and Kazuo Matsubara.

Dressen Back In Action

LOS ANGELES AP -- Charlie Dressen, the somewhat subdued and temporarily sidelined little manager of the Detroit baseball club, is due to see the Tigers in game action tonight for the first time this season.

The 67-year-old skipper, stricken by a heart attack March 8, has his doctor's permission to attend the Tigers' game against the Los Angeles Angeles in Chavez Ravine, and also Sunday afternoon.

"I may feel like a Martian," Charlie said with a chuckle. He explained he will be rigged with wires and electronic devices which will register his heart and pulse reactions during progress of the two games.

Dressen saw the players for the first time since the attack at their off-day workout Friday.

It was estimated Dressen might be back in one to three months after the attack in Florida. He flew here the same day for treatment by his own physician.

Results of the tests at the games over the weekend may provide the doctor with more information about Dressen's condition and progress.

Sikeston's Frosh Take Third, In Conference

Sikeston met up with 6 other powers here in the Northern Conference, 9th and 10th Grades meet. Cape Central's Tigers, topped Dexter's Bearcats by a mere three points to win the event. Sikeston finished in third place only 20 points behind Dexter. Charleston finished only 3/5 of a point behind the Bulldogs, to take fourth place in the event.

This was the last North Division Frosh-Soph meet for Chaffee, who goes into the Southern Division next year.

There were several records broken in the meet. The performances in the two new events of the meet, the triple jump and two mile were automatic records.

RESULTS

100--Gerecke (CG), White (S), Covingeon (Chaffee), Duncan (PB), Vaughn (PB), :10.4.

220--Gerecke (CG), Lopp (S), White (S), Tucker (CG), Crader (J), :23.4.

440--Gerecke (CG), Smothers (CG), Owens (J), Davis (PB), Moore (PB), :52.8.

880-- Riehl (CG), Thompson (J), Turner (PB), Holly (Charles), Matthews (S), 2:11.4.

Mile-- Hise (Charles), Leyhe (CG), Wienhurd (P), Lewis (J), Wright (CG), 5:08.1.

Two Mile -- Wilkins (CG), Monroe (J), Jones (J), Shelton (PB), Hutcherson (S), 11:32.5.

High Hurdles -- Williams (Charles), Kearbey (PB), Baker (CG), Pritchett (PB), Leadbetter (Charles), :16.5.

Low Hurdles -- Williams (Charles), Vaughn (PB), Mitchell (PB), Krewinghaus (CG), Leadbetter (Charles), :22.0.

880 relay-- Sikeston, Central, Charleston, Jackson, Poplar Bluff, 1:41.7.

Mile relay -- Central, Poplar Bluff, Sikeston, Charleston, Jackson, 3:53.0.

Shot put -- Haynes (PB), Garner (S), Willis (PB), Arthur (CG), Leadbetter (Charles), 43-10.

Discus -- Haynes (PB), Arthur (CG), Kearbey (PB), Littleton (CG), Davidson (Charles) 140-01/4.

Broad Jump -- Vaughn (PB), Kearbey (PB), Williams (Charles), Blackman (S), Scudder (S), 19-1.

High Jump -- Tie for first Blackman (S), and Kearbey (PB), Williams (Charles), Jackson (S), Mitchell (PB), 5-4.

Triple Jump -- Williams (Charles), Scudder (S), Pitts (CG), Garner (S), Babb (Charles), 38-0.

Pole Vault -- Vaughn (PB), Wissman (J), Babb (Charles), five tied for fourth; Hacker (P), Wilson (CG), Foester (Chaffee), Wyat (PB) and Jones (S) 10-1.

Matson After World Mark

LAWRENCE, Kan. AP -- Randy Matson, Texas A & M's young giant, will go after his own world in the shotput and several other meet records will be in jeopardy in the 40th Kansas Relays today.

The 19-year-old Matson threw the 16-pound ball 67 feet 11 1/4 inches a week ago, breaking the world record of 67-10 held by Dallas Long, Matson's only conqueror in the Tokyo Olympics.

Matson, who stands 6-foot-6 and weighs 260, passed up the discus Friday although he set a collegiate record of 201-5 1/2 Wednesday. Bill Easton, relay director, said the shotput field has been surveyed and everything is ready for a world record effort.

A crowd of 12,000 is expected to watch Matson, top attraction on the 19-event final day card.

The distance medley could produce a meet record. Kansas has a finely balanced team which won the event at the Texas Relays. Southern Illinois is anchored by Bill Cornell, with a career best of 4:00.5 in the mile, and Missouri by Robin Lingle with a career best of 4:01.

Abilene Christian won the sprint medley in a fast 3:20.3 Friday but missed a meet record as SIU was disqualified and Lingle was a distant last when he got the baton.

Kansas, led by John Lawson's 4:03.7 on the third carry, won the four-mile relay by about 200 yards in 16:45.8, about four seconds off the record.

In the only college - university class record Friday, New Mexico's Clarence Robinson leaped 26-2 1/2, breaking the broad jump mark of 25-6 by Bill Miller, McMurry, in 1962.

Sports TALK
By DON SAVAGE

The Richland Sub - district baseball tournament, opens Monday at 3:00 P.M. Sikeston and Matthews are slated to play the first game, with the Richland - Oran game immediately following it.

Tuesday Bell City and Bloomfield lock up in the first contest of the afternoon's action. Scott Central and Bernie will decide the winner in the nightcap. If Sikeston wins their first contest against the Pirates they will take on the winner of the Richland - Oran game, on Thursday. The winner of this Tournament goes to the district meet at Oran.

My predictions for the Games Monday, are as follows:

Sikeston 5; Matthews 4. This should be a real good ballgame. I hope the Bulldogs eat their vitamins. Sikeston will have to cut down on their errors to win this one. They could be upset easily. Richland 4, Oran 7. Oran is too tough for Richland. Steimle, Metz and Johnson should be the big guns for the Eagles.

Koufax On Thin Ice

Sandy Koufax will be on ice Sunday, hopefully feeling no pain.

And when his arthritic elbow thaws out, the Los Angeles Dodgers may have their first major clue to how often their ace left-hander will be able to lend his talents to the chase for the National League pennant.

Currently labeled for use only on Sundays, the 29-year-old strikeout king makes his first start of the regular season at Philadelphia Sunday, then will take the necessary precautions by packing his elbow in ice and awaiting the results.

But since Koufax's return to the Dodgers and last Sunday's three - inning stint against Washington in an exhibition game, the uncertainity surrounding his condition has abated.

Koufax handled the Senators with little difficulty, allowing only one hit while striking out five and walking none. Afterwards he said:

"I'm ready to pitch any time I feel better than I have the entire spring. In fact, I feel amazing."

Nevertheless, Manager Walt Alston has held Koufax out for an entire week. But Alston has been optimistic. Asked Friday to list the best things that have happened to the Dodgers since the season began, he started unhesitatingly:

"One-the recovery of Koufax."

While Koufax was preparing for his big test, slugging San Francisco first baseman Orlando Cepeda was told his right knee was mending satisfactorily and he should be ready to begin full workouts in about a week.

Cepeda, who hit .304 with 31 homers and 97 runs batted in last season, underwent surgery on the knee last December but his progress has been slow. Cepeda, however, was told that he had nothing to fear-the knee would be as good as new.

The Giants were scheduled to go under the probing eye of the television cameras Saturday in one of three games to be telecast with the aid of the isolated camera and stop-action technique, used for the first time in baseball televising.

The techniques, enabling the television cameras to zero in on a single phase of any play, were being used by the American Broadcasting Co. in its Game of the Week series. The techniques have been used in pro football telecasts.

The Giants-Mets game will be telecast in the Eastern Central and Mountain time zones, Baltimore at Boston for New York City only and Chicago at Milwaukee for the Pacific time zone.

There were no games scheduled in the major leagues Friday.

"Hebrew"

Roots from which the word "Hebrew" is taken mean "to go over" or "to cross." The word was used by Gentiles to refer to people who called themselves Israelites or Sons of Jacob.

Mrs. Pat (Una) Davis Dies In The Hospital

Mrs. Pat C. Davis, one of Sikeston's well known and most highly respected citizens of more than a half century died at the Missouri Delta Community Hospital at 9:30 p.m. Thursday night after a few days illness. The body is in state at the Jackson Funeral Home.

Mrs. Davis was born in Bardwell, Ky., April 23, 1898, the daughter of the late Addie and Wm. H. Atherton. She married Pat C. Davis in Jan. 1915 and has lived in Sikeston, Mo. all her married life, making their home at 410 North St.

Five children were born of this marriage. They were: Lt. Carol E. Davis who was killed in action in 1944, in World War II; 2 daughters, Mrs. Austin (Louise) Chandler, of St. Louis, Mo. and Mrs. Richard (Imogene) LaPlant of Sikeston, Mo.; 2 sons Pat C. Davis, Jr. of San Bernardino, Calif., and John W. Davis of Sikeston, Mo. Also surviving are 2 sisters, Mrs. Ima Satterfield of Cairo, Ill., and Mrs. Thelma Martin of Memphis, Tenn., and one brother B. L. Kiser of Memphis. Also 6 Grandchildren: Ann Chandler White; Nancy and Linda Chandler of St. Louis, Mo., and Carolyn and Debra Davis of San Bernardino and Rikki LaPlant of Sikeston, Mo.; and 2 great grandchildren, Beth and Glen Jr. White.

Services will be held at the Jackson Funeral Home Chapel Sunday at 1 p.m. with the Rev. James Hackney of the First Baptist Church officiating.

Sarah Keating Services Sunday

BLOOMFIELD -- Mrs. Sarah Clementine Keating, 52-year-old housewife of Dexter, who had been ill for three months, died of acute leukemia at 1:15 p.m. Thursday at her home.

A resident of Stoddard County for several years, she had formerly resided at Kennett, Holcomb, Cape Girardeau and Detroit, Mich. She was born January 1, 1913, at Kennett and was the daughter of Mr. and Mrs. George W. Fopay. On January 1, 1942, she married Dallas R. Keating, who survives.

She is also survived by a son, Bill Keating, of Dexter.

The body will lie in state at the Chiles - Cooper Funeral until time for the funeral services which will be held at 2 p.m. Sunday in the Bloomfield Christian Church. The Rev. Charles Bess of Advance will conduct the services and burial will be in the Bloomfield Cemetery.

Cora Reynolds Of Charleston Dies

Mrs. Cora D. Reynolds, Rt. 2, Charleston, died at 7:15 a.m. today. She was born Sept. 27, 1885 in Buchanan, Tenn., the daughter of the late Mr. and Mrs. Henry Grooms.

Survivors include; one son, Deward Reynolds, Rockford, Ill.; two daughters, Mrs. Elmora French and Mrs. Elizabeth Mungle, both of Charleston; one brother, Jack Grooms of Bolivar, Tenn.; four sisters, Mrs. Lora Hillard, Mrs. Bessie Johns, and Mrs. Lucille Greer, all of Prayno, Ill., and Mrs. Ella Gibson, of Buchanan, Tenn.

The body is at the McMikle Funeral Home where friends may call after 4 p.m. today. Services will be in the Chapel, Monday at 2 p.m. Brother George Huffstutler will officiate with interment to follow in the Oddfellow s Cemetery.

Social Security Man Here Monday

Mr. Raymond Jones, Field Representative from the Cape Girardeau Social Security Office, will be at the Courtroom, Police Dept. Bldg., 140 N. Prairie, Sikeston, Monday, April 19, at 10 a.m.

Support Loans On Corn Smallest Since 1955

WASHINGTON (AP) — The Agriculture Department reported that farmers had placed 207.5 million bushels of 1964-crop corn under price - support loans through March 31.

This was the smallest quantity placed under such loans in a single marketing year since 1955.

The quantity of 1963-crop corn stored at the end of March last year was 374 million bushels.

Wheat from last year's crop placed under price - support loans totaled 196 million bushels, compared with 160 million a year earlier.

Iowa led with 93 million bushels of corn under loan, followed by Minnesota with 30 million, and Nebraska and Illinois with 26 million each.

matter of fact

One out of every five persons in the United States is overweight. Obesity occurs most frequently between the ages of 30 to 50 and is more common in men than in women. In the United States it is estimated that about 9 per cent of the population is 10 per cent overweight and about 3 per cent is 20 per cent overweight. People who are 20 per cent overweight at the ages between 45 and 50 increase their death rate by 18 per cent. It is also known that more obese people die as the result of accidents than thin and more agile people.

California's Nearly Nudes Must Cover Up

By JERRY RANKIN

SACRAMENTO, Calif. (AP) —California's burgeoning bevy of nearly nude waitresses, models and entertainers got the world today —cover up the bare bosoms.

"Things have gone too far" was the message from Sacramento, the capital.

James O. Reimel, director of the Department of Alcoholic Beverage Control, issued Thursday the cover-up order.

Assemblyman Joe Gonsalves, a Democrat from Artesia and the father of nine sons, has introduced legislation aimed at shutting down establishments where, "the bosoms of any of the female participants are exposed or are covered only by a transparent covering."

Gonsalves would authorize the state to suspend or revoke the liquor license of anyone offering such displays.

Lights would be snuffed out all along San Francisco's famed North Beach strip of night clubs if that were present law. Well-endowed young ladies gyrating to the latest "dance" in topless —and in one case a near-bottomless—bathing suits are features of many shows.

The sights in North Beach rivaled the politicking at the Cow Palace as the center of attention at last July's Republican national convention.

But Thursday, Reimel announced 25 key members of the Broadway Businessmen's Association had agreed to a five-point cleanup.

Henceforth, tops must go on the topless garments and "other garb stressing near nudity is out."

Noontime fashion shows, where models clad in the latest lingerie or waitresses in see-through blouses distract businessmen from their martinis, must really be designed to sell clothes.

Lady entertainers will have to stay on the stage, while the curtains must be drawn on those who've gathered on sidewalks and ogled the girls inside.

"I know this is an area that touches on interference with private business," Reimel said. "But things have gone too far in certain spots and, unless the courts tell us otherwise, we will proceed."

Unions and businessmen go along with the cover-up, he reported, and the rules will be extended statewide.

Conference To Be In Sikeston

A sectional conference will convene at the United Pentecostal Church, at corner of Matthews and Warner streets, on Monday and Tuesday, with Rev. Billy Butler as the pastor.

The Monday session will be at 2 p.m. and 7:30 p.m., while the Tuesday session will be at 10 a.m., 2 p.m. and 7:30 p.m. The Rev. Harry Branding, St. Louis, district superintendent, will be the afternoon Bible teacher.

The confernce will elect their officers for Section No. 3, which includes ten towns.

What you harvest can't be better than the seed you plant

These Four Are Listed In University of Missouri Extension Division's 1965 Recommended Corn Varieties For Missouri

MO. 880 — 110 Days Maturity — Our Mo. 880 continues to be above average in standability and yield. Wilt resistant. Well adapted for mechanical harvesters. $9.00 BUSHEL

U. S. 523-W — 110–115 Days Maturity — U. S. 523-W continues to be the best white hybrid. It is outstanding in yield and is adapted for mechanical harvesting. It has a grain type suitable for the white corn milling trade. $9.00 BUSHEL

MO. 63-1 — 110 Days Maturity — NEW MODIFIED SINGLE CROSS. Responds to thick planting and high fertility. Holds its long ears well for machine harvest. Plenty of disease, insect and drouth resistance. Sturdy, well anchored stalks stand until harvest. Only a limited supply of this good hybrid. $15.00 BUSHEL

MO. 1023 . — 110 Days Maturity — EXCELLENT YIELDER! RESISTS DROUTH. This outstanding hybrid has consistently been at the top in yield tests. Excellent standability and ear holding capacity. Excellent yielder at moderate and high populations. Adapted over all of Missouri, Southern Illinois and Western Kentucky. You will like this hybrid. $10.50 BUSHEL

BB 25 . — 110 Days Maturity — BIG EARED BEAUTY! TOPS IN YIELD. Big attractive ears, deep kernels-quality grain. Ideal at moderately high plant populations of 18,000 plants per acre. BB 25 stands up and holds its ears for picker or combine. $10.50 BUSHEL

BB 64 . — 110 Days Maturity — NEW SINGLE CROSS! EXTRA HIGH YIELD CAPACITY. Excellent yielder—responds to thick planting and high fertilization. Superior standability with low ear placement. Holds its uniform sound ears until harvest. $18.00 BUSHEL

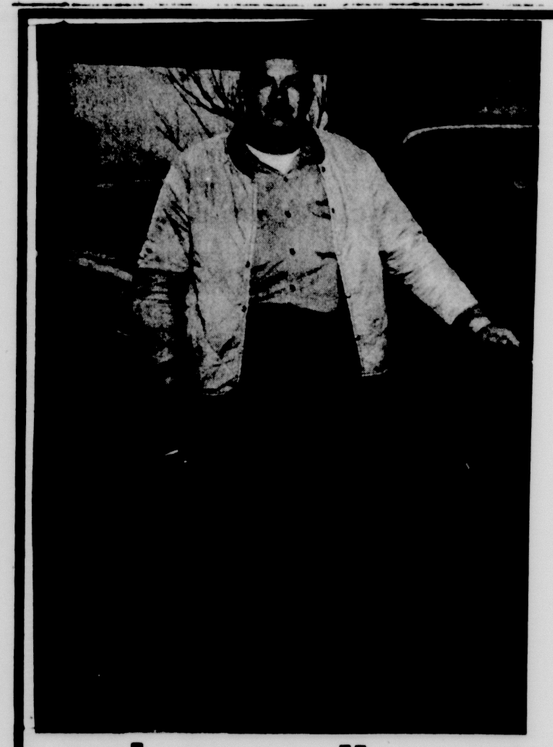

BB 65 . — 110 Days Maturity — MONEY MAKER! Sturdy stalks with medium low ear. High yielder at moderate to high populations. Fast drying hybrid. Only limited supply of this new hybrid. BRED FOR HIGH FERTILITY. $10.00 BUSHEL

THE SEVEN LAST WORDS

Father, forgive them, for they know not what they do . . . .

Verily I say unto thee, Today shalt thou be with me in Paradise. . . .

Woman, behold thy Son!

Behold thy Mother!. . .

My God, my God, why hast Thou forsaken me?. . .

I thirst. . . .

It is finished. . . . .

Father, into Thy hands I commend my spirit. . .

THE PROMISE OF EASTER, 1965

If ever the world needed Easter, it is in the Year of Our Lord 1965.

Far too much of everything Easter symbolizes has been washed away by a torrent of suspicion, conflict, hatred and selfishness.

The one thing nations and people seem to have in common today is mutual distrust.

It isn't hard to build a strong case against the future, against any real hope of peace and understanding and the power of God.

The scoffers are ever more vocal as they deride fundamental precepts of decency and morality and good taste. The haters are ever more vicious as they seek to infect others with their poisonous philosophies.

Is there really any hope?

The promise of Easter says there is. It says there is always hope for those who want hope, that there is always comfort for those who seek comfort.

If this were not so, the hope of mankind would have ended with the crucifixion. But it didn't. There was the resurrection.

Even today in a troubled world, a shaft of light pierces the gloom of discontent, disbelief and distrust. It is the eternal and indestructible hope of man that the power of good surpasses the power of evil.

The truth of this hope has been proven again and again. It is being proved today amidst almost overwhelming strife and turmoil.

If this truth is to prevail -- and it must and will -- it will prevail more easily if men of good will, faith and courage put their trust in it completely, confidently and joyously.

Good over evil, love over hate, hope over despair -- these are ours for the asking, today as always, if we but believe in them and are willing to work for them.

This is the promise of Easter in 1965.

EVERY AMERICAN HAS A STAKE IN THESE 44 WORDS OF THE TAFT-HARTLEY ACT:

"Section 14(b): Nothing in this Act shall be construed as authorizing the execution or application of agreements requiring membership in a labor organization as a condition of employment in any State or Territory in which such execution or application is prohibited by State or Territorial law."

These 44 words provide the means through which the 50 states may prohibit compulsory union membership, and thus safeguard individual freedom and continued prosperity.

Union officials get much of their personal power through the instrument of compulsory membership which gives them monpoloy control of the jobs; and from compulsory dues which gives them monopoly control of the jobs; and from compulsory dues which give them control of approximately $75,000,000 a month.

It is reliably estimated that up to 60% of dues and fees is spent directly and indirectly on politics. This puts into the hands of the union officials massive political powers. If these powers are permitted to expand, union officialdom could gain absolute control over the nation's political, economic and governmental life.

Section 14(b) of the Taft-Hartley Act stands as a barrier against these dangerous and mounting powers of the union hierarchy. The powerful union political machinery is being employed in an effort to uproot the barrier and destroy all Right to Work laws.

* * *

One example of reckless driving is a girl trying to hammer in a nail.

* * *

The New York Herald Tribune reported: "Earlier, a bottle between Moslems and Jews left two Moslems dead and 10 persons wounded." If they can't drink without fighting, they should quit drinking together.

* * *

An after - dinner speaker is one who is always in a phone booth when the waiter brings the check.

* * *

If you drive children to school, says the Portland, Oregon, Traffic Safety Commission, never allow them to leave the car except from the curb side and always let them out on the school side of the street. Don't jeopardize their safety and ignore an opportunity to set the proper example just to save a few seconds.

Only the generous are capable of gratitude.

* * *

Incidentally, the postal system handles two-thirds of all the world's mail, and New York City, for example, handles more mail than the entire British system.

* * *

TIME ADVERTISING COPY

Properly timed newspaper advertising follows the store's sales curve closely. Timed advertising enables a store to plan the newspaper advertising program weeks and months ahead. In this manner no possibilities are missed, no selling opportunities are overlooked.

Newspapers are perfect for timed advertising. They are perfect for merchandise advertising. They are perfect for reaching the largest number of potential customers at the smallest possible cost.

* * *

The equality of the sexes is amply demonstarted when you consider the term "authoress" is no longer used. Female authors today are described as "writers" along with their male counterparts. Even the Post Office no longer tolerates "postmistress" and designates all heads of local post offices as "postmasters," regardless of sex.

* * *

The Department of Agriculture has reported that Americans smoked 16 billion fewer cigarettes during the first half of 1964 than in the comparable period of 1963. That was a 6.5 per cent decline. Cigar sales, on the other hand, increased about 12 per cent.

* * *

The District of Columbia once had "perpetual" registration of automobiles. Once you paid the $2 fee, you were registered perpetually.

* * *

Thoughts while shaving: For those cigarette addicts who heeded the Government report, but are having a hard time quitting the weed, the record industry has just come out with a new LP album entitled, "Music, To Help You Stop Smoking." We'll bet two songs you won't find in it are "Smoke Gets In Your Eyes" and Two Cigarettes In the Dark."

* * *

On or before the 105th day*, of 1965, Charlie Green, married, father of two children, and earning $6000 a year will have done his patriotic bit and filed his 1964 Federal income tax return. No spendthrift he, Charlie will have a pretty good notion where most of his $6,000 went. But sometimes he wonders whatever happens to the Federal income tax money he pays. In the table below, Tax Foundation, Inc., helps Charlie out by showing where his estimated $500 Federal income tax money went in terms of the $97.5 billion in fiscal 1965 Federal budget categories; also where the estimated $450 he may pay in 1966 in terms of the fiscal $99.7 billion fiscal 1966 Federal budget categories:

	1964 Income	1965 Income
Defense	$264	$233
Space	24	23
International Affairs and Finance	20	18
Veterans Services and Benefits	27	21
Health, Labor and Welfare	32	37
Education	8	12
Agriculture and Agricultural Resources	22	18
Natural Resources	14	12
Commerce and Transportation	14	13
General Government	18	11
Interest	57	52
TOTAL	$500	$450

*April 15th

Did you know that 59.6 per cent of all the trips made by automobile in the United States are less than five miles long?

Such is the vital, indispensable information available about the travel habits of Americans. Or, did you know that the "average" vacationer travels 296 miles from his home and carries an "average" of 2.7 occupants in his car? Eighty - two per cent of all people who vacation travel in their own cars, by the way.

The Director of the U.S. Office of Highway Safety, James K. Williams, observed recently that there is now in the United States one vehicle for every two-and-a-half persons and 22 vehicles for every mile of road. Furthermore--note this -- highway accidents cost about one cent for each mile of travel in Illinois, said Williams.

Moving from cars to drivers, the U. S. Bureau of Public Roads announced recently, with fanfare, that 93,700,000 people, about half the population, are licensed to drive.

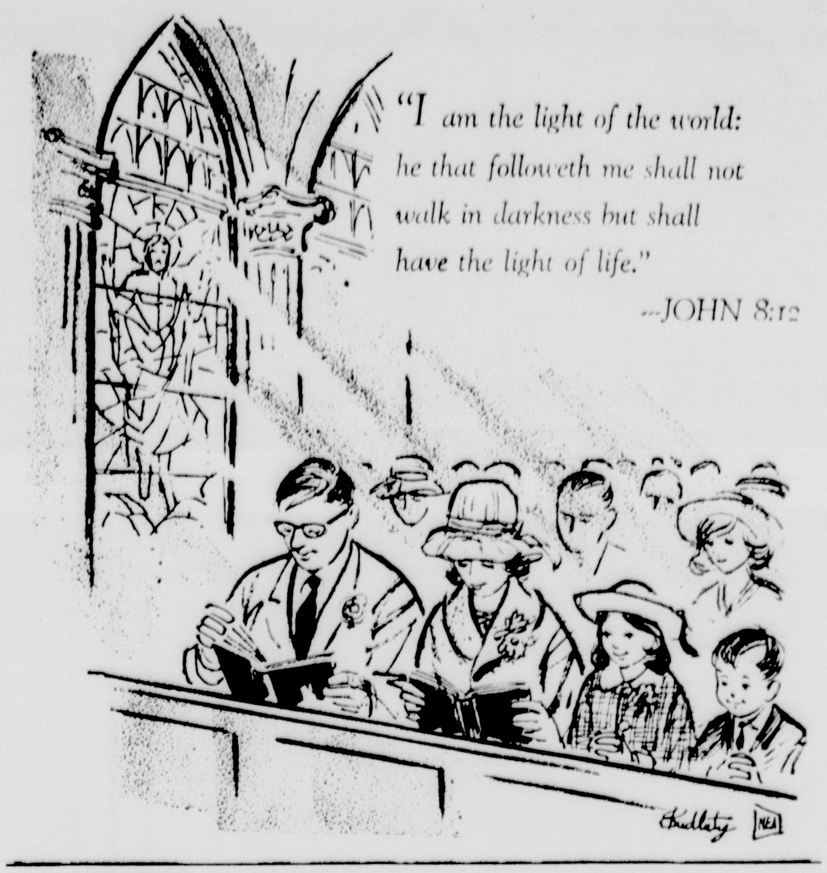

With that many drivers behind the steering wheels of that many cars, things are bound to happen. The Traffic Engineer of Westchester County, N. Y., got into the statistics act recently by announcing that during 1963, 14,241 persons were injured in automobile accidents in his county and that this is more than the entire population of the city of Rye.

All of which probably made the residents of the city of Rye feel somewhat insecure.

Following a logical train of thought, we come to statistics on the means for preventing many accidents by so many cars with so many drivers driving them down the 3,600,000 miles of road in the United States.

Did you know that 17 states and the District of Columbia require light reflecting license plates? It is estimated that more than 16 million motor vehicles carry the night-time-safety devices which have presented a lot of rear-end collisions.

To conclude this compendium of vital information about the field of private transportation, allow us to inform you that 86 per cent of the families in Klamath Falls, Oregon own automobiles.

TOMORROW

APRIL 18 -- SUNDAY

EASTER SUNDAY. Commemorates the Ressurection of Christ.

ANNUAL MORAVIAN EASTER SUNRISE SERVICE. Winston-Salem, North Carolina.

EASTER SUNRISE SERVICE. Sponsor: National Park Service and Hot Springs Chamber of Commerce, Mort S. Cox, Executive Vice President, P. O. Box 1140, Hot Springs, Ark., 71901.

MARION EASTER SUNRISE SERVICE. Sponsor: Marion Easter Pageant, Thomas E. Tobin, President, Charles & Tobin Attorneys, Marion National Bank Building, Marion, Ind., and (2) Marion Chamber of Commerce, Dickwin D. Armstrong, Manager, 325 South Adams Street, Marion, Ind., 46952.

SOUTH TEXAS TRADITIONAL ART SHOW. Corpus Christi, Texas.

EXPECTANT FATHERS DAY. Purpose: "To humor the forgotten man -- the expectant father." Sponsor: Bert Nevins, Inc., Time - Life Building, New York, N. Y., 10020.

NATIONAL YWCA WEEK begins. Through 25th. Purpose: "To tell the story of the YWCA to the public in order to increase its understanding and support of our work." Sponsor: National Board of the YWCA of the U. S. A., Ida Sloan Synder, Bureau of Communications, 600 Lexington Avenue, New York, N. Y., 10022.

BERMUDA FLORAL PAGEANT WEEK begins. Through 24th. Purpose: "Salute to Bermuda's Easter lily as well as other Bermuda flowers." Sponsor: Bermuda Chamber of Commerce, Robert Law, Executive Secretary, represented by Bermuda News Bureau, Richard D. Aeschliman, Manager, Hamilton, Bermuda.

INTERNATIONAL GOOD HUMAN RELATIONS WEEK begins. Through 24th. Purpose: "To promote Good Human Relations everywhere through speech and service throughout the world." Sponsor: Dale Carnegie Alumni Association, Ind., Patricia Bridwell, Executive Director, 2140 East 52nd Street, Indianapolis, Ind., 46205.

HONEY FOR BREAKFAST WEEK begins. Through April 25th. Purpose: "To promote honey as a delightful and nutritious food with which to start the day." Sponsor: American Honey Institute, Harriett M. Grace, Director, 114 North Carroll Street, Madison, Wis.

SECRETARIES WEEK begins. Through 24th. Purpose: "To bring recognition to secretaries for the vital role they play in business, industry, education and the professions." Sponsor: The National Secretaries Association, 1103 Grand Avenue, Kansas City 6, Mo., Lillian Martino, Executive Secretary, Fran Riley, Public Relations Director, MacColl - Ripley Associates, Inc., 75 East 55th Street, New York, N. Y.

APRIL 19 -- MONDAY

PATRIOT'S DAY. Legal holiday in Maine, Massachusetts, Commemorates Battle of Lexington and Concord, 1775.

JOHN HOWARD PAYNE MEMORIAL DAY. Celebrates composer of "Home Sweet Home."

ANNUAL CONVENTION OF NATIONAL CATHOLIC EDUCATION ASSOCIATION begins. Through April 22nd. Purpose: "To provide a general meeting of all NCEA members for the study of solution of educational problems." Sponsor: National Catholic Educational Association, Rt. Rev. Msgr. Frederick G. Hochwalt, Executive Secretary, 1785 Massachusetts Avenue, N. W., Washington, D. C., 20036.

NORTH & SOUTH INVITATION GOLF CHAMPIONSHIP FOR WOMEN begins. Through 23rd. Pinehurst, North Carolina.

BIKE SAFETY WEEK begins. Through 24th. Purpose: "Education of cyclists in safety consciousness, safety and maintenance and rules of the traffic safety week." Sponsor: Optimist International, Louis C. Jurinich, Boys' Work Director, Ralph Gentles, Public Relations Officer. 4494 Lindell Boulevard, St. Louis, Mo., 63108.

FREE WORLD FRIENDSHIP WEEK begins. Through 25th. Purpose: "World Peace through practical education projects including Inter - Continental Brotherhood Missiles." Sponsor: Senior League, Inc., Evan P. Lovett, Executive Director, Box L. Ambassador Station, Los Angeles, Calif.

DOGWOOD ARTS FESTIVAL begins. Through May 2nd Purpose: "To encourage the citizenry of Knoxville and vicinity to have pride in the community. Sponsors: (1) Knoxville Chamber of Commerce, Henry Guigou, Director, Civic and Governmental Affairs, and (2) Knoxville Junior League.

* * *

Speaking of the Great Society, there is a minority in America for which:

Unemployment averages 45 to 50 per cent; median family income is $1,500, housing is 90 per cent below acceptable standards; average educational level is five years; average age at death is 43.

WHICH HAS:

An infant mortality rate almost double that of the general population; influenza and pneumonia death rate twice as high; tuberculosis incidence seven times as great and TB death rate five times higher.

WHERE:

Infant mortality from parasites and other causes rare in the general population are a commonplace; diseases virtually unknown among other Americans, such as blindness-causing trachoma, still persist.

WHOSE MEMBERS:

Often haul drinking water, from unsafe sources, a mile or more; live five to a room; have an accident death rate three times the national rate, caused by overcrowding, the use of gasoline or kerosene lamps, snake bites and other conditions typical of their primitive and isolated environment.

The minority is the original American, the Indian, who, except as a decoration in Western movies, has all but vanished from the national consciousness.

The figures were cited before a Senate subcommittee by Dr. Carl Muschenheim of the Association on American Indian affairs, a voluntary organization.

President Johnson has recommended a budget of a little over $66 million for the Division of Indian Health for fiscal 1966, an increase of some $3.4 million over 1965, to aid 380,000 Indians and native Alaskans in 24 states. In the past 10 years, the government has made impressive gains in cutting the Indians' death rates.

But it is not enough, the association maintains, pointing out that salary increases will account for over $900,000 of the President's proposal. It recommends at least $5 million more a year, plus something like $12.2 million for the construction of sanitation facilities and for medical services.

A special five-year campaign against trachoma, says Dr. Muschenheim, could wipe out that disease for $1 million.

Note left on Music Store Door: "Johann to lunch. Bach at one. Offenbach sooner."

* * *

THE HAUTE MONDE

A rich, haughty heiress visited the hospital to see her chauffeur who had been badly injured in an automobile accident in which she was uninjured.

"He's a very sick man and should see no one but his family," the doctor said. "Are you his wife?"

"Certainly not," the indignant heiress declared. "I'm his mistress."

* * *

MONKEY'S ON FIRE

A man who owned a hand-operated rotisserie was barbecuing a chicken in his back yard and turning the crank for it, when a beatnik walked by.

"I don't want to bug ya, dad," said the character, "but your music's stopped and your monkey's on fire."

* * *

People are spending about the same amount -- 19.7% -- of their take-home pay for food this year as last.

* * *

National Commander Donald E. Johnson of the two-and-a-half-million member American Legion says his National Executive Committee unanimously urges revocation of the VA order of Jan. 13 closing 11 veterans' hospitals and other VA facilities.

He calls on the President and Congress to investigate first, close later. VA officials, he says, are merely trying to cut costs on Executive orders. Both Budget and VA officials, he said, failed to convince the Legion's week-long Fifth Annual Washington Conference that the reasons given justify the closing.

In other words. It didn't sound like the Great Society to the Legionaires.

* * *

Of every six persons who get cancer today, two will be saved and four will die. Two will be cured through prompt diagnosis and treatment. One will die who might have been saved if only he or she had received medical attention in time. The American Cancer Society urges annual health checkups for all adults.

* * *

Dr. Marshall Says

The lawyers have run this country long enough. They have grafted until they have ruined and wrecked our country.

Washington-Merry-Go-Round

By Drew Pearson

WASHINGTON-- Admiral William F. Raborn is such a nice guy that the Senate will doubtless confirm his as chief of Central Intelligence without much debate.

I happen to like the Admiral too. However, as a newspaperman I must report that since Raborn's retirement he has been steeped in exactly the atmosphere which Dwight D. Eisenhower blasted so vigorously in his last message to the American people, when, Jan. 17, 1961, he warned of a dangerous alliance between the big military complex and the big defense complex.

The big defense complex from which Admiral Raborn came -- Aerojet -General Tire-Polaris --went one step beyond Gen. Eisenhower's warning and also includes radio-television and newspapers.

In addition, Rep. Edward Hebert, D-La., disclosed in a congressional probe of defense lobbying that Aerojet employed 66 admirals, generals, and other retired officers, of whom 26 gave identical, evasive answers dictated by Aerojet when asked whether they had lobbied for defense contracts. Rep. Hebert never did get a real answer on this point.

--RABORN AND AEROJET--

Admiral Raborn was in charge of the Polaris Missile Program for the Navy from 1955 to 1963 and immediately upon retirement walked over to the company which had the chief polaris contract-- Aerojet-- to become its vice president in charge of polaris production in California. He was not, however, one of those grilled by Rep. Hebert.

Relations between the Navy and Aerojet have been so chummy during part of Raborn's regime in the Navy that it has been difficult for congressmen and government accountants to fathom where the government's business stopped and Aerojet's began. It was fairly easy to ascertain, however, that the taxpayers' interest was not being served.

The House Armed Services Committee discovered, for instance, that the Navy placed $4,-800,000 in buildings on Aerojet property from 1946-52, and since the property could not readily be removed, it reverted to Aerojet.

"This is a heads-I-win, tails -you-lose proposition," commented Rep. William Bray, R-Ind.

Admiral Raborn was not in charge of the Polaris program at that time, but Dan Kimball, now president of Aerojet, was then assistant secretary and secretary of the Navy.

Later, Admiral Raborn was in charge of the Polaris program when the Defense Department permitted Aerojet to charge up the $205,000 cost of a cafeteria to the taxpayers, even though Rep. Porter Hardy, D-Va., showed that the cafeteria showed a profit of $71,000.

--NEW MONPOLOY--

This defense contractor background of the new chief of Central Intelligence is important for the following reasons:

1. Rep. Wright Patman, D-Tex., has exposed some of the secret links between big business and the CIA. There have been others, including the manner in which CIA arranged for tax-free business funds to go into an anti-Israel, pro-Arab organization in the Middle East at a time when the White House was trying to keep peace in the Middle East; and how CIA siphoned corporate funds into anti - Soviet radio broadcasts through Radio Free Europe at a time when the White House was trying to improve relations with the Soviet.

2. The CIA operated through various business blinds to secretly conduct one of the worst catastrophes in recent American history--the Bay of Pigs landing on Cuba.

3. The policy of General Tire-Aerojet regarding news monpoloy is directly contrary to the policy of the Justice Department.

The Justice Department of late has brought more antitrust suits against newspapers than at any other time in history. Simultaneously, here is what the defense complex from which Admiral Raborn comes to CIA has been doing in this field:

General Tire and Rubber, whose executives, the O'Neill family, were among Joe McCarthy's staunchest rooters, own RKO General which owns and operates WOR and WOR-TV in New York, KHJ-TV in Los Angeles, WNAC-TV in Boston, WHBQ-TV in Memphis, CKLY-TV in Windsor, Ontario, and WHCT-UHF-TV in Hartford.

General Tire and Rubber, on top of this, has just acquired 48 per cent of the stock of the Schenectady Union Star.

Last year, Rep. Don Edwards, D-Calif., warned Congress of the manner in which some radio-TV empires owned by big defense contractors were influencing the defense budget and the problem of disarmament. He named, among others, the Radio Corporation of America, which owns and controls the National Broadcasting Company.

However, General Tire's purchase of a large slice of the Schenectady, Union Star is the first time, so far as known, that a big defense contractor has also barged into the newspaper business on top of a TV empire.

In view of these facts, and the fact that Congress has no check on Central Intelligence it is important for the press to scrutinize the immediate background of its new chief--even if Admiral Raborn is such a nice guy.

Inside Labor

By Victor Riesel

Moscow Pressuring U. S. Labor Chiefs in Attempt To Stir Attacks on American Bombings of Viet Cong

NEW YORK:-- A Western Union messenger delivered a cablegram from the Soviet Union to an American labor leader here at exactly 12:41 p.m. on Saturday, April 10.

The message was dispatched from 42 Leninsky Prospect, Moscow, a day earlier. It marked the launching of a bold drive inside the U. S. aimed at provoking American union chiefs into an assault on the Pentagon's policy of bombing the Viet Cong.

The cable which signaled one of the most daring Soviet propaganda operations inside the U. S., was sent to Joe Curran, National Maritime Union president. His was a "go-to-hell" reaction.

Others were dispatched from Moscow to unionists whose names and addresses were supplied by the U. S. S. R. Embassy. Each had the same blood-and-thunder prose:

"Expressing opinion members U. S. S. R. Sea River Workers Union," said the cable, "feeling indignation against aggressive actions American militarists in Viet Nam, we request you in name international solidarity workers and strengthening peace on earth, to condemn aggression American military forces using war gas also napalm against population South Viet Nam bombing and shelling territory democratic Republic Viet Nam killing women old men children destroying cultural and material values. (Signed) Sayenko, Chairman."

Officially, Mr. G. Sayenko is chairman of the Central Committee of the U. S. S. R. Sea and River Workers Union. Actually he is a political commissar. He has never been to sea.

His assignment is to run the strategic manning of the Soviet's merchant marine which runs the long ocean ferry lines to Cuba, Red China and North Viet Nam as well as to all other world ports except the U. S. Here Soviet ships are boycotted by the International Longshoremen's Assn.

Sayenko's official actions are on orders from the Soviet government or its secret police. Not too long ago a delegation of Western maritime officials presented him with a ship's clock as a polite gesture during a visit to Moscow. Sayenko refused to accept the small gift until he checked with the State Security police (KGB.)

There is evidence that the Sayenko cable is just part of a series of Soviet efforts to stir some of America's transport unions into a break with official government policy in Southeast Asia. Pressure also has been put on Paul Hall, president of the Seafarers International Union and other labor officials by Nicolai Fedorenko, U. S. S. R. Ambassador to the United Nations.

Mr. Hall, whose waterfront headquarters is in Brooklyn, has refused to meet with the Communist ambassador.

These overt Soviet moves reflect the hardening of Moscow's policy toward America. The tactic is shrewd. If the cables and other pressure on American labor leaders do flush out an attack on the bombings of the Viet Cong guerrillas, the Soviet propaganda machine will have made a profit indeed.

If the messages are ignored, the Soviets still can exploit the operation simply by broadcasting the fact that its pleas for "solidarity" against the bombings were rejected.

The decision to open up in the U. S. must have been a sudden one. Until April 10 the word from Moscow to its Communist allies in America called for sleeper tactics.

This directive was brought back from behind the Iron Curtain by veteran Communist Louis Weinstock, long the top Communist labor specialist in our country. For decades he was their organizer of May 1 parades and demonstrations.

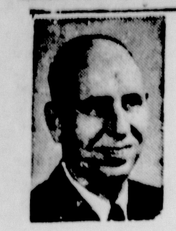

Late last year he attended the Budapest session of the Soviet - controlled World Federation of Trade Unions. In January he returned with the briefings for American Communists active inside labor.

The American Communists were told to work behind the scenes. They were eager to exploit the unrest in the coal mine patches, the steel mill areas and amongst railroad workers.

But the policy called for restraint until the Supreme Court rules on the Landrum-Griffin Act's ban on Communists' holding union office. If the high court rules this legal, the Communists would then fan out and organize their labor clubs openly. But there has been no decision, though the Court said last November that it would act on the matter.

Furthermore, the Communists had hoped to beat the Internal Security Act indictments during a March trial. However, the federal court postponed the trial until next Oct. 14. Thus they have been a very long way from being able to use possible favorable court decisions as evidence of unrestrained legality. So they were quiet.

The silence was broken by the cables and pressure from Moscow.

SCOTT COUNTY *Ramblings*

by
TOM B. STROUP
Director and Agricultural Agent

PLANTING RATES

Today we hear much discussion about the proper planting rates for corn.

According to research done in Missouri, it appears that between 14-16,000 stalks per acre seems to be the best corn population with present varieties.

On our very best soils we should go up to 18,000 stalks per acre in 36 to 38 inch row spacings.

We probably should not go above 20,000 stalks on the very best river bottom soils.

SOYBEANS -- If weeds were not a problem, and that is a "big if," for on most soils here in Scott County we do have a weed problem . . .we could get slightly higher yields by drilling soybeans than by rowing them. But since weeds are a problem, we must be concerned with planting methods to control weeds.

The best guide on row spacing is that width to fit your total operation. While some increase can be obtained by closer row spacings we must consider other crops on which equipment is used.

You should use a rate of plantings to get a good start of soybeans. This will be about 45 lbs. per acre on most soils. You may need to go up to 60 lbs. or 1 bushel per acre on tight gumbo soils.

SORGHUM GRAINS -- The sorghum crops do not do well in real high populations. They must have room to spread and form a good head. our recommended rates ae 3 to 5lbs. per acre.

For more information contact your University Extension Center.

ROUNDWORMS IN CATTLE

There are many internal parasites of cattle including roundworms, flatworms and small, one - celled organisms known as protozoa. This discussion is confined to roundworms of the stomach and intestines which are considerable economic importance here in SEMO. The cattle raiser should be aware of the indirect drain of internal parasites upon overall production rates.

WHERE DO CATTLE GET ROUNDWORMS?

Most roundworms spend a portion of their life cycle on the ground or grass. These are usually in the form of eggs or larve which have been deposited with the manure from carrier cattle. After a period of development the larvae are ready to be ingested with grass by grazing cattle.

HOW DO ROUNDWORMS PRODUCE DISEASE?

Most of the roundworms feed in or from the inner lining of the digestive tract. They may suck blood or cause ulcers or nodules in the intestinal wall. At any rate, the function of the digestive tract is greatly hindered. Growth and gains are retarded and feed conversion is reduced.

WHEN ARE PARASITES MOST DANGEROUS TO CATTLE?

Parasites are usually most damaging to beef cattle between 8 and 20 months old. Dairy calves may be affected much earlier unless good management practices are followed. The beef calf is protected during the early months of life by resistance provided by the mother's milk. Also the beef calf isn't usually forced to close pasture grazing at an early age.

WHAT PASTURE CONDITIONS DO ROUNDWORMS PREFER? Roundworms like plenty of rain, high humidity and overcast skies. They like dense forage which gives protection from sunlight.

NATURAL FACTORS WHICH HELP CONTROL PARASITES

Sunlight, drying, freezing and thawing all help to reduce populations of worm eggs and larvae on pastures.

HOW CAN THE CATTLE RAISER CONTROL ROUNDWORMS?

Proper stocking rates are vital to parasite control. Overgrazing usually results in lower nutrition levels with secondary lower resistance to the effects of the parasites.

Rotation grazing may be used for parasite control. Calves and yearlings should be grazed on upland or well drained pastures when possible.

Swamps and farm ponds should be fenced out of grazing areas.

Good nutrition is the first line of defense. Supplemental feeding or grazing during extreme dry summers is needed. Supplemental Vitamin A may reduce the effects of roundworms during late winter.

Cotton Market News

Buying of spot cotton decreased from a week earlier, according to the Consumer and Marketing Service, U. S. D. A. Prices were fairly steady. Demand was centered around the Low Middling through Middling grades with staples of 1-1/32 and 1-1/16 inches. Some buying of Strict Good Ordinary Plus through Below Grade cotton was reported. Farmers continued to sell loan equities from $1.00 to $3.00 net per bale.

Domestic mill demand weakened. Buying continued in small lots but most shippers were concerned with meeting prior commitments. Inquiries for new-crop cotton increased though purchases remained small in volume.

Foreign mill inquiries were fairly light. Prices slowed trading and only a small volume sold.

Higher temperatures warmed the soil and planting should make progress in early sections during Easter week. Frequent showers and 50 to 60 degree temperatures slowed seedbed preparation and planting in the central and northern sections of the area. Many farmers are anxious to get into fields and show considerable signs of impatience.

EIGHTY SEVEN OBTAIN INFORMATION AT SOILS AND CROPS MEETING

Eighty - seven Stoddard County farmers obtained information pertaining to soil improvement and crop production during a series of six Community Soils and Crops Meetings held throughout the county recently. These meetings were conducted by local Extension Agents in Bernie, Richland, Dexter, Advance, Puxico, and Dudley to assist farmers in making plans for the coming crop season.

Subjects discussed at these meetings included the use of fertilizer and lime according to soil test recommendtations, recommended crop varieties, chemical weed control recommendations, irrigation, and insect and disease control in field crops including the New Corn Stunt Disease and the soybean Cyst Nematode problem. The meetings were conducted on an informal basis during which farmers were allowed to ask questions, and MU Guide Sheets and bulletins pertaining to the subjects discussed were made avilable to the farmers in attendance for future reference.

One Of The 10 Most Wanted Men

DONALD L. PAYNE

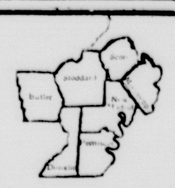

Donald L. Payne, a highly dangerous convicted rapist, charged with a sex attack upon a Houston, Texas, girl in July, 1959, is one of the FBI's "Ten Most Wanted Fugitives." He is being sought for unlawful flight to avoid prosecution for the crime of rape.

Payne allegedly raped an 18-year-old Houston, Texas, professional dancer on July 10, 1959, after gaining entrance to her residence on the pretext of offering her a dancing job. He reportedly threatened to strangle her if she resisted or cried for help. He has also been identified as the perpetrator of a vicious sex attack on a 12-year-old Houston boy on July 5, 1959.

Payne has a long, foul history of violent criminal sex attacks and parole violations. He has been described as a dangerous man who "would not hesitate to kill."

Payne, a white American, was born at Haskell, Oklahoma, on July 19, 1918. He is 5'10" tall, weighs approximately 140 pounds, has a slender build, ruddy complexion and brown, receding hair. He has worked as a newspaper solicitor, fry cook, farm hand, laundry worker, machinist, salesman and tailor. He is identifiable by a large scar on his right index finger. He also has a hernia scar, a birthmark on his right elbow, a scar on his forehead and a tattoo of two hearts, a wreath and the word "Christine" on his right forearm. He should be considered armed and dangerous.

Bootheel Beat . . .

—By MAX STURM—

SOUTHEAST MISSOURI NEWS SIDELIGHTS, FEATURES AND OBSERVATIONS.

THE MISSOURI BOOTHEEL'S continuing drive for greater industrialization has a lot more working for it these days than in years past.

In the first place the region has shaken off its former identification as solely an agricultural area which slowed down the establishment of industries unrelated to agriculture. In years past, industrialists held the opinion that we mainly had a multitude of excess hoe hands and cotton pickers here from which they could draw their factory workers, and they took a very dim view of it. They virtually threw up their hands at the thought of trying to make skilled personnel out of these people.

A number of factory owners, however, have gone ahead from year to year and have proven that this old labor viewpoint isn't entirely true. They have shown that the Bootheel can become a profitable industrial area as well as agricultural. So let's take a look and sum up, at least partly, what has been going on industry - wise in the Bootheel during the last few years. The best way we think is to list as many products we can think of that are being manufactured today in the region:

Garments and shoes, toys, furniture, wood products, wheeled metal products, tractor and truck mufflers and exhaust pipes, canvas products, farm implements and trailers, fire extinguishers, sports airplanes, graphic arts products, electrical products. This list probably isn't complete, but it is sufficient to show the wide variety of items being made currently in our area.

The point is that this list ought to convince any individual or company contemplating plant expansion or the location of new plants that the Missouri Bootheel is a proven industrial area now with a labor supply that can be trained quite satisfactorily as skilled factory workers.

It is often said that success breeds success, and "them that has -- gets," so since the Bootheel is now a successful industrial area, we ought to place more emphasis on capitalizing on it and have more industries established here. One step in this direction would be a strong promotional campaign aimed at the right man in a number of industries over the nation pointing out that we can take care of them as we are doing others. It shouldn't be quite as difficult as back there in those days when we couldn't show much of a variety in industrialization.

The big city newspapers and civic leaders would like for rural and smaller urban centers campaigning for more industries to believe that it is morally wrong to entice their industries. They call this pirating. I'm not yet convinced that they are entirely correct in their viewpoint, especially the way things have become in the heavily populated cities.

It is well known that for many years the big cities have pulled population away from the rural areas and small towns and cities, as the people sought employment not available in their home regions. This has made the big cities bigger and small towns smaller. On top of that life in the big cities has reached the point where it lacks much to be desired, what with the slow strangulation by the constantly increasing automobile traffic, forcing thousands to escape to the suburbs. An additional point that was much discussed back in the early nuclear bomb days was that for self-preservation and the country's defense, industries should be dispersed over the nation -- and this meant that more of them should locate in the smaller towns rather than in the big cities.

Thus, it would appear that from our rural viewpoint, if the Bootheel has something better to offer additional industries than the cities have we ought to feel free to advertise the fact. Obviously, it would be better for the United States to have more smaller cities with the population and industries well distributed over the nation rather than being concentrated in a few big centers. So what is wrong with trying to bring in industries from the cities -- that enticed our population away in the first place? Looks to me like it's a matter of "turn about is fair play."

IT DOESN'T HAPPEN every day that a Bootheel worker is so outstanding in his field that he is given a special assignment to handle a short-term job in his work in a foreign country. Since this goes along with the point we are trying to make about the dependability of Bootheel industrial personnel, I would like to tell about it here, however.

James Krepps, a former flight instructor and aircraft maintenance specialist for the Air Force at the former Malden Air Base, has been maintenance supervisor for Dick Reade's Mid - Continent Aerial Sprayers in Hayti for three years. What he doesn't know about building, assembling and flying such airplanes apparently hasn't been written yet.

A short time ago the Grumman Ag Cat factory at Elmira, N.Y., sold a couple of their crop spraying planes to a customer in Spain, and they needed an expert to go over there and supervise the unloading of the craft from an ocean liner, reassemble and test fly them before delivery. To find the right man for the job they came to Hayti, Mo., asking Reade, one of their dealers, if he would lend them his man Krepps for three weeks to fly to Spain and take care of the matter.

Krepps is on the job now and is due back in Hayti April 21.

THE BOOTHEEL has a number of people who are outstanding in civic club and other organizational work as well as in employment fields. For example, Mrs. Margaret Rone of Hayti is in line to become the state president of the Missouri Federation of Business & Professional Women's Clubs in 1966-67. From the position of first vice - president now she will move into the spot as president - elect for 1965-66, then president the next year.

Mrs. Rone, long active in B & PW activities locally, regionally and state wide, is chairman of the organization's state convention which will be held in the Chase-Park Plaza Hotel in St. Louis April 23-25. This will be the state federation's 44th annual get-together and some 600 members are expected to attend from 116 individual clubs.

FINDING THE WAY

World Needs 'Easter Christians'

BY RALPH W. LOEW, D.D.
Newspaper Enterprise Assn.

Stand at the Berlin Wall and stare at the crooked, guarded entrances, the menacing guards, the sealed border. To breach the wall seems impossible. To attempt it seems incredible. Yet the young man speaking with us had come through that wall!

Talk to some neighbors who normally are gentle and cultured but who, from time to time, share harsh attitudes about human relations. To break down that wall seems impractical and impossible. Yet there is a new spirit at work and the new breakthroughs are obvious. Ideas had breached the wall.

These are events in our time. Easter marks the event in another time that breaks into our time. Some men had seen their friend die on the Cross. They were paralyzed with fright and frustration. Yet within days they were out on the highways with the bold word of undefeated life. They had faith that he had broken the sealed tomb. Easter had breached the wall.

Our world needs Easter Christians. We've chided these people who crowd the churches in an annual pilgrimage. Suppose they didn't come—even on Easter. Suppose that there was no one to share the word that there had been a break-through of the wall of fear and suspicion.

The real Easter Christian is the undefeated believer who refuses to accept the verdict of death to men's hopes. Even a "one-in-a-year" tradition admits this; there's the chance that the gesture could become a commitment!

The mystery of life beyond the grave is as real today as it was in times past. Easter is the assurance that man can refuse to make the tomb his horizon and death his goal. Life is not a camera that smashes into the craters of death. Easter proclaims that life can be met with courage and death with dignity. It is the refusal to be walled in.

Stand at any bristling wall in this angry world. The walls are everywhere. You'll always find the cynical or the defeated or the fear-paralyzed.

Yet you'll always find the undefeated, the hopeful and the persistent lovers of righteousness. They're the real Easter Christians. They refuse to take a wall—or a sealed tomb—as the final verdict.

Of Interest To Homemakers

by fredericka plummer

CLOTHING WORKSHOPS COMPLETED THIS WEEK

Homemakers who sew have been attending one or both workshops which were held on Thursdays for the past four weeks in the 4-H Building in Charleston. Miss Jewel Grady, Extension Home Economist-Clothing, has been the instructor.

Those attending the morning session have been improving their skills and making their sewing easier by learning correct techniques. Skills demonstrated by Miss Grady have included covering belts; facing sleeveless and collarless blouses or dresses; making cording, bound buttonholes, pleats; and putting in zippers.

Pattern Alterations was the subject of the afternoon workshop. The goal of those attending was to alter their individual patterns so that each can make attractive, durable, well - fitting clothes. They found that most women have some figure irregularity which requires that some change be made in purchased patterns. To complete this workshop the homemakers made muslins and fit them in order to make the changes needed in their patterns.

Those attending the Pattern Alteration Workshop were: Mrs. Ralph Adkisson, Mrs. Urcil Anderson, Mrs. Bill Arington, Mrs. Mary Coffman, Mrs. Leon Hudson, Mrs. Johnnie Knupp, Mrs. Charles Lingle, Mrs. Charles Loflin, Mrs. Rex Mainord, Mrs. Glenn Patton, Mrs. Ted Pierceall, Mrs. Mark Rolwing.

Attending the sewing techniques workshop were: Mrs. Adkisson, Mrs. Kirb Anderson, Mrs. Urcil Anderson, Mrs. Alva Denton, Mrs. Loflin, and Mrs. Mark Rolwing.

Matthews News

Mrs. W. E. Shupe of St. Louis and Mrs. Retta Kellett of Sikeston visited Tuesday evening with Mrs. L. D. Waters.

The Rev. E. Leo Balf of Covington, Tenn. will conduct evangelist services at the Christian Church here the week of April 18 to 23. The congregation extends an invitation to all to attend these services which will begin at 7:30 p.m.

Mr. and Mrs. Louis Evans of New Madrid entertained members of the Sophomore Class of Matthews High School with a party at the Community Center Saturday evening. Approximately sixty young people enjoyed an evening of games, dancing, and refreshments. Mrs. Evans teaches English at the high school.

Sleepy-eyed man, sitting on bed and staring out window, to wife: "Darn it! It looks like it's going to be another day."
—Jeff Keate

Here's cotton growers' first step in the Chemagro Practical Cotton Program

Give your crop an early, vigorous start by protecting against early-season pests with Di-Syston—the proven systemic insecticide

Di-Syston protection is absorbed as soon as root system forms. Entire plant is protected against aphids, mites and thrips up to 8 weeks.

Di-Syston is your first insect-control step toward a high quality cotton crop. This *proven* systemic insecticide prevents stunted, crooked plants caused by aphid, mite and thrips damage during the early seedling stage. Cotton sets fruit and squares early to make a good bottom crop. Di-Syston is applied at planting time and works from inside the plant where it is unaffected by weather. And, since Di-Syston is *inside* the plant, it will not harm beneficial insects . . . kills only the insects that suck plant juices. Start your cotton off right this season. Apply Di-Syston at planting time. 1510

RICHARD F. McINTOSH

Extension Area Farm Management Agent

FERTILIZE SOYBEANS?

Does it pay to fertilize soybeans? "The answer is yes on soils low in fertility," according to John Garrett, Extension Area Soils Agent.

"Limestone is a must for high soybean production on acid soils." Soybean yields can be increased eight to fifteen bushels per acre by applying limestone to acid soils.

Soybeans should be fertilized with potash and phosphate when grown onsoil testing low or very low in these nutrients.

The following charts show some of the soybean fertility experiments that have been conducted in southeast Missouri by the University of Missouri Soils Department.

RESPONSE OF SOYBEANS TO LIMESTONE AND POTASH ON LOW TESTING SOILS
(2 year average)

Lbs. K O/Ac.		Tons Lime Per Acre	
2	0	1.5 T	3 T
0	17	25	29
60	24	30	34

POTASH

Experiments were conducted at 19 different locations to determine the response of soybeans to potash on soils testing below 150 lbs. of potash.

The application of 60 pounds of potash on soils testing below 150 pounds of potash increased yields 2 to 13 bushels peracre.

The average yield increase was 6 bushels per acre for 19 trials.

The average yield increase from the application of 60 lbs. of phosphate in 8 experiments on soils testing below 100 lbs. was 3 bu. per acre.

The following are some guide lines to follow on soybean fertilization.

1. Take a soil test to determine if limestone, potash, or phospnate is needed.

2. Follow the recommendations on te soil test.

3. If the soil has a pH of 5.8 or below you cannot get best returns with potash and phosphate unless you apply the limestone needed to correct the acidity.

You can band up to 60 lbs. of potash and 60 lbs. of phosphate safely about 3 in. to the side and some what below the seed. If it can't be banded in this manner, or if higher rates are recommended, broadcast the potash and phosphate and plow it down.

The World Of Barbara Broyles, Wife Of The Coach

THE FEMININE TOUCH
Barbara Broyles
By BILL SIMMONS
Associated Press Writer

FAYETTEVILLE, Ark. (AP —There are sounds in the world of Barbara Broyles:

—The thick "thump" of a punt.

—The tiny "ting" of crystal.

—And, if you telephone and ask for her, a daughter may oblige you in this manner: "Aalleeaalahh, mother, it's for you!"

They are the sounds of a marriage that will begin its third decade on May 7, 1965.

Barbara Broyles is, as her husband puts it, the "better half" of Frank Broyles, an easy-going, red-haired, drawling native of Georgia.

The Football Writers Association of America said he was the coach of the year in 1964.

"That was marvelous," said Barbara Broyles. "That was somethat that you dream about and you say, 'Boy, wouldn't that be just great, but you never believe it really will happen. It's like a dream."

Frank Broyles coached Arkansas' Razorbacks to an 11-0 season, including a victory in the Cotton Bowl game, to finish with the No. 2 team in the nation in The Associated Press football poll.

It is a dream that Barbara Broyles never imagined would come true, more than 20 years ago when she was working six days a week in an aircraft factory in Marietta, Ga., and Frank Broyles was in the Navy's V-12 program.

They had met in high school at Decatur, Ga., where he was a football hero, and during eight semesters at Georgia Tech he remained a football star, setting an Orange Bowl passing record.

"I never saw him play in college until his last year," Barbara says. "I saw him in high school, though."

Broyles coached at Georgia Tech, took his first head coaching job at Missouri, and came to Arkansas as head coach in 1958. His first year with the Razorbacks unfuried six straight losses — disaster.

"Frank is easy to get along with," Barbara says. "Of course, coaches are always busy, winning or losing. He doesn't bring his work home with him. He's just perfect. The only time it ever changed any was in 1958 when we lost those six games. I think that really shook his confidence."

Broyles rebounded with four victories in the remaining games in 1958, then began a string of successful seasons that has made him the greatest coach in Arkansas' history and one of the best in the nation today.

"There's always pressure on a coach," Barbara explains. "But Frank would rather be winning than losing, and I'd rather it be that way, too, because when he's winning he's more relaxed, I think."

The Broyles household is not the place for one with jumpy nerves. There are six children — Jack, 17; Hank, 15; Dan 12; Tommy, 10, and twin girls, Betsy and Linda, 6.

"The four horsemen and two cheerleaders," Barbara Broyles beams.

In her moments of free time she sometimes goes golfing and now and then her husband goes along.

"But it doesn't work out too well," she said. "He tries to coach me, and I'm not a very good pupil. It comes close to winding up in a fight. He's always coaching."

Barbara Broyles is brown-haired and dark-eyed. She seems to be a woman in complete control of herself in a very masculine world. But she stays apart from coaching football "because I don't know a great deal about it."

"I don't tell Frank how to coach, and he doesn't tell me how to cook," she says.

The Razorbacks, an extension of the Broyles family, had their first unbeaten season in more than one-half century in 1964. What's in store for 1965?

"Well, Frank wants to win them all, of course," she said. "I always think we're going to win them all. Frank says I'm crazy."

ANN LANDERS
Answers Your Problems

Dear Ann Landers: This letter is for teen-age boys because they are mainly to blame for the misery of teen-age girls.

At every party, whether at school or in somebody's house, you always see clumps of girls, sticking together, laughing and talking. They appear to be having a blast, but the truth is, they are having a perfectly lousy time and they wish they had stayed home.

Why do you fellows run after two or three of the best looking girls in the crowd? Always it's the same girls who get the big rush. The plainer ones (like me) never get a tumble and it's just rotten.

So what if a girl is a little too thin, or too heavy? What if she isn't the greatest dancer in the world? I'll bet she'd appreciate you more than the doll who is zeroed in on by every guy in the room.

The next time you go to a party or to a dance, fellas, ask a plain gal to dance or join you at the refreshment table. You may discover she is great company and that you've been missing something. -- BITTER 16

Dear 16: Thank you for an excellent letter. I'll like to add this: The boy or girl who is quick to judge a book by its cover often cheats himself out of some fascinating and worthwhile reading.

Dear Ann Landers: What do you think about a husband who carries on a correspondence with a college friend even though he knows his wife does not approve of it?

Edwin and I were married a few weeks ago. He never spoke much about Nanette except to say she was fun and had a terrific sense of humor. They used to work together on the college yearbook but so far as I know it was just pal stuff.

Three days ago Edwin received a letter from Manette. I opened it by accident. The letter was full of tired jokes and references to people I don't know. I answered it from both Edwin and me, saying "I'd love to meet you sometime."

I handed Edwin the open letter and told him I had opened it by mistake. I also told him I had answered it because from now on we would be doing everything as a couple.

He said I had humiliated him and that I had no business responding to a letter addressed to him. I say there should be no secrets between a man and his wife. You always emphasize in your column that the more things a couple can share, the stronger the marriage will be. Please comment. -- WILTED ROSES

Dear Wilted: It is possible to open a letter by accident, but you can only answer a letter on purpose. This was out of line and I don't blame Edwin for blowing his top.

Sharing is important but it's equally important to respect one another's privacy. To be "one," yet to remain separate and distinct entities may seem a contradiction but it is the secret of a good marriage.

Dear Ann Landers: I am planning on being married this summer. Mother has been married four times. Daddy is now married to his second wife. My fiance's mother is on her fourth husband and his father is on his third marriage.

You may think this is crazy but all the ex'es get along fine together and they see each other socially. Mother insists that we invite all the ex'es to the wedding. What do you think this will look like?-- B. B. B.

Dear B. B. B.: It will look like the discarded pages from a number of old wedding albums. But don't let it spoil your day. The kooks will probably have a lovely time.

Liquor can ruin your mind, your body and your life. To learn the booby-traps of teenage drinking, write for ANN LANDERS' booklet, "Teen-age Drinking," enclosing with your request 20¢ in coin and a long, self - addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self - addressed envelope.

Morehouse News

Debby Kay Sherrard, daughter of Mr. and Mrs. Dick Sherrard, celebrated her fourth birthday Sunday at the home of her grandparents, Mr. and Mrs. Paul Sherrard who entertained with a family luncheon, ice cream and birthday cake was served. Debby received a list of nice gifts.

Mr. and Mrs. Richard Landers of Poplar Bluff, formerly of Morehouse, attended a dinner dance Saturday evening at the Scottish Rites Cathedral in St. Louis. Their son, Joe Bill, spent the week-end with his grandparents, Mr. and Mrs. Henry Hart.

The Charley Brown Class enjoyed a fish fry and potluck dinner at 6:30 Friday evening in the fellowship room of the Rauch - Spence Memorial Methodist Church. Approximately forty members and their families attended. Mrs. William Deane III was presented a birthday cake.

There will be a special Good Friday Service Friday night at 7 o'clock at the Rauch-Spence Memorial Methodist Church. The pastor, Rev. James Estep, sends a cordial welcome to everyone.

Margie Jones has been ill with the flu at the home of her grandparents, Mr. and Mrs. M. A. Shipman.

Mr. and Mrs. Bill Evans and two children of Columbia arrived Tuesday to spend the Easter Vacation with her mother, Mrs. Gladys Crumpecker. Dr. and Mrs. Larry Chapman and children of Columbia will arrive Thursday to stay until after Easter with his parents, Mr. and Mrs. Charles Chapman and her mother, Mrs. Gladys Crumpecker.

Mr. and Mrs. Lloyd Hunt and family of St. Louis were weekend guests of his sister, Mr. and Mrs. Carl Launius.

Sara Crumpecker who is attending the University of Missouri in Columbia will spend the Easter Vacation from Tuesday until next Wednesday with her parents, Mr. and Mrs. Norman Crumpecker.

Micahel Hart who is attending Memphis State University will arrive home Wednesday to spend the Easter Vacation with his parents, Mr. and Mrs. Henry Hart. His mother will accompany him back to Memphis Sunday and spend a week with her daughter and family, Mr. and Mrs. John Burch and children.

Mrs. Henry Hart shopped in Poplar Bluff Monday.

Mrs. Ann Newton of Morehouse and her mother, Mrs. Edith Bennett and daughter-in-law, Mrs. Melba Bennett of New Madrid were Cape Girardeau visitors Tuesday.

Mr. and Mrs. Jewel Johnson and son, Mr. and Mrs. DeWayne Johnson and daughter, Lisa have returned to their home in Berkeley, Mich. after visiting her brother and wife, Mr. and Mrs. Paul Sherrard.

Mr. and Mrs. Bob Brown and Mrs. Mary Sue Davis and son, Ronnie of Burbank, Calif., are visiting their parents, Mr. and Mrs. W. M. Brown and other relatives and Mrs. Brown's mother, Mrs. Elizabeth Houser of Lilbourn, Mo.

Mr. and Mrs. Huley Williams had as Sunday dinner guests, Mr. and Mrs. J. D. Johnson and son, Mr. and Mrs. J. D. Johnson, Jr., and Lisa of Berkeley, Mich., Mr. and Mrs. Jewel Asher of Ellisnore, Mo., Mrs. Ann Amerson and children and Mr. and Mrs. F. W. Sherrard.

Mr. and Mrs. Paul Sherrard and son, Jack enjoyed a fish-fry Friday night at the home of Mr. Charles Morris, 333 E. Gladys St. in Sikeston.

Mrs. Ella Crady has returned home after spending two weeks with her husband, Lester, on a boat where he is employed.

THE BEATLES' BARBER

Perplexed beyond all comprehension,
The Beatles' barber stands prepared,
Surrounded by screaming apprehension,
That each lock of hair be shared.

His scissors so precisely gleaming,
He handles now in dreaded fear,
For what, if plagued by all the screaming,
He should miss and get an ear! — Gwen N. Duckworth

THE H H H H RECORD

By BILL BOGART
Extension Area Youth Agent

ANNISTON MEETING

A meeting will be held April 22 at Anniston for parents and boys and girls interested in organizing a 4-H Club. The meeting will begin at 7:30 p.m. at the Anniston School.

4-H projects, activities, and purposes will be discussed at this meeting. If sufficient interest is shown, definite plans will be made to organize a 4-H Club at Anniston.

All boys and girls, ages 10-19 years, are eligible to be 4-H members.

EAGER BEAVERS MEET

The Eager Beaver 4-H Club met at the St. Lawrence School last week for their monthly meeting. Thirty - three members and six leaders were present.

Kay Dirnberger, president, called the meeting to order.

Robert Niederkorn and Michael Dirnberger gave a demonstration on how to tie different knots. Both Robert and Michael are enrolled in the 4-H Ropework Project.

The girls enrolled in the 4-H Match Mates Clothing project presented a fashion show for the club. They modeled skirts they had made in their project work.

The Health talk for the month was presented by Geraldine Brucker. She discussed the importance of good eating habits.

The meeting was adjourned with the singing of the "Song of Health" led by Earline Dirnberger, song leader.

This report was sent in by Geraldine Brucker, Club Reporter.

Answer to Previous Puzzle

Looking Back Over The Years

50 years ago
April 17, 1915

The E. C. Robinson Lumber Co., has sold the lumber for the erection of the three dredge boats to be built for the Hoosier Land and Investment Co., to be used on their ditch contract.

A. F. Lindsay will leave Sunday for Manhatton Beach, N. Y., where he will have charge of W. H. Tanner's interests there. R. H. Hutchins will have charge of A. F. Lindsay's office while he is away.

40 years ago
April 17, 1925

Work on the construction of a modern gin plant to be erected in Sikeston by the Roberts Cotton Oil Co., will start at once, according to F. L. Pittman, division manager for the cotton products company. The firm has purchased the lot on the corner of Prosperity and Frisco streets. The lot is the site of the old McCord mule barn.

The Swank - Tanner Engineering Co., of Charleston has been engaged to make surveys for a huge dam in the Black River, near Piedmont. This is expected to be a great factor in the development of this district as a manufacturing center.

D. A. Reese, postal employe, was probably the heaviest loser in a six-house robbery in the southern part of Sikeston Tuesday night. About $75 was removed from Mr. Reese's trousers as they lay on a table within four feet of his bed. The homes of Ed Hollingsworth on Dorothy street; W. H. Tanner and W. P. Wilkerson on Gladys street; Judge William Graham on Dorothy street; and Walter McGee on Gladys street also were entered.

The appointment of committee chairmen was the chief activity at the city council meeting Monday night. The following were named: T. A. Wilson, finance; L. H. Sexton, cemetery; Judson boardman, health; E. C. Matthews, street and alley; Aulton Cravens, charity; J. F. Cox, water works; J. G. Russell, light; and F. H. Smith, parks.

30 years ago
April 17, 1935

Malone Theatre, today, Joan Blondell in "Traveling Saleslady." Tomorrow, George White's "Scandals of 1935" with Alice Faye, James Dunn, George White and Ned Sparks.

J. W. Baker, jr., resigned from the school board and three new teachers were selected to fill vacancies at a board meeting Wednesday evening. A. J. Renner was appointed to fill Mr. Baker's place until the school election next year. The three new instructors are: Miss Adilda McCord, Miss Helen Baker and Miss Emily Blanton.

Roy V. Ellise was re-elected superintendent of school at a recent board meeting. These members of the faculty were named at Wednesday night's session: High school building -- William E. Mahew, principal; Mrs. Josephine Vieth, Miss Isabell Hess, Miss Frances Burch, Miss Daisy Evans, Miss Uriel Haw, Cletis Bidewell, Glenn S. Duncan, Mrs. Geraldine Young, Miss Electa O'Hara, Miss Madge Davis, Miss Agnes Erley, Tharon E. Stallings, Miss Nellie Goodman, Miss Myra Tanner, Reid Jann, Miss Dorothy Billings, Miss Winnie Eldridge, and Miss Myrtle Dalton.

Grammar school -- Miss Florence Crisler, principal; Miss Wilma Ragains, Miss Lucille Finley, Miss Lucille Mount, Miss Nell Yanson, Miss Ruth Bateman, Miss Lucille Stubblefield, Miss Jewell Mouser, Miss Lydia Chaney, Miss Margaret Clymer, Mrs. E. W. Davis, Miss Mignon Newton, Miss Georgia Houchens, Mrs. W. W. Hinchey, Miss Lillian Putnam, Miss Dorothy Miller, and Miss Burdeen Schroff. Sunset School -- Iola Huddleston, U. S. Grant, and Charlotte Madison.

20 years ago
April 17, 1945

Loretta, 12-year-daughter of Grant Gilliam of Canalou, was accidentally shot through the left shoulder early Monday morning while sweeping one of the rooms in her home. As she attempted to move her father's .22 rifle, the weapon was accidentally discharged.

Dora, two - year-old daughter of Mr. and Mrs. Carleton McGarity of Essex, was injured Tuesday when she fell on an oil can spout at her home. The spout penetrated the pelvic cavity.

Oran -- Memorial services were held at the Majestic Theatre Saturday afternoon in honor of the late President Roosevelt.

Morley - Mr. and Mrs. Merle Vaughn, who have been residing in St. Louis, are new residents of Morley.

Missouri University Prof. Gives Views After Study

COLUMBIA, Mo. Apr. 16--"To achieve maximum employment in communities dependent on forest - based industries, wood should be processed at home, from tree to finished product," according to a report concerning Missouri forests and wood products.

The study was made by Richard C. Smith, MU professor of forestry; and John K. Myers, formerly a research assistant in the School of Forestry now with the U. S. Forest Service.

The study, Wood Products and Missouri's Forests, is the sixth of a series which define the problems and prospects for Missouri's economy. They are published by the Research Center of the University of Missouri's School of Business and Public Administration.

Smith and Myers pointed out that the Missouri wood-products economy has been characterized by the manufacture of partially-completed stock or products shipped out of the state for completion. This results in "employment and industry opportunities lost to other regions." An exception is the production of oak flooring.

These final stages of manufacture require a substantial share of the total employment required to make a product. It is here, in secondary manufacture, Myers and Smith stated that the large increase in product value occurs.

They noted that Missouri could benefit greatly by promoting the manufacture of finished wood products within the state. This could be done by establishing new firms or, preferably, by encourageing expansion of existing ones.

Elmer Kiehl, dean of the college of Agriculture and director of the Missouri Agricultural Experiment Station, commenting upon the study, remarked that processing of wood products represents a significant potential area for the expansion for Missouri industry. Processing of other agricultural products in Missouri, he said, comprise one of Missouri's principal sources of income and economic growth.

The Smith-Myers study advises that with better timber management in Missouri, net returns from some of the state's forested land can be raised through yield of higher quality timber.

This economic potential from better timber management appears to be considerable since most of the 15 million acres of forest in Missouri are capable of producing commercial timber crops, Myers and Smith reported.

It is also suggested that there are numerous forest settings in the state which may provide added income through development as recreational sites.

The study noted that Missouri's charcoal industry could make an important contribution by utilizing plant residues and low-quality hardwood trees that should be removed from forest stands.

Missouri accounts for 20 percent of the national charcoal production. The amount of charcoal produced in Missouri has tripled since 1956 because of the increased popularity of outdoor barbecues.

Among other facts reported in the study were: of the cedar novelties made in the United States, 90 percent come from Missouri.

The state produces about 10 percent of the nation's oak flooring.

A fifth of the wooden handles made in this country come from Missouri.

Greater love hath no man than this, that a man lay down his life for his friends. (John 15:-13)

PRAYER: Gracious and loving Father, who in the person of Thy Son didst give Thy life for us, fill us with the Holy Spirit, that we may perfectly love and serve Thee and our fellowmen. We pray in the name of Christ, who has taught us when we pray to say, "Our Father who art in heaven. . . Amen."

New Gehl Chop-King

short-chops more tons per hour than any other chopper!
Watch that corn fly! Short-chopped to ¼-inch, and up to 50% more of it in the box every chopping hour. That's capacity and performance possible only with the new, brawny Gehl Chop-King—the one chopper built to make *full use* of today's big-tractor horsepower.
One look at the features explains it:
Rugged 8-knife flywheel. Knives chrome-edged to stay sharp longer.
Big 127 sq. in. throat gulps in crops faster.
Floating heads hug field contours.
New "telescoping" U-joint permits full-power chopping around tight turns.
Select-A-Cut Transmission changes forage lengths with the push of a lever.
Easy-Swing Drawbar adjusts right from the tractor seat.
Come on in and take a closer look at the really big difference in choppers today . . . the biggest-of-'em-all, Gehl Chop-King.

Timely Tips

VEGETABLE COOKERY

Did you know that vegetables cooked one day then reheated and served the next day lose some of their nutrients.

Vitamin C losses are particularly noticable. The vegetable will have only 3/4 as much Vitamin C after 1 day in the refrigerator as when freshly cooked. After 2 days the Vitamin C content drops to 2/3 and after 3 days it's down to 1/3 or 1/2 of its original value.

So don't serve your family the same cooked vegetables day after day.

If you are looking for ways to perk up cooked green vegetables, a few suggestions given below have been made available by the U.S.D.A. Food Specialist.

1. With snap beans or summer squash, cook a tablespoon or two of minced onions, green pepper, or parsley.
2. Cook a few mint leaves with peas.
3. Put a small pinch of herb or spice in the water when you cook lima beans.
4. A little vinegar and sugar heated together make a good dressing for snap beans or cabbage, with or without a few tablespoons of cream.
5. Point up the flavor of any green vegetable with meat drippings, butter, margarine, or salad oil with lemon juice, horseradish, or garlic. Or add bits of crisply fried bacon, especially to spinach or other greens.

Magistrate Court

BENTON: The Following CRIMINAL CASES were heard here:

Edward H. VanPool, DRIVING WHILE IN AN INTOXICATED CONDITION.
Defendant enters plea of "Guilty" and punishment set at fine of $100.00 and costs and 90 days in County Jail. Committed. Driver's license revoked.

Andrew Miller, SELLING INTOXICATING LIQUOR TO MINORS.
Defendant pleads "Guilty" and punishment fixed at fine of $100.00. and 60 days in County Jail.
Both State and County liquor license being voluntarily surrendered and when fine and costs are paid in full, jail sentence will be stayed during good behavior.

Kelly Swain, Robert Urhahn and Wm. D. Ancell, POSSESSION OF INTOXICATING LIQUOR, BEING UNDER 21.
Each defendant, enters plea of "Guilty" and punishment set at fine of $50.00 and costs.

Robert J. Robinson, POSSESSION OF INTOXICATING LIQUOR, BEING UNDER 21.
Defendant pleads "Guilty" and punishment fixed at fine of $50.00 and costs and 90 days in County Jail. Committed.

Sam Robinson: COUNT I: NO OPERATOR's LICENSE; COUNT II: IMPROPER REGISTRATION.
Defendant enters plea of "Guilty" to both counts and punishment set a fine of $25.00 and costs and 30 days in Jail on Count 1. Committed. Plea of "Guilty" on COUNT II set aside by the court and dismissed.

Records Filed

BENTON: The following papers have been filed in the Recorders office:

R. L. and Deborah McGee to Hayes and Nola Tidwell, WARRANTY, all lot 18, N. 25 ft. lot 19, block 15, Clayton's Add'n., Sikeston.

Malachi and Flora Stevens to Lawrence and Ollie Fair, QUIT CLAIM, lot 1, block 2, Sunset 2nd Add'n., Sikeston.

J. H. Tyer, to Elsie O. Sutton, WARRANTY, lot 11, Rowe's Add'n., Sikeston.

O. L. and Dora Vessell, to Edith R. Sanders, WARRANTY, lot 18, block 18, Chaffee.

Marriage Licenses

BENTON: The following marriage licenses were recorded here during the past week:

Ralph Emory Wyatt, 25, and Reba Earleen Figley, 18, both of Sikeston, were married there by Rev. G. Presley.

Paul D. Terrell, 26, and Ruth Lavern Hazel, 24, both of Sikeston, were married there by Rev. W. Friend.

Wm. E. Jackson, 25, Benton, and Helen Louise Lincoln, 24, Oran, were married at Morley, by Rev. M. R. Moore.

Carl J. Raines, 22, Illmo and Levia Etta Halley, 18, Chaffee were married there by Rev. B. D. Ellis.

Larry E. Evans, 20, and Mary Ellen West, 16, both of Sikeston, were married at Benton by Rev. A. W. Gibbs.

Robert Lee Eskew, 22, Sikeston, and Mary LaNell Harrison, Vanduser, were married at Charleston by Rev. J. E. Eskew.

Cases Filed

BENTON: These cases have been filed with the Circuit Clerk here:

Bank of Sikeston vs. B. W. Helms, et al, COLLECTION ON NOTE.

Della Elizabeth Robey, vs. M. E. Robey; Lorene Grant vs. Wayne Grant; Wilma R. Gilbertson vs. J. O. Gilbertson; Sue C. Butler vs. G. B. Cannon, all for NON-SUPPORT.

Imogene Martin vs. Eugene Martin, DIVORCE.

Robert U. Nimmo vs. Wanda Dean Nimmo, DIVORCE.

Fred Nelson, in re: LIMITED DRIVING PERMIT.

Probate Court

Estate of Lizzie Bryant, deceased, Alma J. Powers Schlittler, Executrix; PROBATE OF WILL, APPOINTMENT OF EXECUTRIX.

Estate of T. K. Bain, deceased, COMMISSIONS TO PROVE WILL.

Estate of Helen Browning, deceased, (a non-resident) H. C. Blanton, Administrator, With Will Annexed; REPORT OF APPRAISER FILED & APPROVED.

Estate of Paul A. Hamm, an incompetent, Fern M. Hamm, successor Guardian, ORDER TO WITHDRAW TIME CERTIFICATE.

Estate of Joseph L. Matthews, deceased, R. S. Matthews and W. S. Corrigan, Executors; DEMANDS FILED & ALLOWED.

Estate of Albert Blumenberg, a minor, Wesley and Eloise Blumenberg, Guardians; ANNUAL SETTLEMENT.

Estate of Jackson Davis, deceased, Virginia B. Davis, Executrix; ORDER OF COURT CONFIRMING REPORT OF SALE OF REAL ESTATE AT PRIVATE SALE & ORDERING EXECUTION OF DEED TO PURCHASER.

Circuit Court

BENTON: These CRIMINAL CASES were heard here:

Stave vs. Gary Summers, POSSESSION OF INTOXICATING LIQUOR, BEING UNDER 21.
For good cause shown, PROBATION, previously granted is revoked and Warrant issued.
State vs. James Edwards Lewis, ROBBERY BY FORCE OF ARMS.
Leave granted State to add name, of Ronnie Lynn to information.
Defendant in Court, in custody of Sheriff, and accompanied by his attorney.
The defendant having been previously arraigned and having pled "NOT GUILTY", both parties announce ready for trial.
The court then proceeds to qualify 30 men from Scott County to be placed on a jury panel to try this case.
Both the State and the defendant are given a certified list of the jurors.
Both duly challenge different jurors and finally settle on 12 men to try the case.

Both sides proceed to present their case, and hearing all evidence, the Judge instructs the jury as to the law and the jury, in charge of the Sheriff retires, at 2:26 p.m. to the jury room, to consider their verdict.
At 2:45 p.m., the same day, the jury returns to the Courtroom and announce they have reached a verdict.
The foreman announces, "We the jury find the defendant, James Edward Lewis, "Guilty" as charged in the Information and assess his punishment at a term of 5 years in the State Penitentiary."
Verdict filed and jury discharged.
Defendant granted 15 days within which to file Motion For New Trail. and to appear on April 28, 1965 for sentencing.

IN VACATION

State vs. Napolean Pollock, ASSAULT WITH A DEADLY WEAPON.

How many times have you heard someone say, "I applied that chemical according to recommendations and it didn't work." We hear this statement several times each year.

There are several things involved in getting success from any chemical. All of these items must be right if you are to be happy with the results you get. (1) You must be using the best material for your particular job. This may sound strange but we still see people who use the wrong chemicals every year. This is usually expensive and can be destructive. (2) Chemicals must be used in the proper amounts. Many mistakes are made on rates of applications. With most chemicals an over dose is expensive and may do extensive damage. If not enough chemical is used little or no results can be expected. (3) Another mistake often made involves calibrating the spray equipment. The application rate of all chemicals is important. The number of gallons you apply per acre depends upon (a) nozzle size, (b) the pressure and (c) the speed at which your sprayer travels. The delivery rate of a nozzle depends upon the size of the orifice and the discharge pressure. Since the output of a nozzle varies as the pressure is changed, it is essential that a constant pressure be maintained.

The mistake most often made is accurate calibration. Several recommended methods are available. Most spray manufacturers list a calibration procedure in the operators manual. Always take a few minutes and calibrate your sprayer before you go to the field. Check the spray often, at least every other day, during the time you are applying any material. Spray nozzles will wear and this changes the amount of material you apply as well as changing the spray pattern.

Give your spray every possible chance to do a good job. A few simple rules that some people overlook will correct many of the mistakes made in the application of chemicals.

My Boston friend had just discovered Gone With The Wind and was curled up on the sofa, completely engrossed in the story, when her husband came home. He made his way quietly to the kitchen, from which direction came his hurt inquiry: "Didn't you bake me a cherry pie?"

She sat bolt upright, slammed the book shut and bellowed, "I'm not baking a cherry pie for any damn Yankee!" —Mrs. Richard E. Noble

VERY SAXY—In Stockholm, Sweden, singer Ingela Brander doubles in brass as a saxophone tooter. She sings and swings in a Swedish television series.

RECOMMENDATIONS FOR PRE EMERGENCY CHEMICAL WEED CONTROL IN COTTON OUTLINED

Interest in the use of chemicals for weed control in cotton on pre-emergence basis is high, and indications are that this practice will be used on a wide-spread basis this year. Many farmers are wondering which they should use, and we are also receiving numerous questions on methods and rates of application. Let's take a brief look at the chemicals recommended for pre-emergence use on cotton, the conditions under which each is recommended, and methods of application.

Divron, commonly known by its trade name "Karmex" has been used for a number of years and I think most cotton farmers are acquainted with it. It is recommended for use on loamy soils at rates ranging from one pound per acre on light soils to 1 1/2 pounds per acre on heavy soils. Because of the high cost, a band treatment is more practical than overall treatment. Generally speaking, it has produced good results where rainfall has been obtained soon enough after application to make the chemical effective. In such cases where it has produced good results, it is perhaps our most practical chemical. Divron will damage cotton on light sandy soils and has not produced good weed control on heavy clay soils; consequently, it is not recommended for these soil types.

CIPC is recommended for use on all soil types except high organic matter, heavy clay soils. Recommended rates of application range from six pounds per acre on light soils up to nine pounds per acre on heavy soils. CIPC should be applied as a band treatment because of the high cost involved.

Monuron, commonly known by the trade name "Telvar", is recommended for use of high organic matter heavy clay soils at the rate of 1 1/2 pounds per acre. It is recommended only for use of high organic matter heavy clay soils as damage will likely result from its use on lighter soils.

Trifluralin, commonly known by its trade name "Treflan" is recommended for use on all soil types except heavy clay soils. Recommended rates of application for the various soil types are as follows: one-half to three-fourth pound per acre on sands to light sandy loam soils, three-fourths to one pound per acre on sandy loam and silt loam soils, and one to 1 1/2 pounds per acre on silty clay and clay loam soils. Trifluralin should be incorporated into the soil surface before, during or immediately after the planting operation. Incorporation ahead of the planter has generally given best results. This chemical will damage the lateral or feeder roots on the cotton plant when excessive rates are used or when incorporated too deeply. For this reason trifluralin should not be incorporated deeper than one-half inch below seed depth. The best implement for incorporating the chemical into the soil will depend to a great extent on the soil type involved.

For broadcast applications on sandy and sandy loam soils, a "Do-All" or "Bed Conditioner" equipped with a bladed front roller linked to a drag harrow gives the most thorough chemical mixing. Wheel mounting and hydraulic lift aids in the maneuverability and depth control. The double disc harrow performs second best, but requires two trips over the field with the second disking applied to right angles to the first. Again, wheel mounting and hydraulic lift control are highly destrable. The gang rotary hoe appears to perform satisfactorily only on the lighter soils. Two or more trips over the field at a speed of five to seven miles per hour are required for thorough incorporation. For incorporation along the row band on sandy and sandy loam soils power-take-off driven rotary tillers, hoes, and cultivators do a good job of incorporation. When properly guaged with wheels for depth control, and when equipped with hoods and shields, these implements can effectively incorporate trifluraling to the desired depth.

Ground driven band incorporators such as the "Soil Blender", "Rolling Cultivator," or "Mix-A-Product" incorporate satisfactorily to a depth of one to 1 1/2 inches on sandy or firm but unpacked soil but are quite expensive. These implements can be mounted on the front cultivator frame thereby making it possible to apply and incorporate the chemical and plant cotton in one operation. Some broadcast incorporators such as the rotary hoe and "Do-All" have been successfully used for band incorporation on sandy and sandy loam soils, but tend to spread the chemical laterally and are generally unsatisfactory.

For band incorporation on clay and clay loam soils, power-take-off driven tillers, hoes, and cultivators have given best results in experimental trials. Ground driven band incorporators described above perform satisfactorily when the soil is relatively free of trash and clods and the soil surface have been loosened. Implements that incorporate shallowly such as the rotary hoe have been found un-satisfactory on this soil type. For best results on clays and clay loams, the soil should not be sticky at the incorporator operating depth.

Rates of application for various chemicals discussed above are expressed in terms of pounds of actual chemical per acre, and on basis of overall coverage. Where a banded application is used the rate should be adjusted according to the proportion of row width covered by the band.

If holes are punched in a container of water, the liquid will squirt farther from the lowest holes because the pressure is greater.

This Week IN THE GARDEN

By Art Gaus

Extension Horticulturist
University of Missouri

LAST CALL

Snow, rain and more rain has certainly delayed early spring plantings in most parts of the state. Some vegetables--those requiring a long, cool growing season--must be planted now, or it will likely be too late.

Peas, potatoes, carrots, cabbage, cauliflower, broccoli, kohlrabi, collards, beets, endive, kale and Swiss chard require 60 plus days to reach maturity. If the weather turns hot in June, which it can, these crops will suffer in yield and quality. This is a last call for these vegetables. Plant now.

One can still plant such crops as spinach, turnip greens, mustard greens, onions, radishes and leaf lettuce and expect good returns. But remember, in a few weeks it will be time to plan warm season vegetables.

One thing is sure. We are starting out this year with plenty of moisture. While this is a disadvantage now, it may become an advantage later in the season. Moisture stored in the surface and sub-soil layers now will be helpful to deep rooted vegetables such as tomatoes and many of the vine crops, come July and August.

In many recent years we have gone into the gardening season with a deficiency of reserve soil moisture. As a result, drouth and high temperatures combined to wreak havoc with our summer crops. We should fare a little better this year, in this respect. Let's hope so.

If you still want to set out cabbage, cauliflower or broccoli plants, see your local plant grower now. He can provide you with some of the best plants available.

Locally grown plants are far superior to shipped in "bundles" of plants. Many so-called "hardened" or "frost-resistant" shipped in plants take to long to receover from the "hardened" condition. Oftentimes they are excessively dried out, because they have not been handled properly.

Then too, you run the risk of bringing in diseases that could prove troublesome. The plants also might carry nematodes on the roots. Also you may not have much selection of adapted varieties.

So see your local plant grower for plants. The plants may be a little leggy, but they will be the best obtainable. Remember, plant growers have had problems holding plants because of the weather.

Plants that are a little large will prove satisfactory if planted on a slant or angle, rather than straight up and down. The slant should be with or in the row to prevent possible upheaval when cultivating in the row.

Speaking of cultivating, how about making this a regular chore this year. Keep ahead of the weeds. If you cultivate when the weeds are small the job is easy. And it's most effective. Remember, weeds harbor insects and viruses. They compete with your plants for moisture, nutrients and light.

They are unwanted custo-mers. But they will be there. We have plenty of moisture now, plus good fertility. And on this diet, weeds thrive -- on my how they thrive!

RUDE AWAKENING

Discussing problems concerning teenagers, one woman asked her neighbor:

"Is your son hard to get out of bed in the morning?"

"No," replied the other, "I just open the door and throw the cat on his bed."

The neighbor was puzzled.

"How," she asked, "does that awaken him?"

"Well, you see," replied the other, "he sleeps with the dog."

37 reasons for extra corn profits

No matter where you farm or what your specific conditions and problems may be . . . there are P-A-G Four-Way Crosses with the bred-in ability to meet your needs and your goals. P-A-G offers 37 Four-Way Crosses to back up this statement. This year four new varieties were added to the P-A-G line . . . three old ones were dropped. By replacing old varieties with new and better ones, the P-A-G line is constantly being revised and improved to keep up with your needs for higher producing, higher profit seed corn.

Some time ago we started classifying and producing corn to fit in with today's specialized farming practices. Our researchers have a stock of over 17,000 Four-Way Crosses which have been developed over the past 21 years. All have potential. But for now, we offer the 37 with proved high-profit performance. Each has "spelled-out" characteristics. From a wide range of varieties adapted for your area, you can select maturities for a progressive harvest. You can choose Four-Ways resistant to your disease and insect problems.

Varieties with the standability, picking and shelling ease, drying characteristics, and end-use requirements of your operation. Special corns for high population and high fertility. Special corns for silage and grain.

Each P-A-G Four-Way Cross is a combination of these high-yield, high-profit factors. So, you can Selectively Plant to match seed . . . to need . . . to conditions. This "no-compromise" approach is *reason enough* to call your P-A-G dealer and select your seed from P-A-G's 37 Four-Way Crosses.

Promise Of Easter

NEA COLOR PHOTO BY HENRY M. MAYER

The promise of spirtual rebirth implicit in the Easter story has for millenniums been affirmed by nature each spring, when she brings forth life from the death that was winter. Here, double daffodils bespeak praise of the Creator in a woodland setting reawakening to a new life.

Man Found Dead Near Oran

Frank Lesure, 67, a colored farmer living on Oran route, was found dead in his 1957 Buick station wagon, today at 7:30 a.m. He apparently died of a heart attack.

He apparently was on his way home and his car was found on the dirt road along the railroad tracks less than a mile from home, and a half-mile off of Hy. 91 (Baseline road). He was found by a neighbor, Jim Hamilton, according to deputy sheriff Jack Stewart.

Mr. Lesure had become stuck in the sand, according to witnesses early this morning, and was last seen by relatives last night at 7:30 p.m.

Surviving are his wife, Mrs. Nora Lesure, whom he married in Marion, Ark., in 1938; 10 children living at home, four married children, and four children by a previous marriage.

Sunrise Service To Begin 6 a.m.

The Sunrise Service that is going to be held tomorrow in the Band Shell at the Sikeston High School is scheduled to begin at 6 a.m. with Prelude.

Rev. Watson of the Presbyterian Church will give the Call to Order. The Sikeston High School Concert Choir will sing the Anthem, "As It Began To Dawn."

The Invocation by Rev. Watson will follow and then the congregation will sing a hymn, "Crown Him With Many Crowns."

Rev. James Smith, Assembly of God Church, will give the Welcome. The Scripture lesson will be delivered by Rev. James Hackney of the First Baptist Church. Prayer service will follow with Rev. Oral Withrow, of the Tanner St. Church of God.

The Sikeston High School Concert Choir will then follow after the Lord's Prayer, with "Christ Is Our Eternal Spring."

The Sermon, "Goodness of the Morning," will be given by Rev. Wagner, pastor of the First Methodist Church.

A hymn, "All Hail the Power of Jesus Name", will be sung by the congregation, followed by the Benediction, to be given by Rev. James Hackney.

Keith Collins will direct the choir.

Four Arrests

The City Police Department made four arrests during the past 24 hours, three of which were for assualt and affray.

Louis A. Marshall, 338 Magnolia, charged with assault and affray.

Jerry Smith, Alabama St. charged with assault and affray.

Carl Howard, 206 Westgate, charged with assault and affray.

Leo McCormick, Sikeston, charged with being drunk in public.

Weather

EAST and SOUTHERN MISSOURI -- Increasing cloudiness and mild tonight with a 30 to 50 per cent chance of showers east sections tonight. Low tonight in 50s. Sunday partly cloudy to cloudy and turning cooler with high near 60 extreme northeast.

HIGH AND LOW YESTERDAY

High and low temperatures for the 24 hours ending today at 7:30 a.m. were 59 and 43.

Sunset today--------6:35 p.m.
Sunrise tomorrow---5:21 a.m.
Moonrise tonight---8:35 p.m.
Last Quarter------April 23
At midnight tonight the Big Dipper will be high in the north and the Twins will be in the west. Mars, in the southwest, will be the only planet above the horizon.

Hearnes Speaks Out For War On Poverty

JEFFERSON CITY (AP) — Gov. Warren E. Hearnes today announced these developments in the war on poverty in Missouri:

Approved three neighborhood youth corps projects, including one for $1,435,000 in St. Louis, for $19,600 in Ste. Genevieve and for $7,100 in Gainesville.

Approved a $76,683 community action program for Mississippi County.

Approved a school improvement program at Kinloch, in St. Louis County, for $234,214.

Announced formation of the first five-county non profit community action program corporation in the counties of Mississippi, New Madrid, Dunklin, Scott and Pemiscot.

Howard, Linn, Livingston, Davies and Oregon counties, he said, have submitted plans for community action programs.

The so-called head start proposals to provide the children of economically disadvantaged families with pre-school experience, have drawn interest since school superintendents were notified of the program two weeks ago.

Some 200 districts have filed proposals. If all are approved in Washington it will mean about $5 million to help preschoolers in Missouri.

The community action programs generally provide remedial reading courses for adults, day nursery care for children of deprived families, counseling, work training, a summer recreation program for youngsters and homemakers sessions.

Capture Escapees

MARBLE HILL--Joseph S. Motley and Roscoe B. Hall, escaped prisoners from the Bollinger county jail, were captured Tuesday in Mississippi and Alabama. Motley was captured by authorities in Iuka, Miss., and his campanion in Cherokee, Ala.

The two had escaped earlier in the week when they broke jail and stole a car in Leopold Monday night. Motley is a German immigrant, and had been in previous trouble, and was held in jail on a charge of burglary and resisting arrest. Hall was also charged with burglary and car theft, and had escaped twice from jail.

Motley was arrested in the Mississippi town when he attempted to sell some whiskey to a service station attendant, and is being held in jail there in a security cell.

Hall is being held in the Cherokee jail, and was found to have $50 in his possession, and is believed to have stolen four cars, in both Mississippi and Alabama.

The two escaped prisoners will be returned to Missouri to face earlier charges.

Seven Southeast Missouri Students Make Honor Roll

COLUMBIA, Mo.--Announcement of Honor Roll names was made today by Elmer R. Kiehl, College of Agriculture dean.

A grade of 3.0 or above is required to be included on the Honor Roll, Kiehl said. A 4.0 grade is perfect, 3.0 superior, and 2.0 average.

Seven students from Southeast Missouri made the Deans Honor Roll at the University of Missouri's College of Agriculture. They are: John Hyslop, Bloomfield; John Burnett, Parma; John Koch and Roy Dooley, Rt. Sikeston; Rollin T. Mungle, Kennett; Herman Harrison, and Jerry Woodham, both of Malden.

THE TIRELESS car of Mr. and Mrs. Fred Williams is setting here after thieves swiped three of the four tires sometime during the night.

Thieves Lift Three Of Four Tires From Car

The car of Mr. and Mrs. Fred Williams, Rt. 3, Sikeston, had three of its four wheels and tires removed sometime during the night.

No clue has been turned up as to how many or who the vandals were. It was probably more than one, for there were several sets of footprints found in the back of the house that led to a field planted in rye.

Mr. Williams said that this is the second time that his car has been lifted of its tires in six years. He has installed a Mercury Vapor light in the yard where the car was, but apparently the thieves were very sure of themselves or stupid, for it appears that the home of Mr. and Mrs. Williams is foolproof, concerning safety measures for burglars.

There were no jack marks at the scene, indicating again that there were more than one. One good thing though, they left the spare tire.

The thieves appeared to be very neat about their work. They replaced the nuts on the wheel bases, not wanting anyone to think they were sloppy, I suppose.

1,114 Positive Reactions OnTest

DEXTER — There were 1,114 positive reactions, indicating that this number of Dexter students have histoplasmosis, or 93 per cent of the number of students who were tested, according to Dr. S. B. Beecher, district officer for the Missouri Division of Health. In a second test held at Malden, 37 per cent of the school children tested showed positive reaction in 422 cases of 1,127 tests taken.

In the Malden tests the greater positive reaction the high school students showed 50 per cent positive reaction, while the elementary students showed 28 per cent.

In the Dexter school tests Dr. Beecher added that it does not mean that the 1,114 have histoplasmosis now, but they have been infected at some time in their life.

The tests in the two cities was made to provide a comparison between Dexter and an area where no known large roosts of birds are present, with a distance of 20 miles between the two cities. The tests should prove three things, a relationship established between the bird roosting areas, the residence of the person and the results of the tests. It will require about two months to make the complete survey.

The doctors said a three per cent formaldehyde solution would kill the histoplasmosis fungus which finds a ready habitat in the bird droppings.

The city officials are now studying action to remove the birds from the area, and now has state permission to rid itself of the birds.

ONE EMERGENCY

One person was treated and dismissed from the emergency room of the Missouri Delta Community Hospital yesterday.

C. J. McFarling, Morehouse, caught hand in power mower.

Four City Accidents

Four accidents took place in the City over the past 24 hours. None of them serious.

Wanda Williamson, Dexter, struck Lacy Tabor, Matthews, as he pulled out from Murray Lane onto S. Kingshighway. No injuries. Mr. Tabor was charged with careless and imprudent driving.

Auburn Quertermous, 1701 E. Malone, headed west on Murray Lane struck Cardyn Kirby as she pulled out from Prairie St. No injuries.

Richardson Hutchinson, 946 Cresent, headed east on E. Malone hit Patsy Stallings on the right back fender. No injuries.

Florence Briggs, 320 Matthews St., pulled out in path of Doris Clayton, Rt. 1, New Madrid, damaged right front fender on Mrs. Briggs car. No injuries.

Christians All Over The World Observing Easter

Christians around the world repared today for a joyous aster while Jews continued the bservance of Passover, the ost ancient of Jewish festials.

Holy Saturday services were ld in many churches throughit the world.

Pope Paul VI, leader of the orld's half billion Roman atholics, took part in Holy Satday services in St. Peter's asilica as the huge Vatican urch took on a look of rejoicg for the evening's Easter viil ceremony following the auerity of sorrow of Good Friy.

n Roman Catholic churches, ere were the traditional ssing of baptismal fonts and renewal of baptismal promes. In early Christianity, Holy turday was a day when conrts were baptized and adtted to membership.

he holy weekend will be oped Easter Sunday in joyous clamation of the Resurrecn.

any persons will worship at rise services Sunday.

he 48th annual Easter dawn rvice, beginning at 7 a.m., is pected to fill Radio City Mu- Hall in New York. It will be ler auspices of the Manhat- Division of the Protestant uncil of the City of New York. e 193rd consecutive sunrise rvice of the Moravians in nt of the historic home Moran church in Salem Square, ston- Salem, N. C., is expected to draw large crowds as usual. Between 2 a.m. and 5 a.m. small bands of people will assemble at street corners and awaken the city with Easter chorals and hymns.

At Rindge, N. H., the annual sunrise service at 4:30 a.m. at the Cathedral of the Pines is expected to attract thousands of persons from many parts of the United States and other countries. The Altar of the Nation is in the cathedral at the tip of Mt. Monadnock which will be the first in the nation to greet the sun with its message of rebirth.

A number of churches near Travis Air Force Base in California have scheduled a sunrise service at 5:30 a.m. at a Nike missile site on the base.

The First Baptist Church of Burlingame, Calif., plans to release 100 "doves of peace" at a 5:30 a.m. sunrise service in Millbrae, Calif.

In Philidelphia, the Messiah Lutheran church will release 1,000 helium-filled balloons at an Easter service. Each balloon will have the words "Christ is Risen" on it and will contain a return postcard addressed to the church.

Centuries --old ceremonial dances will begin Sunday at Santo Domingo Indian pueblo north of Albuquerque, N. M., and will continue four days with about 500 men, women and children taking part.

Some 7,000 persons are expected Sunday for the 24th annual Easter pageant in the Marion, Ind., Auditorium, only two miles from where devastating tornadoes struck a week earlier.

The Jewish Passover, which began Friday night, marks the release of the Israelites from bondage in Egypt more than 3,000 years ago. Orthodox and Conservative Jews observe the holiday for eight days; Reform Jews observe it for seven.

Thieves Caught At Charleston

Jimmy Dale Bone of East Prairie, a 19 yr. old youth, has been apprehended and charged with five automobile thefts at Charleston. There is an accomplice charged but he is a juvenile.

They are charged with stealing five cars over a two day period, one of which was stolen in Sikeston from Don Baker Wednesday night. Two cars were stolen in Charleston and two were stolen in East Prairie.

Also, they are charged with stealing some luggage from the car of Dr. James Cullison of Charleston.

Grass has a wider range than any other plant, occupying virtually all parts of the earth and tolerating both torrid and extremely cold weather.

ALAN BARBOREK, son of Mr. and Mrs. Tony Barborek, finds an egg at the Egg Hunt sponsored by the Junior Woman's Club. The hunt was held today in Malone Park.

Cherries In Bloom At Washington

WASHINGTON (AP) — Washington's famed cherry blossoms are at the peak of their beauty.

Thousands visited the Tidal Basin area Friday to see the blossoms, and park officials say they expect them to remain in good shape through the Easter weekend.

Wood cellulose (tree-derived source of paper) is the fibrous part of wood.

Jackson Man Dies In Accident

FRUITLAND, Mo. (AP)—The driver of a car was killed early today in a collision between the auto and a tractor - trailer in southeast Missouri.

The victim was August Sides, 35, of Jackson, Mo.

The Highway Patrol said the car was on the wrong side of U. S. 61, about one mile south of Fruitland. The truck driver, James Fowler of Memphis, escaped injury.

THE CARS of Richard Hutchinson and Patsy Stallings after they had their accident last night on East Malone. Stallings car is on the left and Hutchinson's car is on the right.

Mrs. Charles Manley

Janette Higgs And Charles Manley Wed In Impressive Candlelight Ceremony

The soft glow of lighted cathedral tapers cast their radiance upon the beautiful and impressive Good Friday wedding of Miss Janette Higgs, daughter of Mrs. Louise Higgs of Sikeston, and Charles Manley, son of Mr. and Mrs. Howard Manley, also of Sikeston.

Reverend John Rhame officiated at the double ring ceremony in the First Church of the Nazarene on April sixteenth at eight o'clock before a setting of an arch decorated with blue ribbons and white gladioli. A kneeling bench completed the background.

Mrs. Glenn Van Zant, organist, provided the nuptial music and accompanied Glenn Van Zant, soloist, as he sang "I Love You Truly," "Because" and "Wedding Prayer."

The bride, given in marriage by Clyde Nicholas, a close friend, wore a floor-length gown styled with a close fitted bodice with long fitted sleeves that came to a point over the wrist and accented with tiny covered buttons. The dress featured a sabrina neckline. The bouffant skirt fell in long cascades of scalloped ruffles and was fashioned from Chantilly lace over taffeta and net over a Southern bell hoop. The skirt was enhanced with sequins and swept into a chapel train.

Her queen's type tiara was of pearls and centered with cut crystal and fell into an elbow-length veil of imported English silk illusion. She carried a white orchid bouquet.

Miss Jan Nicholas, a close friend of the couple, attended the bride as maid of honor. Miss Emily Manley and Miss Margaret Manley, sisters of the groom, served as bridesmaids.

The attendants were gowned in blue satin sheath dresses with three quarter length sleeves. The frocks were styled with scooped necks with Georgettes draped around the neck and hem-length streamers down the back.

Their headdresses were of satin bands with blue net attached. The attendants carried blue candles decorated with a corsage of white carnations.

Dennis Miller served his friend as best man. John Southern, a friend, and Rudy Manley, brother of the groom, were groomsmen.

Mrs. Higgs chose for her daughter's wedding a beige two-piece sheath which she enhanced with orange accessories. Mrs. Manley, mother of the groom, wore a pink cream puff dress with white accessories. Both mothers wore corsages of white carnations.

RECEPTION

Immediately following the ceremony, a reception was held in the Educational Building of the church. The bride's table was decorated with a blue cloth overlaid with white net and centered with silver holders and blue tapers.

A three tiered wedding cake topped with the traditional bride and groom appointed one end of the table and a crystal punch bowl appointed the other end. Nuts and mints were served to the guests from silver compotes.

Mrs. Clyde Launius, close friend of the couple; Mrs. Jimmy Higgs, cousin of the bride; and Mrs. Charles Campbell, close friend of the couple, assisted with the serving at the reception.

The guest book table was decorated with a bouquet of blue flowers. Miss Linda Manley, sister of the groom, presided at the guest book.

Miss Debra Launius presented the guests with rice bags from a brown wicker basket decorated with white and blue ribbons.

WEDDING TRIP

Following the reception, the newlywed couple left on an undisclosed wedding trip. For traveling, Mrs. Manley changed to a two-piece sheath made of green brocade. She complemented her attire with white accessories and wore the white orchid from her bridal bouquet.

The young couple will be at home at 953 Lake Street on April 20. Mrs. Manley is secretary to Robert Miller at Matthews Elementary School. Mr. Manley is employed by Pyramid Roofing Company.

REHEARSAL DINNER

On Thursday, April 15, Mr. and Mrs. Howard Manley entertained the wedding party with a rehearsal dinner at their home. Those attending were Mrs. Louise Higgs, Mrs. Jimmy Higgs and daughters, Debbie and Terry, Mr. and Mrs. Clyde Nicholas, Mr. and Mrs. Glenn Van Zant and Cindy and Don, Miss Jan Nicholas, Dennis Miller, Rev. and Mrs. John Rhame, Rudy Manley, Linda Manley, Miss Margaret Manley and Miss Emily Manley. After dinner, the bride and groom presented the wedding party with gifts.

OUT-OF-TOWN GUESTS

Out of town guests at the Higgs-Manley wedding were Mr. and Mrs. Finus Beggs, Carol Sue Beggs, Blodgett; Sharyn Cowell, St. Louis; Mrs. Jimmy Higgs and daughters, Debbie and Terry, Great Lakes, Ill.; Mrs. Ted Kelly, Jr., Cape Girardeau; Joe Sherrod, Miss Phyllis Simmons, Memphis, Tenn.; and Miss Garnetta Byrd, Branson, Missouri.

Rev. and Mrs. Harold G. Belsheim are shown with their two sons, Harold II, left and David, right. The Belsheims recently celebrated their Silver Wedding Anniversary.

Rev. And Mrs. Belsheim Honored With Reception

At six o'clock in the evening on April eleventh at the Concordia Lutheran Church, members and friends surprised Rev. and Mrs. Harold G. Belsheim with a dinner reception to mark their Twenty - Fifth Anniversary.

The church basement was decorated for the occasion by the Friendship Circle. A special table was covered with a white taffeta cloth. Centering the table was a white cake decorated with "Happy 25th Anniversary to Pastor and Mrs. Belsheim." The cake was flanked by white tapers in candelabra with a crystal punch bowl gracing one end. Compotes of party mints complemented the table. Accompanying the arrangement was also a silver tree decorated with silver dollars which completed the table appointments.

Mrs. Belsheim was given a corsage of white carnations to wear during the evening.

Rev. and Mrs. Belsheim have three children. Their daughter, Mrs. Don Hurtgen of St. Louis, Missouri, Harold II Junior at St. Paul's High School in Concordia, Missouri and David, a sophomore at the Sikeston Senior High School. The Belsheims will be leaving after Easter to visit their parents in Iowa to further celebrate their 25th Anniversary.

Eastern Star Has Regular Session

MOREHOUSE -- Morehouse Chapter #450 O. E. S. met in regular session and opened in due form with Worthy Matron Eleanor Fox presiding.

The flag of the United States was borne to the East by the Marshall and all joined in repeating the Pledge of Allegiance.

The minutes of the last meeting were read and approved by the Chapter.

A report on sickness was made and cards were sent to Douglas Hammock, Jr., son of Mrs. Shirley Hammock, Mrs. Opal Hart's and Mrs. Freeman, mother of Mrs. Edna Jackson.

Communications read was a letter explaining the O. E. S. Retirement Home and the cost and size of the track of land where it would be built; a letter from the Worthy Grand Matron about the Estorial Awards; an invitation from the Charleston Chapter for the party night when the District Deputy makes her official visit and an invitation from Advance Chapter for Easter Parade Night.

Mrs. Jeraldine Estep was installed by Past Matron Georgia Henning in the Chaplain's chair for the current term.

The Worthy Matron thanked her pro-tems and expressed her thanks for all who attended the School of Inspection at Dexter.

Lodge closed in regular form.

MISS BRENDA KAY BIRD's engagement to Glenn A. Matthews III has been announced by her parents, Mr. and Mrs. Kermit D. Bird. Mr. Matthews is the son of Mr. and Mrs. Glenn A. Matthews, Jr. Plans are being made for a July wedding.

Memorial Park Cemetery
"Natural Beauty With Perpetual Care"

Easter Greetings

We, as a family, and professional cemeterians in this locality, are dedicated in our efforts to serve Sikeston and surrounding territory. We pledge to all who place the burial of their loved ones in our care that we will faithfully continue to improve and develop Memorial Park in a manner that will meet with their approval and be worthy of civic interest. Moreover, it is our earnest desire that present and future generations will be pleased and proud of our accomplishment . . . .

Recently, the Ben Carroll family presented a beautiful cross to our cemetery. The cross will be lighted at night and we invite you to come out and view this memorial as well as other beautiful features.

Our office, located at the Cemetery on South Kingshighway near South Y, is open daily. Stop in and say "hello" while you are out driving around this Easter Sunday . . . . Spring is in bloom at Memorial Park.

Carl C. Harris, President

Missouri Sweeps Oklahoma

Oklahoma State jumped into a first-place tie with Kansas in Big Eight Baseball Friday while Missouri, the defending champion served notice it still is in the title picture by sweeping a doubleheader from Oklahoma.

Kansas and Nebraska, tied for the top with perfect records before this weekend, split doubleheaders.

Oklahoma State rallied twice and beat Kansas State 7-6 and 4-2 at Stillwater, giving OSU a 4-1 record. Kansas beat Iowa State 5-3 but lost the second game 2-0 at Ames, leaving Kansas at 4-1.

Nebraska dropped to third place at 3-1 by losing 3-2 at Colorado and winning the second game 4-2.

Missouri rapped 23 hits in its 10-2 and 12-1 victories over Oklahoma at Columbia. This moved Missouri into fourth place at 2-2.

In the second division are Iowa State and K-State at 2-3 and Oklahoma and Colorado at 1-4.

Single games will be played today in each series.

OSU's Tony Sellari singled home Freddie Moulder in the last of the seventh for the winning run in its first game after K-State scored three runs with two out in the top of the inning, the last two on Joe Beck's home run.

Bill Matan's two-run homer put Kansas State ahead in the second game, but the Cowboys rallied to win it with a four-run fifth inning.

Spray-hitting Tony Stark of OSU, a Juco transfer, was five-for-six at the plate, lifting his average to .786, best in the conference.

Missouri's Bob Robben had seven hits in eight trips, including two homers, two doubles and six runs batted in. Jack Stroud pitched a three-hitter in the first game for Missouri. Mike Eader won the second game, contributing a home run.

Scott Morton, a sophomore lefthander, pitched a two-hitter and Tim Mahoney and Wendy Blankenburg batted in the runs which gave Iowa State its second-game victory over Kansas. Steve Renko pitched a five-hitter for Kansas in the first game. The Jayhawks clinched it with a three-run fourth in which Bill Fenton doubled home one run and Dick Ruggles singled home two.

Colorado won its opener with Nebraska on Jim LaFoe's five-hitter and a two-run single in the fifth by Don Sessions. Nebraska's Bob Hergenrader, a lefthander, didn't allow a hit in the first 5 1-3 innings and finished with a three-hitter in the second game. The winning blow for the Huskers was a two-run seventh-inning double by Randy Harris.

Kennett Takes Meet

Kennett's fighting Freshman and Sophomores powered their way to an easy victory, in the Southern Division meet. This was the last meet for the Kennett Junior Varsity, in the Southern Division, Kennett will be in the Northern Division next year.

Kennett's Steve Turner paced the Indians to the victory. Turner led all scorer's with 24 points. Dexter's David Guethle tallied 18 1/2 to be runner up in the point totals.

RESULTS

100 - Johnson (H), Jennings (P), Coleman (P), Skidmore (G), Greg (D), :11.6.

220 - Turner (K), Johnson (H), Skidmore (G), Jennings (P), Garner (D), :23.4.

440 -- Farmer (K), Fingers (K), Jones (D), Carnean (C), Hamlett (C), :57.1.

880 -- Harper (K), Arment (C), Hensley (C), Vance (K), Barker (M), 2:12.4.

Mile -- Reed (K), McCoy, (C), Henry (K), Strosnider (D), Kersey (C), 5:05.0.

Two Mile -- Coleman (D), Wardron (K), Kersey (C), Slicer (K), Trost (M), 11:29.8.

High Hurdles -- Turner (K) Guethle (D), Bogle (K), Godrich (K), Taylor (D), :16.9.

Low Hurdles -- Turner (K) Bogle (K) Colyott (K), Greg (D), Graham (C), :21.7.

880 relay -- Kennett, Malden, Portageville, Hayti, Caruthersville, 1:45.8.

Mile relay -- Kennett, Caruthersville, Malden, Dexter, Hayti, 3:57.9.

Shot put -- Buys (K), Kleth (C), McGee (K), Alley (K), Thomspon (D), 48-9 3/8.

Discus -- Webb (K), Buys (K), Mattock (M), Keith (C), McGee (K), 125-5 1/2.

Broad Jump -- Guethle (D), Turner (K), Haney (D), Howard (P), Taylor (K), 17-9.

High Jump -- Turner (K), Taylor (K), Collins (K), tie for fourth between Taylor (D), and Clay (P), 5-2.

Triple Jump -- Guethle (D), Bogle (K), Worley (K), Colyott (K) Taylor (D), 36-5.

Pole Vault -- Goodrich (K), Guethle (D), Reed (K), Gooch (P), Haney (D), 10-9.

Celtics Picked to Take Los Angeles For Championship

By BOB HOOBING
Associated Press Sports Writer

BOSTON (AP) — Boston Coach Red Auerbach fears a letdown more than the Los Angeles Lakers in the National Basketball Association championship series opening here Sunday, although his Celtics are 2-to-1 favorites to gain their seventh straight NBA crown.

The Celtics won an NBA season's record 62 games, then survived a fright to edge Philadelphia 110-109 in their Eastern Division showdown Thursday.

Los Angeles wrapped up the Western Division series in six games against Baltimore despite the absence of all-league forward Elgin Baylor, who underwent knee surgery at the start of the playoffs. Boston beat the Lakers 7 out of 10 meetings during the season with Baylor in the line-up.

"Don't tell me they're crippled without Baylor," Auerback said. "I see they're scoring just as well. And it took more than Jerry West and Dick Barnett to pick up the slack."

"Los Angeles should be easier after Philadelphia and that Wilt Chamberlain," said veteran Celtics cornerman Tommy Heinsohn. "But all playoffs are tough. We've got to be careful not to have a letdown after the 76ers finish."

West, second high scorer to Chamberlain this season, averaged a fantastic 46.3 points a game against Baltimore and Barnett had a hot hand, too.

Boston has had two previous finals' encounters with the Lakers. Three years ago Frank Selvy's shot with two seconds left in regulation just missed bringing Los Angeles a title before Boston won in overtime 110-107. A year later Boston won in six.

Boston Race Starts Monday

BOSTON AP - - Two-time defending champion Aurele Vandendriessche of Belgium heads a quartet of former winners in a record field of 441 for the 69th Boston AA Marathon Monday.

Although there are 50 more entries than in any previous BAA test, the winner is expected to be one of eight - Vandendriessche, two Finns and five Japanese.

Eino Oksanen, 34-year-old Helsinki detective who won here in 1959, 1961 and 1962, has brought Finnish national champion Eino Valle with him. Finland has had six BAA winners in 11 years.

The Japanese, who won this event three times in the 1951-55 span, have dispatched a swift delegation headed by Takayuki Nakao, 26, author of a 2:15.37 clocking last December. Vandendriessche holds the Boston course mark of 2:18:58. The other men of Nippon are Morio Shigematsu, Hideaki Shishibo, Yoshikazi Funasako and Kazuo Matsubara.

Dressen Back In Action

LOS ANGELES AP -- Charlie Dressen, the somewhat subdued and temporarily sidelined little manager of the Detroit baseball club, is due to see the Tigers in game action tonight for the first time this season.

The 67-year-old skipper, stricken by a heart attack March 8, has his doctor's permission to attend the Tigers' game against the Los Angeles Angeles in Chavez Ravine, and also Sunday afternoon.

"I may feel like a Martian," Charlie said with a chuckle. He explained he will be rigged with wires and electronic devices which will register his heart and pulse reactions during progress of the two games.

Dressen saw the players for the first time since the attack at their off-day workout Friday.

It was estimated Dressen might be back in one to three months after the attack in Florida. He flew here the same day for treatment by his own physician.

Results of the tests at the games over the weekend may provide the doctor with more information about Dressen's condition and progress.

Sikeston's Frosh Take Third, In Conference

Sikeston met up with 6 other powers here in the Northern Conference, 9th and 10th Grades meet. Cape Central's Tigers, topped Dexter's Bearcats by a mere three points to win the event. Sikeston finished in third place only 20 points behind Dexter. Charleston finished only 3/5 of a point behind the Bulldogs, to take fourth place in the event.

This was the last North Division Frosh-Soph meet for Chaffee, who goes into the Southern Division next year.

There were several records broken in the meet. The performances in the two new events of the meet, the triple jump and two mile were automatic records.

RESULTS

100--Gerecke (CG), White (S), Covingeon (Chaffee), Duncan (PB), Vaughn (PB), :10.4.

220--Gerecke (CG), Lopp (S), White (S), Tucker (CG), Crader (J), :23.4.

Matson After World Mark

LAWRENCE, Kan. AP -- Randy Matson, Texas A & M's young giant, will go after his own world in the shotput and several other meet records will be in jeopardy in the 40th Kansas Relays today.

The 19-year-old Matson threw the 16-pound ball 67 feet 11 1/4 inches a week ago, breaking the world record of 67-10 held by Dallas Long, Matson's only conqueror in the Tokyo Olympics.

Matson, who stands 6-foot-6 and weighs 260, passed up the discus Friday although he set a collegiate record of 201-5 1/2 Wednesday. Bill Easton, relay director, said the shotput field has been surveyed and everything is ready for a world record effort.

A crowd of 12,000 is expected to watch Matson, top attraction on the 19-event final day card.

The distance medley could produce a meet record. Kansas has a finely balanced team which won the event at the Texas Relays. Southern Illinois is anchored by Bill Cornell, with a career best of 4:00.5 in the mile, and Missouri by Robin Lingle with a career best of 4:01.

Abilene Christian won the sprint medley in a fast 3:20.3 Friday but missed a meet record as SIU was disqualified and Lingle was a distant last when he got the baton.

Kansas, led by John Lawson's 4:03.7 on the third carry, won the four-mile relay by about 200 yards in 16:45.8, about four seconds off the record.

In the only college - university class record Friday, New Mexico's Clarence Robinson leaped 26-2 1/2, breaking the broad jump mark of 25-6 by Bill Miller, McMurry, in 1962.

Sports TALK
By DON SAVAGE

The Richland Sub - district baseball tournament, opens Monday at 3:00 P.M. Sikeston and Matthews are slated to play the first game, with the Richland - Oran game immediately following it.

Tuesday Bell City and Bloomfield lock up in the first contest of the afternoon's action. Scott Central and Bernie will decide the winner in the nightcap. If Sikeston wins their first contest against the Pirates they will take on the winner of the Richland - Oran game, on Thursday. The winner of this Tournament goes to the district meet at Oran.

My predictions for the Games Monday, are as follows:

Sikeston 5; Matthews 4. This should be a real good ballgame. I hope the Bulldogs eat their vitamins. Sikeston will have to cut down on their errors to win this one. They could be upset easily. Richland 4, Oran 7. Oran is too tough for Richland. Steimle, Metz and Johnson should be the big guns for the Eagles.

Koufax On Thin Ice

Sandy Koufax will be on ice Sunday, hopefully feeling no pain.

And when his arthritic elbow thaws out, the Los Angeles Dodgers may have their first major clue to how often their ace left-hander will be able to lend his talents to the chase for the National League pennant.

Currently labeled for use only on Sundays, the 29-year-old strikeout king makes his first start of the regular season at Philadelphia Sunday, then will take the necessary precautions by packing his elbow in ice and awaiting the results.

But since Koufax's return to the Dodgers and last Sunday's three - inning stint against Washington in an exhibition game, the uncertainty surrounding his condition has abated.

Koufax handled the Senators with little difficulty, allowing only one hit while striking out five and walking none. Afterwards he said:

"I'm ready to pitch any time I feel better than I have the entire spring. In fact, I feel amazing."

Nevertheless, Manager Walt Alston has held Koufax out for an entire week. But Alston has been optimistic. Asked Friday to list the best things that have happened to the Dodgers since the season began, he started unhesitatingly:

"One-the recovery of Koufax."

While Koufax was preparing for his big test, slugging San Francisco first baseman Orlando Cepeda was told his right knee was mending satisfactorily and he should be ready to begin full workouts in about a week.

Cepeda, who hit .304 with 31 homers and 97 runs batted in last season, underwent surgery on the knee last December but his progress has been slow. Cepeda, however, was told that he had nothing to fear-the knee would be as good as new.

The Giants were scheduled to go under the probing eye of the television cameras Saturday in one of three games to be telecast with the aid of the isolated camera and stop-action technique, used for the first time in baseball televising.

The techniques, enabling the television cameras to zero in on a single phase of any play, were being used by the American Broadcasting Co. in its Game of the Week series. The techniques have been used in pro football telecasts.

The Giants-Mets game will be telecast in the Eastern Central and Mountain time zones, Baltimore at Boston for New York City only and Chicago at Milwaukee for the Pacific time zone.

There were no games scheduled in the major leagues Friday.

"Hebrew"

Roots from which the word "Hebrew" is taken mean "to go over" or "to cross." The word was used by Gentiles to refer to people who called themselves Israelites or Sons of Jacob.

Mrs. Pat (Una) Davis Dies In The Hospital

Mrs. Pat C. Davis, one of Sikeston's well known and most highly respected citizens of more than a half century died at the Missouri Delta Community Hospital at 9:30 p.m. Thursday night after a few days illness. The body is in state at the Jackson Funeral Home.

Mrs. Davis was born in Bardwell, Ky., April 23, 1898, the daughter of the late Addie and Wm. H. Atherton. She married Pat C. Davis in Jan. 1915 and has lived in Sikeston, Mo. all her married life, making their home at 410 North St.

Five children were born of this marriage. They were: Lt. Carol E. Davis who was killed in action in 1944, in World War II; 2 daughters, Mrs. Austin (Louise) Chandler, of St. Louis, Mo. and Mrs. Richard (Imogene) LaPlant of Sikeston, Mo.; 2 sons Pat C. Davis, Jr. of San Bernardino, Calif., and John W. Davis of Sikeston, Mo. Also surviving are 2 sisters, Mrs. Ima Satterfield of Cairo, Ill., and Mrs. Thelma Martin of Memphis, Tenn., and one brother B. L. Kiser of Memphis. Also 6 Grandchildren: Ann Chandler White; Nancy and Linda Chandler of St. Louis, Mo., and Carolyn and Debra Davis of San Bernardino and Rikki LaPlant of Sikeston, Mo.; and 2 great grandchildren, Beth and Glen Jr. White.

Services will be held at the Jackson Funeral Home Chapel Sunday at 1 p.m. with the Rev. James Hackney of the First Baptist Church officiating.

Sarah Keating Services Sunday

BLOOMFIELD -- Mrs. Sarah Clementine Keating, 52-year-old housewife of Dexter, who had been ill for three months, died of acute leukemia at 1:15 p.m. Thursday at her home.

A resident of Stoddard County for several years, she had formerly resided at Kennett, Holcomb, Cape Girardeau and Detroit, Mich. She was born January 1, 1913, at Kennett and was the daughter of Mr. and Mrs. George W. Fopay. On January 1, 1942, she married Dallas R. Keating, who survives.

She is also survived by a son, Bill Keating, of Dexter.

The body will lie in state at the Chiles - Cooper Funeral until time for the funeral services which will be held at 2 p.m. Sunday in the Bloomfield Christian Church. The Rev. Charles Bess of Advance will conduct the services and burial will be in the Bloomfield Cemetery.

Cora Reynolds Of Charleston Dies

Mrs. Cora D. Reynolds, Rt. 2, Charleston, died at 7:15 a.m. today. She was born Sept. 27, 1885 in Buchanan, Tenn., the daughter of the late Mr. and Mrs. Henry Grooms.

Survivors include: one son, Deward Reynolds, Rockford, Ill.; two daughters, Mrs. Elmora French and Mrs. Elizabeth Mungle, both of Charleston; one brother, Jack Grooms of Bolivar, Tenn.; four sisters, Mrs. Lora Hillard, Mrs. Bessie Johns, and Mrs. Lucille Greer, all of Prayno, Ill., and Mrs. Ella Gibson, of Buchanan, Tenn.

The body is at the McMikle Funeral Home where friends may call after 4 p.m. today. Services will be in the Chapel, Monday at 2 p.m. Brother George Huffstutler will officiate with interment to follow in the Oddfellow's Cemetery.

Social Security Man Here Monday

Mr. Raymond Jones, Field Representative from the Cape Girardeau Social Security Office, will be at the Courtroom, Police Dept. Bldg., 140 N. Prairie, Sikeston, Monday, April 19, at 10 a.m.

Support Loans On Corn Smallest Since 1955

WASHINGTON (AP) — The Agriculture Department reported that farmers had placed 207.5 million bushels of 1964-crop corn under price - support loans through March 31.

This was the smallest quantity placed under such loans in a single marketing year since 1955.

The quantity of 1963-crop corn stored at the end of March last year was 374 million bushels.

Wheat from last year's crop placed under price - support loans totaled 196 million bushels, compared with 160 million a year earlier.

Iowa led with 93 million bushels of corn under loan, followed by Minnesota with 30 million, and Nebraska and Illinois with 26 million each.

NEVER ASSUME RIGHT OF WAY

EASTER KITTY—What does the well-dressed cat wear for the Easter Parade? Miss Susie Ralston, a Vincennes, Ind., teacher, whipped up this stunning chapeau for her kitten.

matter of fact

One out of every five persons in the United States is overweight. Obesity occurs most frequently between the ages of 30 to 50 and is more common in men than in women. In the United States it is estimated that about 9 per cent of the population is 10 per cent overweight and about 3 per cent is 20 per cent overweight. People who are 20 per cent overweight at the ages between 45 and 50 increase their death rate by 18 per cent. It is also known that more obese people die as the result of accidents than thin and more agile people.

YOU CAN'T BEAT ADVANCE HYBRID GOLD TAG SORGHUMS for GRAIN and FORAGE

GRAIN HYBRIDS -
ADVANCE™ 22—Early . . . Should be harvested early.
ADVANCE™ 14—Med. Maturity . . . large, open heads . . . very strong stalk . . . high yielding
AMAK R-10—Med. Early..Semi-open heads..good exsertion.
AMAK R-12—Med. Late . . . Large compact head . . . high yielding.

California's Nearly Nudes Must Cover Up

By JERRY RANKIN

SACRAMENTO, Calif. (AP) —California's burgeoning bevy of nearly nude waitresses, models and entertainers got the world today —cover up the bare bosoms.

"Things have gone too far" was the message from Sacramento, the capital.

James O. Reimel, director of the Department of Alcoholic Beverage Control, issued Thursday the cover-up order.

Assemblyman Joe Gonsalves, a Democrat from Artesia and the father of nine sons, has introduced legislation aimed at shutting down establishments where, "the bosoms of any of the female participants are exposed or are covered only by a transparent covering."

Gonsalves would authorize the state to suspend or revoke the liquor license of anyone offering such displays.

Lights would be snuffed out all along San Francisco's famed North Beach strip of night clubs if that were present law. Well-endowed young ladies gyrating to the latest "dance" in topless —and in one case a near-bottomless—bathing suits are features of many shows.

The sights in North Beach rivaled the politicking at the Cow Palace as the center of attention at last July's Republican national convention.

But Thursday, Reimel announced 25 key members of the Broadway Businessmen's Association had agreed to a five-point cleanup.

Henceforth, tops must go on the topless garments and "other garb stressing near nudity is out."

Noontime fashion shows, where models clad in the latest lingerie or waitresses in see-through blouses distract businessmen from their martinis, must really be designed to sell clothes.

Lady entertainers will have to stay on the stage, while the curtains must be drawn on those who've gathered on sidewalks and ogled the girls inside.

"I know this is an area that touches on interference with private business," Reimel said. "But things have gone too far in certain spots and, unless the courts tell us otherwise, we will proceed."

Unions and businessmen go along with the cover-up, he reported, and the rules will be extended statewide.

Conference To Be In Sikeston

A sectional conference will convene at the United Pentecostal Church, at corner of Matthews and Warner streets, on Monday and Tuesday, with Rev. Billy Butler as the pastor.

The Monday session will be at 2 p.m. and 7:30 p.m., while the Tuesday session will be at 10 a.m., 2 p.m. and 7:30 p.m. The Rev. Harry Branding, St. Louis, district superintendent, will be the afternoon Bible teacher.

The confernce will elect their officers for Section No. 3, which includes ten towns.

What you harvest can't be better than the seed you plant

These Four Are Listed In University of Missouri Extension Division's 1965 Recommended Corn Varieties For Missouri

MO. 880 — 110 Days Maturity — Our Mo. 880 continues to be above average in standability and yield. Wilt resistant. Well adapted for mechanical harvesters. $9.00 BUSHEL

U. S. 523-W — 110–115 Days Maturity — U. S. 523-W continues to be the best white hybrid. It is outstanding in yield and is adapted for mechanical harvesting. It has a grain type suitable for the white corn milling trade. $9.00 BUSHEL

MO. 63-1 — 110 Days Maturity — NEW MODIFIED SINGLE CROSS. Responds to thick planting and high fertility. Holds its long ears well for machine harvest. Plenty of disease, insect and drouth resistance. Sturdy, well anchored stalks stand until harvest. Only a limited supply of this good hybrid. $15.00 BUSHEL

MO. 1023 . — 110 Days Maturity — EXCELLENT YIELDER! RESISTS DROUTH. This outstanding hybrid has consistently been at the top in yield tests. Excellent standability and ear holding capacity. Excellent yielder at moderate and high populations. Adapted over all of Missouri, Southern Illinois and Western Kentucky. You will like this hybrid. $10.50 BUSHEL

BB 25 . — 110 Days Maturity — BIG EARED BEAUTY! TOPS IN YIELD. Big attractive ears, deep kernels-quality grain. Ideal at moderately high plant populations of 18,000 plants per acre. BB 25 stands up and holds its ears for picker or combine. $10.50 BUSHEL

BB 64 . — 110 Days Maturity — NEW SINGLE CROSS! EXTRA HIGH YIELD CAPACITY. Excellent yielder—responds to thick planting and high fertilization. Superior standability with low ear placement. Holds its uniform sound ears until harvest. $18.00 BUSHEL

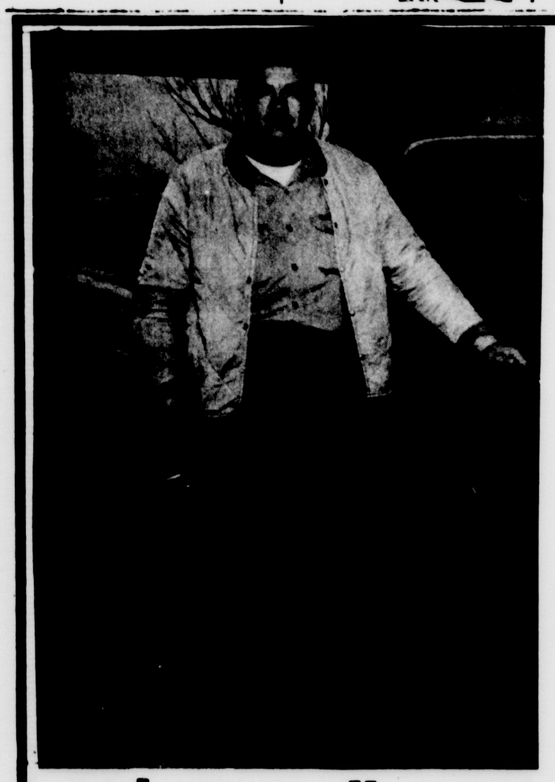

BB 65 . — 110 Days Maturity — MONEY MAKER! Sturdy stalks with medium low ear. High yielder at moderate to high populations. Fast drying hybrid. Only limited supply of this new hybrid. BRED FOR HIGH FERTILITY. $10.00 BUSHEL

THE PROMISE OF EASTER, 1965

If ever the world needed Easter, it is in the Year of Our Lord 1965.

Far too much of everything Easter symbolizes has been washed away by a torrent of suspicion, conflict, hatred and selfishness.

The one thing nations and people seem to have in common today is mutual distrust.

It isn't hard to build a strong case against the future, against any real hope of peace and understanding and the power of God.

The scoffers are ever more vocal as they deride fundamental precepts of decency and morality and good taste. The haters are ever more vicious as they seek to infect others with their poisonous philosophies.

Is there really any hope?

The promise of Easter says there is. It says there is always hope for those who want hope, that there is always comfort for those who seek comfort.

If this were not so, the hope of mankind would have ended with the crucifixion. But it didn't. There was the resurrection.

Even today in a troubled world, a shaft of light pierces the gloom of discontent, disbelief and distrust. It is the eternal and indestructible hope of man that the power of good surpasses the power of evil.

The truth of this hope has been proven again and again. It is being proved today amidst almost overwhelming strife and turmoil.

If this truth is to prevail -- and it must and will -- it will prevail more easily if men of good will, faith and courage put their trust in it completely, confidently and joyously.

Good over evil, love over hate, hope over despair -- these are ours for the asking, today as always, if we but believe in them and are willing to work for them.

This is the promise of Easter in 1965.

EVERY AMERICAN HAS A STAKE IN THESE 44 WORDS OF THE TAFT-HARTLEY ACT:

"Section 14(b): Nothing in this Act shall be construed as authorizing the execution or application of agreements requiring membership in a labor organization as a condition of employment in any State or Territory in which such execution or application is prohibited by State or Territorial law."

These 44 words provide the means through which the 50 states may prohibit compulsory union membership, and thus safeguard individual freedom and continued prosperity.

Union officials get much of their personal power through the instrument of compulsory membership which gives them monpoloy control of the jobs; and from compulsory dues which gives them monopoly control of the jobs; and from compulsory dues which give them control of approximately $75,000,000 a month.

It is reliably estimated that up to 60% of dues and fees is spent directly and indirectly on politics. This puts into the hands of the union officials massive political powers. If these powers are permitted to expand, union officialdom could gain absolute control over the nation's political, economic and governmental life.

Section 14(b) of the Taft-Hartley Act stands as a barrier against these dangerous and mounting powers of the union hierarchy. The powerful union political machinery is being employed in an effort to uproot the barrier and destroy all Right to Work laws.

One example of reckless driving is a girl trying to hammer in a nail.

* * *

The New York Herald Tribune reported: "Earlier, a bottle between Moslems and Jews left two Moslems dead and 10 persons wounded." If they can't drink without fighting, they should quit drinking together.

* * *

An after - dinner speaker is one who is always in a phone booth when the waiter brings the check.

* * *

If you drive children to school, says the Portland, Oregon, Traffic Safety Commission, never allow them to leave the car except from the curb side and always let them out on the school side of the street. Don't jeopardize their safety and ignore an opportunity to set the proper example just to save a few seconds.

Only the generous are capable of gratitude.

* * *

Incidentally, the postal system handles two-thirds of all the world's mail, and New York City, for example, handles more mail than the entire British system.

* * *

TIME ADVERTISING COPY

Properly timed newspaper advertising follows the store's sales curve closely. Timed advertising enables a store to plan the newspaper advertising program weeks and months ahead. In this manner no possibilities are missed, no selling opportunities are overlooked.

Newspapers are perfect for timed advertising. They are perfect for merchandise advertising. They are perfect for reaching the largest number of potential customers at the smallest possible cost.

* * *

The equality of the sexes is amply demonstarted when you consider the term "authoress" is no longer used. Female authors today are described as "writers" along with their male counterparts. Even the Post Office no longer tolerates "postmistress" and designates all heads of local post offices as "postmasters," regardless of sex.

* * *

The Department of Agriculture has reported that Americans smoked 16 billion fewer cigarettes during the first half of 1964 than in the comparable period of 1963. That was a 6.5 per cent decline. Cigar sales, on the other hand, increased about 12 per cent.

* * *

The District of Columbia once had "perpetual" registration of automobiles. Once you paid the $2 fee, you were registered perpetually.

* * *

Thoughts while shaving: For those cigarette addicts who heeded the Government report, but are having a hard time quitting the weed, the record industry has just come out with a new LP album entitled, "Music, To Help You Stop Smoking." We'll bet two songs you won't find in it are "Smoke Gets In Your Eyes" and Two Cigarettes In the Dark."

* * *

On or before the 105th day*, of 1965, Charlie Green, married, father of two children, and earning $6000 a year will have done his patriotic bit and filed his 1964 Federal income tax return. No spendthrift he, Charlie will have a pretty good notion where most of his $6,000 went. But sometimes he wonders whatever happens to the Federal income tax money he pays. In the table below, Tax Foundation, Inc., helps Charlie out by showing where his estimated $500 Federal income tax money went in terms of the $97.5 billion in fiscal 1965 Federal budget categories; also where the estimated $450 he may pay in 1966 in terms of the fiscal $99.7 billion fiscal 1966 Federal budget categories:

	1964 Income	1965 Income
Defense	$264	$233
Space	24	23
International Affairs and Finance	20	18
Veterans Services and Benefits	27	21
Health, Labor and Welfare	32	37
Education	8	12
Agriculture and Agricultural Resources	22	18
Natural Resources	14	12
Commerce and Transportation	14	13
General Government	18	11
Interest	57	52
TOTAL	$500	$450

Did you know that 59.6 per cent of all the trips made by automobile in the United States are less than five miles long?

Such is the vital, indispensable information available about the travel habits of Americans. Or, did you know that the "average" vacationer travels 296 miles from his home and carries an "average" of 2.7 occupants in his car? Eighty - two per cent of all people who vacation travel in their own cars, by the way.

The Director of the U.S. Office of Highway Safety, James K. Williams, observed recently that there is now in the United States one vehicle for every two-and-a-half persons and 22 vehicles for every mile of road. Furthermore--note this -- highway accidents cost about one cent for each mile of travel in Illinois, said Williams.

Moving from cars to drivers, the U. S. Bureau of Public Roads announced recently, with fanfare, that 93,700,000 people, about half the population, are licensed to drive.

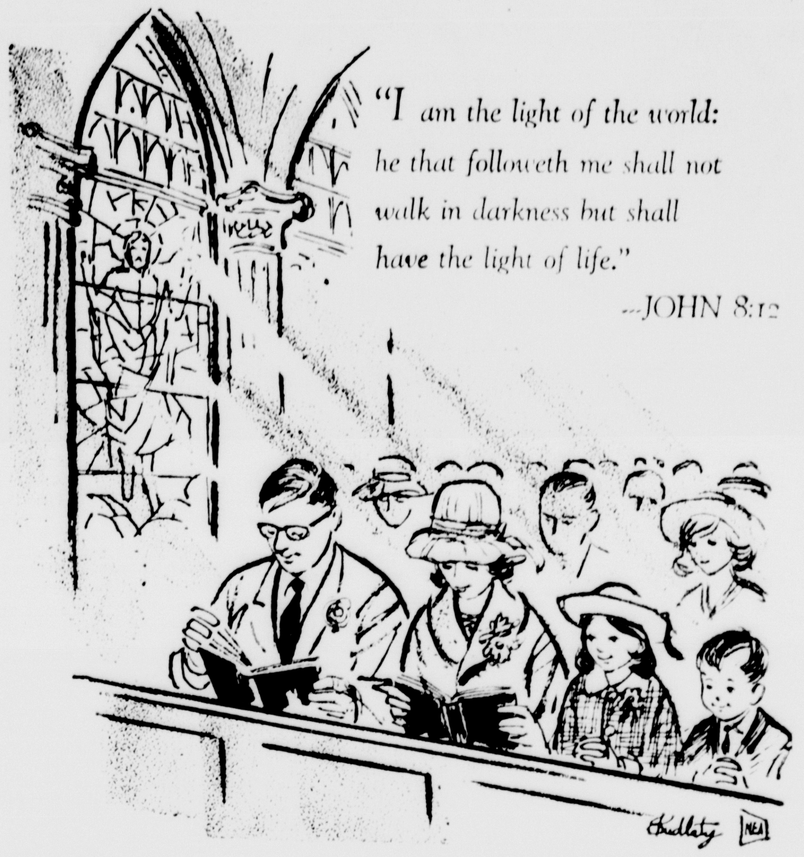

With that many drivers behind the steering wheels of that many cars, things are bound to happen. The Traffic Engineer of Westchester County, N. Y., got into the statistics act recently by announcing that during 1963, 14,241 persons were injured in automobile accidents in his county and that this is more than the entire population of the city of Rye.

All of which probably made the residents of the city of Rye feel somewhat insecure.

Following a logical train of thought, we come to statistics on the means for preventing many accidents by so many cars with so many drivers driving them down the 3,600,000 miles of road in the United States.

Did you know that 17 states and the District of Columbia require light reflecting license plates? It is estimated that more than 16 million motor vehicles carry the night-time-safety devices which have presented a lot of rear-end collisions.

To conclude this compendium of vital information about the field of private transportation, allow us to inform you that 86 per cent of the families in Klamath Falls, Oregon own automobiles.

TOMORROW

APRIL 18 -- SUNDAY

EASTER SUNDAY, Commemorates the Ressurection of Christ.

* * *

Speaking of the Great Society, there is a minority in America for which:

Unemployment averages 45 to 50 per cent; median family income is $1,500, housing is 90 per cent below acceptable standards; average educational level is five years; average age at death is 43.

WHICH HAS:

An infant mortality rate almost double that of the general population; influenza and pneumonia death rate twice as high; tuberculosis incidence seven times as great and TB death rate five times higher.

WHERE:

Infant mortality from parasites and other causes rare in the general population are a commonplace; diseases virtually unknown among other Americans, such as blindness-causing trachoma, still persist.

WHOSE MEMBERS:

Often haul drinking water, from unsafe sources, a mile or more; live five to a room; have an accident death rate three times the national rate, caused by overcrowding, the use of gasoline or kerosene lamps, snake bites and other conditions typical of their primitive and isolated environment.

The minority is the original American, the Indian, who, except as a decoration in Western movies, has all but vanished from the national consciousness.

The figures were cited before a Senate subcommittee by Dr. Carl Muschenheim of the Association on American Indian affairs, a voluntary organization.

President Johnson has recommended a budget of a little over $66 million for the Division of Indian Health for fiscal 1966, an increase of some $3.4 million over 1965, to aid 380,000 Indians and native Alaskans in 24 states. In the past 10 years, the government has made impressive gains in cutting the Indians' death rates.

But it is not enough, the association maintains, pointing out that salary increases will account for over $900,000 of the President's proposal. It recommends at least $5 million more a year, plus something like $12.2 million for the construction of sanitation facilities and for medical services.

A special five-year campaign against trachoma, says Dr. Muschenheim, could wipe out that disease for $1 million.

* * *

Note left on Music Store Door: "Johann to lunch. Bach at one. Offenbach sooner."

* * *

THE HAUTE MONDE

A rich, haughty heiress visited the hospital to see her chauffeur who had been badly injured in an automobile accident in which she was uninjured.

"He's a very sick man and should see no one but his family," the doctor said. "Are you his wife?"

"Certainly not," the indignant heiress declared. "I'm his mistress."

* * *

MONKEY'S ON FIRE

A man who owned a hand-operated rotisserie was barbecuing a chicken in his back yard and turning the crank for it, when a beatnik walked by.

"I don't want to bug ya, dad," said the character, "but your music's stopped and your monkey's on fire."

* * *

People are spending about the same amount -- 19.7% -- of their take-home pay for food this year as last.

* * *

National Commander Donald E. Johnson of the two-and-a-half-million member American Legion says his National Executive Committee unanimously urges revocation of the VA order of Jan. 13 closing 11 veterans' hospitals and other VA facilities.

He calls on the President and Congress to investigate first, close later. VA officials, he says, are merely trying to cut costs on Executive orders. Both Budget and VA officials, he said, failed to convince the Legion's week-long Fifth Annual Washington Conference that the reasons given justify the closing.

In other words. It didn't sound like the Great Society to the Legionaires.

* * *

Of every six persons who get cancer today, two will be saved and four will die. Two will be cured through prompt diagnosis and treatment. One will die who might have been saved if only he or she had received medical attention in time. The American Cancer Society urges annual health checkups for all adults.

* * *

Dr. Marshall Says

The lawyers have run this country long enough. They have graated until they have ruined and wrecked our country.

Washington-Merry-Go-Round

By Drew Pearson

WASHINGTON-- Admiral William F. Raborn is such a nice guy that the Senate will doubtless confirm his as chief of Central Intelligence without much debate.

I happen to like the Admiral too. However, as a newspaperman I must report that since Raborn's retirement he has been steeped in exactly the atmosphere which Dwight D. Eisenhower blasted so vigorously in his last message to the American people, when, Jan. 17, 1961, he warned of a dangerous alliance between the big military complex and the big defense complex.

The big defense complex from which Admiral Raborn came -- Aerojet -General Tire-Polaris --went one step beyond Gen. Eisenhower's warning and also includes radio-television and newspapers.

In addition, Rep. Edward Hebert, D-La., disclosed in a congressional probe of defense lobbying that Aerojet employed 66 admirals, generals, and other retired officers, of whom 26 gave identical, evasive answers dictated by Aerojet when asked whether they had lobbied for defense contracts. Rep. Hebert never did get a real answer on this point.

--RABORN AND AEROJET--

Admiral Raborn was in charge of the Polaris Missile Program for the Navy from 1955 to 1963 and immediately upon retirement walked over to the company which had the chief polaris contract-- Aerojet-- to become its vice president in charge of polaris production in California. He was not, however, one of those grilled by Rep. Hebert.

Relations between the Navy and Aerojet have been so chummy during part of Raborn's regime in the Navy that it has been difficult for congressmen and government accountants to fathom where the government's business stopped and Aerojet's began. It was fairly easy to ascertain, however, that the taxpayers' interest was not being served.

The House Armed Services Committee discovered, for instance, that the Navy placed $4,-800,000 in buildings on Aerojet property from 1946-52, and since the property could not readily be removed, it reverted to Aerojet.

"This is a heads-I-win, tails-you-lose proposition," commented Rep. William Bray, R-Ind.

Admiral Raborn was not in charge of the Polaris program at that time, but Dan Kimball, now president of Aerojet, was then assistant secretary and secretary of the Navy.

Later, Admiral Raborn was in charge of the Polaris program when the Defense Department permitted Aerojet to charge up the $205,000 cost of a cafeteria to the taxpayers, even though Rep. Porter Hardy, D-Va., showed that the cafeteria showed a profit of $71,000.

--NEW MONPOLOY--

This defense contractor background of the new chief of Central Intelligence is important for the following reasons:

1. Rep. Wright Patman, D-Tex., has exposed some of the secret links between big business and the CIA. There have been others, including the manner in which CIA arranged for tax-free business funds to go into an anti-Israel, pro-Arab organization in the Middle East at a time when the White House was trying to keep peace in the Middle East; and how CIA siphoned corporate funds into anti - Soviet radio broadcasts through Radio Free Europe at a time when the White House was trying to improve relations with the Soviet.

2. The CIA operated through various business blinds to secretly conduct one of the worst catastrophes in recent American history--the Bay of Pigs landing on Cuba.

3. The policy of General Tire-Aerojet regarding news monpoloy is directly contrary to the policy of the Justice Department.

The Justice Department of late has brought more antitrust suits against newspapers than at any other time in history. Simultaneously, here is what the defense complex from which Admiral Raborn comes to CIA has been doing in this field:

General Tire and Rubber, whose executives, the O'Neill family, were among Joe McCarthy's staunchest rooters, own RKO General which owns and operates WOR and WOR-TV in New York, KHJ-TV in Los Angeles, WNAC-TV in Boston, WHBQ-TV in Memphis, CKLY-TV in Windsor, Ontario, and WHCT-UHF-TV in Hartford.

General Tire and Rubber, on top of this, has just acquired 48 per cent of the stock of the Schenectady Union Star.

Last year, Rep. Don Edwards, D-Calif., warned Congress of the manner in which some radio-TV empires owned by big defense contractors were influencing the defense budget and the problem of disarmament. He named, among others, the Radio Corporation of America, which owns and controls the National Broadcasting Company.

However, General Tire's purchase of a large slice of the Schenectady, Union Star is the first time, so far as known, that a big defense contractor has also barged into the newspaper business on top of a TV empire.

In view of these facts, and the fact that Congress has no check on Central Intelligence it is important for the press to scrutinize the immediate background of its new chief--even if Admiral Raborn is such a nice guy.

Inside Labor

By Victor Riesel

Moscow Pressuring U. S. Labor Chiefs in Attempt To Stir Attacks on American Bombings of Viet Cong

NEW YORK:-- A Western Union messenger delivered a cablegram from the Soviet Union to an American labor leader here at exactly 12:41 p.m. on Saturday, April 10.

The message was dispatched from 42 Leninsky Prospect, Moscow, a day earlier. It marked the launching of a bold drive inside the U. S. aimed at provoking American union chiefs into an assault on the Pentagon's policy of bombing the Viet Cong.

The cable which signaled one of the most daring Soviet propaganda operations inside the U. S., was sent to Joe Curran, National Maritime Union president. His was a "go-to-hell" reaction.

Others were dispatched from Moscow to unionists whose names and addresses were supplied by the U. S. S. R. Embassy. Each had the same blood-and-thunder prose:

"Expressing opinion members U. S. S. R. Sea River Workers Union," said the cable, "feeling indignation against aggressive actions American militarists in Viet Nam, we request you in name international solidarity workers and strengthening peace on earth, to condemn aggression American military forces using war gas also napalm against population South Viet Nam bombing and shelling territory democratic Republic Viet Nam killing women old men children destroying cultural and material values. (Signed) Sayenko, Chairman."

Officially, Mr. G. Sayenko is chairman of the Central Committee of the U. S. S. R. Sea and River Workers Union. Actually he is a political commissar. He has never been to sea.

His assignment is to run the strategic manning of the Soviet's merchant marine which runs the long ocean ferry lines to Cuba, Red China and North Viet Nam as well as to all other world ports except the U. S. Here Soviet ships are boycotted by the International Longshoremen's Assn.

Sayenko's official actions are on orders from the Soviet government or its secret police. Not too long ago a delegation of Western maritime officials presented him with a ship's clock as a polite gesture during a visit to Moscow. Sayenko refused to accept the small gift until he checked with the State Security police (KGB.)

There is evidence that the Sayenko cable is just part of a series of Soviet efforts to stir some of America's transport unions into a break with official government policy in Southeast Asia. Pressure also has been put on Paul Hall, president of the Seafarers International Union and other labor officials by Nicolai Fedorenko, U. S. S. R. Ambassador to the United Nations.

Mr. Hall, whose waterfront headquarters is in Brooklyn, has refused to meet with the Communist ambassador.

These overt Soviet moves reflect the hardening of Moscow's policy toward America. The tactic is shrewd. If the cables and other pressure on American labor leaders do flush out an attack on the bombings of the Viet Cong guerrillas, the Soviet propaganda machine will have made a profit indeed.

If the messages are ignored, the Soviets still can exploit the operation simply by broadcasting the fact that its pleas for "solidarity" against the bombings were rejected.

The decision to open up in the U. S. must have been a sudden one. Until April 10 the word from Moscow to its Communist allies in America called for sleeper tactics.

This directive was brought back from behind the Iron Curtain by veteran Communist Louis Weinstock, long the top Communist labor specialist in our country. For decades he was their organizer of May 1 parades and demonstrations.

Late last year he attended the Budapest session of the Soviet - controlled World Federation of Trade Unions. In January he returned with the briefings for American Communists active inside labor.

The American Communists were told to work behind the scenes. They were eager to exploit the unrest in the coal mine patches, the steel mill areas and amongst railroad workers.

But the policy called for restraint until the Supreme Court rules on the Landrum-Griffin Act's ban on Communists' holding union office. If the high court rules this legal, the Communists would then fan out and organize their labor clubs openly. But there has been no decision, though the Court said last November that it would act on the matter.

Furthermore, the Communists had hoped to beat the Internal Security Act indictments during a March trial. However, the federal court postponed the trial until next Oct. 14. Thus they have been a very long way from being able to use possible favorable court decisions as evidence of unrestrained legality. So they were quiet.

The silence was broken by the cables and pressure from Moscow.

SCOTT COUNTY *Ramblings*

by
TOM B. STROUP
Director and Agricultural Agent

PLANTING RATES

Today we hear much discussion about the proper planting rates for corn.

According to research done in Missouri, it appears that between 14-16,000 stalks per acre seems to be the best corn population with present varieties.

On our very best soils we should go up to 18,000 stalks per acre in 36 to 38 inch row spacings.

We probably should not go above 20,000 stalks on the very best river bottom soils.

SOYBEANS -- If weeds were not a problem, and that is a "big if," for on most soils here in Scott County we do have a weed problem . . .we could get slightly higher yields by drilling soybeans than by rowing them. But since weeds are a problem, we must be concerned with planting methods to control weeds.

The best guide on row spacing is that width to fit your total operation. While some increase can be obtained by closer row spacings we must consider other crops on which equipment is used.

You should use a rate of plantings to get a good start of soybeans. This will be about 45 lbs. per acre on most soils. You may need to go up to 60 lbs. or 1 bushel per acre on tight gumbo soils.

SORGHUM GRAINS -- The sorghum crops do not do well in real high populations. They must have room to spread and form a good head. our recommended rates ae 3 to 5lbs. per acre.

For more information contact your University Extension Center.

ROUNDWORMS IN CATTLE

There are many internal parasites of cattle including roundworms, flatworms and small, one - celled organisms known as protozoa. This discussion is confined to roundworms of the stomach and intestines which are considerable economic importance here in SEMO. The cattle raiser should be aware of the indirect drain of internal parasites upon overall production rates.

WHERE DO CATTLE GET ROUNDWORMS?

Most roundworms spend a portion of their life cycle on the ground or grass. These are usually in the form of eggs or larve which have been deposited with the manure from carrier cattle. After a period of development the larvae are ready to be ingested with grass by grazing cattle.

HOW DO ROUNDWORMS PRODUCE DISEASE?

Most of the roundworms feed in or from the inner lining of the digestive tract. They may suck blood or cause ulcers or nodules in the intestinal wall. At any rate, the function of the digestive tract is greatly hindered. Growth and gains are retarded and feed conversion is reduced.

WHEN ARE PARASITES MOST DANGEROUS TO CATTLE?

Parasites are usually most damaging to beef cattle between 8 and 20 months old. Dairy calves may be affected much earlier unless good management practices are followed. The beef calf is protected during the early months of life by resistance provided by the mother's milk. Also the beef calf isn't usually forced to close pasture grazing at an early age.

WHAT PASTURE CONDITIONS DO ROUNDWORMS PREFER? Roundworms like plenty of rain, high humidity and overcast skies. They like dense forage which gives protection from sunlight.

NATURAL FACTORS WHICH HELP CONTROL PARASITES

Sunlight, drying, freezing and thawing all help to reduce populations of worm eggs and larvae on pastures.

HOW CAN THE CATTLE RAISER CONTROL ROUNDWORMS?

Proper stocking rates are vital to parasite control. Overgrazing usually results in lower nutrition levels with secondary lower resistance to the effects of the parasites.

Rotation grazing may be used for parasite control. Calves and yearlings should be grazed on upland or well drained pastures when possible.

Swamps and farm ponds should be fenced out of grazing areas.

Good nutrition is the first line of defense. Supplemental feeding or grazing during extreme dry summers is needed. Supplemental Vitamin A may reduce the effects of roundworms during late winter.

Cotton Market News

Buying of spot cotton decreased from a week earlier, according to the Consumer and Marketing Service, U. S. D. A. Prices were fairly steady. Demand was centered around the Low Middling through Middling grades with staples of 1-1/32 and 1-1/16 inches. Some buying of Strict Good Ordinary Plus through Below Grade cotton was reported. Farmers continued to sell loan equities from $1.00 to $3.00 net per bale.

Domestic mill demand weakened. Buying continued in small lots but most shippers were concerned with meeting prior commitments. Inquiries for new-crop cotton increased though purchases remained small in volume.

Foreign mill inquiries were fairly light. Prices slowed trading and only a small volume sold.

Higher temperatures warmed the soil and planting should make progress in early sections during Easter week. Frequent showers and 50 to 60 degree temperatures slowed seedbed preparation and planting in the central and northern sections of the area. Many farmers are anxious to get into fields and show considerable signs of impatience.

EIGHTY SEVEN OBTAIN INFORMATION AT SOILS AND CROPS MEETING

Eighty - seven Stoddard County farmers obtained information pertaining to soil improvement and crop production during a series of six Community Soils and Crops Meetings held throughout the county recently. These meetings were conducted by local Extension Agents in Bernie, Richland, Dexter, Advance, Puxico, and Dudley to assist farmers in making plans for the coming crop season.

Subjects discussed at these meetings included the use of fertilizer and lime according to soil test recommendtations, recommended crop varieties, chemical weed control recommendations, irrigation, and insect and disease control in field crops including the New Corn Stunt Disease and the soybean Cyst Nematode problem. The meetings were conducted on an informal basis during which farmers were allowed to ask questions, and MU Guide Sheets and bulletins pertaining to the subjects discussed were made avilable to the farmers in attendance for future reference.

One Of The 10 Most Wanted Men

DONALD L. PAYNE

Donald L. Payne, a highly dangerous convicted rapist, charged with a sex attack upon a Houston, Texas, girl in July, 1959, is one of the FBI's "Ten Most Wanted Fugitives." He is being sought for unlawful flight to avoid prosecution for the crime of rape.

Payne allegedly raped an 18-year-old Houston, Texas, professional dancer on July 10, 1959, after gaining entrance to her residence on the pretext of offering her a dancing job. He reportedly threatened to strangle her if she resisted or cried for help. He has also been identified as the perpetrator of a vicious sex attack on a 12-year-old Houston boy on July 5, 1959.

Payne has a long, foul history of violent criminal sex attacks and parole violations. He has been described as a dangerous man who "would not hesitate to kill."

Payne, a white American, was born at Haskell, Oklahoma, on July 19, 1918. He is 5'10" tall, weighs approximately 140 pounds, has a slender build, ruddy complexion and brown, receding hair. He has worked as a newspaper solicitor, fry cook, farm hand, laundry worker, machinist, salesman and tailor. He is identifiable by a large scar on his right index finger. He also has a hernia scar, a birthmark on his right elbow, a scar on his forehead and a tattoo of two hearts, a wreath and the word "Christine" on his right forearm. He should be considered armed and dangerous.

Bootheel Beat . . .

—By MAX STURM—

SOUTHEAST MISSOURI NEWS SIDELIGHTS, FEATURES AND OBSERVATIONS.

THE MISSOURI BOOTHEEL'S continuing drive for greater industrialization has a lot more working for it these days than in years past.

In the first place the region has shaken off its former identification as solely an agricultural area which slowed down the establishment of industries unrelated to agriculture. In years past, industrialists held the opinion that we mainly had a multitude of excess hoe hands and cotton pickers here from which they could draw their factory workers, and they took a very dim view of it. They virtually threw up their hands at the thought of trying to make skilled personnel out of these people.

A number of factory owners, however, have gone ahead from year to year and have proven that this old labor viewpoint isn't entirely true. They have shown that the Bootheel can become a profitable industrial area as well as agricultural. So let's take a look and sum up, at least partly, what has been going on industry - wise in the Bootheel during the last few years. The best way we think is to list as many products we can think of that are being manufactured today in the region:

Garments and shoes, toys, furniture, wood products, wheeled metal products, tractor and truck mufflers and exhaust pipes, canvas products, farm implements and trailers, fire extinguishers, sports airplanes, graphic arts products, electrical products. This list probably isn't complete, but it is sufficient to show the wide variety of items being made currently in our area.

The point is that this list ought to convince any individual or company contemplating plant expansion or the location of new plants that the Missouri Bootheel is a proven industrial area now with a labor supply that can be trained quite satisfactorily as skilled factory workers.

It is often said that success breeds success, and "them that has -- gets," so since the Bootheel is now a successful industrial area, we ought to place more emphasis on capitalizing on it and have more industries established here. One step in this direction would be a strong promotional campaign aimed at the right man in a number of industries over the nation pointing out that we can take care of them as we are doing others. It shouldn't be quite as difficult as back there in those days when we couldn't show much of a variety in industrialization.

The big city newspapers and civic leaders would like for rural and smaller urban centers campaigning for more industries to believe that it is morally wrong to entice their industries. They call this pirating. I'm not yet convinced that they are entirely correct in their viewpoint, especially the way things have become in the heavily populated cities.

It is well known that for many years the big cities have pulled population away from the rural areas and small towns and cities, as the people sought employment not available in their home regions. This has made the big cities bigger and small towns smaller. On top of that life in the big cities has reached the point where it lacks much to be desired, what with the slow strangulation by the constantly increasing automobile traffic, forcing thousands to escape to the suburbs. An additional point that was much discussed back in the early nuclear bomb days was that for self-preservation and the country's defense, industries should be dispersed over the nation -- and this meant that more of them should locate in the smaller towns rather than in the big cities.

Thus, it would appear that from our rural viewpoint, if the Bootheel has something better to offer additional industries than the cities have we ought to feel free to advertise the fact. Obviously, it would be better for the United States to have more smaller cities with the population and industries well distributed over the nation rather than being concentrated in a few big centers. So what is wrong with trying to bring in industries from the cities -- that enticed our population away in the first place? Looks to me like it's a matter of "turn about is fair play."

IT DOESN'T HAPPEN every day that a Bootheel worker is so outstanding in his field that he is given a special assignment to handle a short-term job in his work in a foreign country. Since this goes along with the point we are trying to make about the dependability of Bootheel industrial personnel, I would like to tell about it here, however.

James Krepps, a former flight instructor and aircraft maintenance specialist for the Air Force at the former Malden Air Base, has been maintenance supervisor for Dick Reade's Mid - Continent Aerial Sprayers in Hayti for three years. What he doesn't know about building, assembling and flying such airplanes apparently hasn't been written yet.

A short time ago the Grumman Ag Cat factory at Elmira, N.Y., sold a couple of their crop spraying planes to a customer in Spain, and they needed an expert to go over there and supervise the unloading of the craft from an ocean liner, reassemble and test fly them before delivery. To find the right man for the job they came to Hayti, Mo., asking Reade, one of their dealers, if he would lend them his man Krepps for three weeks to fly to Spain and take care of the matter.

Krepps is on the job now and is due back in Hayti April 21.

THE BOOTHEEL has a number of people who are outstanding in civic club and other organizational work as well as in employment fields. For example, Mrs. Margaret Rone of Hayti is in line to become the state president of the Missouri Federation of Business & Professional Women's Clubs in 1966-67. From the position of first vice - president now she will move into the spot as president - elect for 1965-66, then president the next year.

Mrs. Rone, long active in B & PW activities locally, regionally and state wide, is chairman of the organization's state convention which will be held in the Chase-Park Plaza Hotel in St. Louis April 23-25. This will be the state federation's 44th annual get-together and some 600 members are expected to attend from 116 individual clubs.

FINDING THE WAY

World Needs 'Easter Christians'

BY RALPH W. LOEW, D.D.
Newspaper Enterprise Assn.

Stand at the Berlin Wall and stare at the crooked, guarded entrances, the menacing guards, the sealed border. To breach the wall seems impossible. To attempt it seems incredible. Yet the young man speaking with us had come through that wall!

Talk to some neighbors who normally are gentle and cultured but who, from time to time, share harsh attitudes about human relations. To break down that wall seems impractical and impossible. Yet there is a new spirit at work and the new breakthroughs are obvious. Ideas had breached the wall.

These are events in our time. Easter marks the event in another time that breaks into our time. Some men had seen their friend die on the Cross. They were paralyzed with fright and frustration. Yet within days they were out on the highways with the bold word of undefeated life. They had faith that he had broken the sealed tomb. Easter had breached the wall.

Our world needs Easter Christians. We've chided these people who crowd the churches in an annual pilgrimage. Suppose they didn't come—even on Easter. Suppose that there was no one to share the word that there had been a break-through of the wall of fear and suspicion.

The real Easter Christian is the undefeated believer who refuses to accept the verdict of death to men's hopes. Even a "one-in-a-year" tradition admits this; there's the chance that the gesture could become a commitment!

The mystery of life beyond the grave is as real today as it was in times past. Easter is the assurance that man can refuse to make the tomb his horizon and death his goal. Life is not a camera that smashes into the craters of death. Easter proclaims that life can be met with courage and death with dignity. It is the refusal to be walled in.

Stand at any bristling wall in this angry world. The walls are everywhere. You'll always find the cynical or the defeated or the fear-paralyzed.

Yet you'll always find the undefeated, the hopeful and the persistent lovers of righteousness. They're the real Easter Christians. They refuse to take a wall—or a sealed tomb—as the final verdict.

Of Interest To Homemakers

by fredericka plummer

CLOTHING WORKSHOPS COMPLETED THIS WEEK

Homemakers who sew have been attending one or both workshops which were held on Thursdays for the past four weeks in the 4-H Building in Charleston. Miss Jewel Grady, Extension Home Economist-Clothing, has been the instructor.

Those attending the morning session have been improving their skills and making their sewing easier by learning correct techniques. Skills demonstrated by Miss Grady have included covering belts; facing sleeveless and collarless blouses or dresses; making cording, bound buttonholes, pleats; and putting in zippers.

Pattern Alterations was the subject of the afternoon workshop. The goal of those attending was to alter their individual patterns so that each can make attractive, durable, well - fitting clothes. They found that most women have some figure irregularity which requires that some change be made in purchased patterns. To complete this workshop the homemakers made muslins and fit them in order to make the changes needed in their patterns.

Those attending the Pattern Alteration Workshop were: Mrs. Ralph Adkisson, Mrs. Urcil Anderson, Mrs. Bill Arington, Mrs. Mary Coffman, Mrs. Leon Hudson, Mrs. Johnnie Knupp, Mrs. Charles Lingle, Mrs. Charles Loflin, Mrs. Rex Mainord, Mrs. Glenn Patton, Mrs. Ted Pierceall, Mrs. Mark Rolwing.

Attending the sewing techniques workshop were: Mrs. Adkisson, Mrs. Kirb Anderson, Mrs. Urcil Anderson, Mrs. Alva Denton, Mrs. Loflin, and Mrs. Mark Rolwing.

Matthews News

Mrs. W. E. Shupe of St. Louis and Mrs. Retta Kellett of Sikeston visited Tuesday evening with Mrs. L. D. Waters.

The Rev. E. Leo Balf of Covington, Tenn. will conduct evangelist services at the Christian Church here the week of April 18 to 23. The congregation extends an invitation to all to attend these services which will begin at 7:30 p.m.

Mr. and Mrs. Louis Evans of New Madrid entertained members of the Sophomore Class of Matthews High School with a party at the Community Center Saturday evening. Approximately sixty young people enjoyed an evening of games, dancing, and refreshments. Mrs. Evans teaches English at the high school.

Sleepy-eyed man, sitting on bed and staring out window, to wife: "Darn it! It looks like it's going to be another day."

Here's cotton growers' first step in the Chemagro Practical Cotton Program

Give your crop an early, vigorous start by protecting against early-season pests with Di-Syston—the proven systemic insecticide

Di-Syston protection is absorbed as soon as root system forms. Entire plant is protected against aphids, mites and thrips up to 8 weeks.

Di-Syston is your first insect-control step toward a high quality cotton crop. This *proven* systemic insecticide prevents stunted, crooked plants caused by aphid, mite and thrips damage during the early seedling stage. Cotton sets fruit and squares early to make a good bottom crop. Di-Syston is applied at planting time and works from inside the plant where it is unaffected by weather. And, since Di-Syston is *inside* the plant, it will not harm beneficial insects . . . kills only the insects that suck plant juices. Start your cotton off right this season. Apply Di-Syston at planting time. 1510

Farm Management News

By

RICHARD F. McINTOSH

Extension Area Farm Management Agent

FERTILIZE SOYBEANS?

Does it pay to fertilize soybeans? "The answer is yes on soils low in fertility," according to John Garrett, Extension Area Soils Agent.

"Limestone is a must for high soybean production on acid soils." Soybean yields can be increased eight to fifteen bushels per acre by applying limestone to acid soils.

Soybeans should be fertilized with potash and phosphate when grown onsoil testing low or very low in these nutrients.

The following charts show some of the soybean fertility experiments that have been conducted in southeast Missouri by the University of Missouri Soils Department.

RESPONSE OF SOYBEANS TO LIMESTONE AND POTASH ON LOW TESTING SOILS
(2 year average)

Lbs. K O/Ac.	Tons Lime Per Acre	
	1.5 T	3 T
2	0	3
0	17	29
60	24	34

POTASH

Experiments were conducted at 19 different locations to determine the response of soybeans to potash on soils testing below 150 lbs. of potash.

The application of 60 pounds of potash on soils testing below 150 pounds of potash increased yields 2 to 13 bushels peracre.

The average yield increase was 6 bushels per acre for 19 trials.

The average yield increase from the application of 60 lbs. of phosphate in 8 experiments on soils testing below 100 lbs. was 3 bu. per acre.

The following are some guide lines to follow on soybean fertilization.

1. Take a soil test to determine if limestone, potash, or phosphate is needed.

2. Follow the recommendations on te soil test.

3. If the soil has a pH of 5.8 or below you cannot get best returns with potash and phosphate unless you apply the limestone needed to correct the acidity.

You can band up to 60 lbs. of potash and 60 lbs. of phosphate safely about 3 in. to the side and some what below the seed. If it can't be banded in this manner, or if higher rates are recommended, broadcast the potash and phosphate and plow it down.

The World Of Barbara Broyles, Wife Of The Coach

THE FEMININE TOUCH
Barbara Broyles

By BILL SIMMONS
Associated Press Writer

FAYETTEVILLE, Ark. (AP --There are sounds in the world of Barbara Broyles:

—The thick "thump" of a punt.

—The tiny "ting" of crystal.

—And, if you telephone and ask for her, a daughter may oblige you in this manner: "Aaiieeaaiahh, mother, it's for you!"

They are the sounds of a marriage that will begin its third decade on May 7, 1965.

Barbara Broyles is, as her husband puts it, the "better half" of Frank Broyles, an easy-going, red-haired, drawling native of Georgia.

The Football Writers Association of America said he was the coach of the year in 1964.

"That was marvelous," said Barbara Broyles. "That was somethat that you dream about and you say, 'Boy, wouldn't that be just great, but you never believe it really will happen. It's like a dream."

Frank Broyles coached Arkansas' Razorbacks to an 11-0 season, including a victory in the Cotton Bowl game, to finish with the No. 2 team in the nation in The Associated Press football poll.

It is a dream that Barbara Broyles never imagined would come true, more than 20 years ago when she was working six days a week in an aircraft factory in Marietta, Ga., and Frank Broyles was in the Navy's V-12 program.

They had met in high school at Decatur, Ga., where he was a football hero, and during eight semesters at Georgia Tech he remained a football star, setting an Orange Bowl passing record.

"I never saw him play in college until his last year," Barbara says. "I saw him in high school, though."

Broyles coached at Georgia Tech, took his first head coaching job at Missouri, and came to Arkansas as head coach in 1958. His first year with the Razorbacks unfurled six straight losses — disaster.

"Frank is easy to get along with," Barbara says. "Of course, coaches are always busy, winning or losing. He doesn't bring his work home with him. He's just perfect. The only time it ever changed any was in 1958 when we lost those six games. I think that really shook his confidence."

Broyles rebounded with four victories in the remaining games in 1958, then began a string of successful seasons that has made him the greatest coach in Arkansas' history and one of the best in the nation today.

"There's always pressure on a coach," Barbara explains. "But Frank would rather be winning than losing, and I'd rather it be that way, too, because when he's winning he's more relaxed, I think."

The Broyles household is not the place for one with jumpy nerves. There are six children — Jack, 17; Hank, 15; Dan 12; Tommy, 10, and twin girls, Betsy and Linda, 6.

"The four horsemen and two cheerleaders," Barbara Broyles beams.

In her moments of free time she sometimes goes golfing and now and then her husband goes along.

"But it doesn't work out too well," she said. "He tries to coach me, and I'm not a very good pupil. It comes close to winding up in a fight. He's always coaching."

Barbara Broyles is brown-haired and dark-eyed. She seems to be a woman in complete control ofherself in a very masculine world. But she stays apart from coaching football "because I don't know a great deal about it."

"I don't tell Frank how to coach, and he doesn't tell me how to cook," she says.

The Razorbacks, an extension of the Broyles family, had their first unbeaten season in more than one-half century in 1964. What's in store for 1965?

"Well, Frank wants to win them all, of course," she said. "I always think we're going to win them all. Frank says I'm crazy."

ANN LANDERS
Answers Your Problems

Dear Ann Landers: This letter is for teen-age boys because they are mainly to blame for the misery of teen-age girls.

At every party, whether at school or in somebody's house, you always see clumps of girls, sticking together, laughing and talking. They appear to be having a blast, but the truth is, they are having a perfectly lousy time and they wish they had stayed home.

Why do you fellows run after two or three of the best looking girls in the crowd? Always it's the same girls who get the big rush. The plainer ones (like me) never get a tumble and it's just rotten.

So what if a girl is a little too thin, or too heavy? What if she isn't the greatest dancer in the world? I'll bet she'd appreciate you more than the doll who is zeroed in on by every guy in the room.

The next time you go to a party or to a dance, fellas, ask a plain gal to dance or join you at the refreshment table. You may discover she is great company and that you've been missing something. -- BITTER 16

Dear 16: Thank you for an excellent letter. I'll like to add this: The boy or girl who is quick to judge a book by its cover often cheats himself out of some fascinating and worthwhile reading.

Dear Ann Landers: What do you think about a husband who carries on a correspondence with a college friend even though he knows his wife does not approve of it?

Edwin and I were married a few weeks ago. He never spoke much about Nanette except to say she was fun and had a terrific sense of humor. They used to work together on the college yearbook but so far as I know it was just pal stuff.

Three days ago Edwin received a letter from Manette. I opened it by accident. The letter was full of tired jokes and references to people I don't know. I answered it from both Edwin and me, saying "I'd love to meet you sometime."

I handed Edwin the open letter and told him I had opened it by mistake. I also told him I had answered it because from now on we would be doing everything as a couple.

He said I had humiliated him and that I had no business responding to a letter addressed to him. I say there should be no secrets between a man and his wife. You always emphasize in your column that the more things a couple can share, the stronger the marriage will be. Please comment. -- WILTED ROSES

Dear Wilted: It is possible to open a letter by accident, but you can only answer a letter on purpose. This was out of line and I don't blame Edwin for blowing his top.

Sharing is important but it's equally important to respect one another's privacy. To be "one," yet to remain separate and distinct entities may seem a contradiction but it is the secret of a good marriage.

Dear Ann Landers: I am planning on being married this summer. Mother has been married four times. Daddy is now married to his second wife. My fiance's mother is on her fourth husband and his father is on his third marriage.

You may think this is crazy but all the ex'es get along fine together and they see each other socially. Mother insists that we invite all the ex'es to the wedding. What do you think this will look like?-- B. B. B.

Dear B. B. B.: It will look like the discarded pages from a number of old wedding albums. But don't let it spoil your day. The kooks will probably have a lovely time.

Liquor can ruin your mind, your body and your life. To learn the booby-traps of teen-age drinking, write for ANN LANDERS' booklet, "Teen-age Drinking," enclosing with your request 20¢ in coin and a long, self - addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self - addressed envelope.

THE 4-H RECORD

By

BILL BOGART

Extension Area Youth Agent

ANNISTON MEETING

A meeting will be held April 22 at Anniston for parents and boys and girls interested in organizing a 4-H Club. The meeting will begin at 7:30 p.m. at the Anniston School.

4-H projects, activities, and purposes will be discussed at this meeting. If sufficient interest is shown, definite plans will be made to organize a 4-H Club at Anniston.

All boys and girls, ages 10-19 years, are eligible to be 4-H members.

EAGER BEAVERS MEET

The Eager Beaver 4-H Club met at the St. Lawrence School last week for their monthly meeting. Thirty - three members and six leaders were present.

Kay Dirnberger, president, called the meeting to order.

Robert Niederkorn and Michael Dirnberger gave a demonstration on how to tie different knots. Both Robert and Michael are enrolled in the 4-H Ropework Project.

The girls enrolled in the 4-H Match Mates Clothing project presented a fashion show for the club. They modeled skirts they had made in their project work.

The Health talk for the month was presented by Geraldine Brucker. She discussed the importance of good eating habits.

The meeting was adjourned with the singing of the "Song of Health" led by Earline Dirnberger, song leader.

This report was sent in by Geraldine Brucker, Club Reporter.

Morehouse News

Debby Kay Sherrard, daughter of Mr. and Mrs. Dick Sherrard, celebrated her fourth birthday Sunday at the home of her grandparents, Mr. and Mrs. Paul Sherrard who entertained with a family luncheon, ice cream and birthday cake was served. Debby received a list of nice gifts.

Mr. and Mrs. Richard Landers of Poplar Bluff, formerly of Morehouse, attended a dinner dance Saturday evening at the Scottish Rites Cathedral in St. Louis. Their son, Joe Bill, spent the week-end with his grandparents, Mr. and Mrs. Henry Hart.

The Charley Brown Class enjoyed a fish fry and potluck dinner at 6:30 Friday evening in the fellowship room of the Rauch - Spence Memorial Methodist Church. Approximately forty members and their families attended. Mrs. William Deane III was presented a birthday cake.

There will be a special Good Friday Service Friday night at 7 o'clock at the Rauch-Spence Memorial Methodist Church. The pastor, Rev. James Estep, sends a cordial welcome to everyone.

Margie Jones has been ill with the flu at the home of her grandparents, Mr. and Mrs. M. A. Shipman.

Mr. and Mrs. Bill Evans and two children of Columbia arrived Tuesday to spend the Easter Vacation with her mother, Mrs. Gladys Crumpecker. Dr. and Mrs. Larry Chapman and children of Columbia will arrive Thursday to stay until after Easter with his parents, Mr. and Mrs. Charles Chapman and her mother, Mrs. Gladys Crumpecker.

Mr. and Mrs. Lloyd Hunt and family of St. Louis were weekend guests of his sister, Mr. and Mrs. Carl Launius.

Sara Crumpecker who is attending the University of Missouri in Columbia will spend the Easter Vacation from Tuesday until next Wednesday with her parents, Mr. and Mrs. Norman Crumpecker.

Micahel Hart who is attending Memphis State University will arrive home Wednesday to spend the Easter Vacation with his parents, Mr. and Mrs. Henry Hart. His mother will accompany him back to Memphis Sunday and spend a week with her daughter and family, Mr. and Mrs. John Burch and children.

Mrs. Henry Hart shopped in Poplar Bluff Monday.

Mrs. Ann Newton of Morehouse and her mother, Mrs. Edith Bennett and daughter-in-law, Mrs. Melba Bennett of New Madrid were Cape Girardeau visitors Tuesday.

Mr. and Mrs. Jewel Johnson and son, Mr. and Mrs. DeWayne Johnson and daughter, Lisa have returned to their home in Berkeley, Mich. after visiting her brother and wife, Mr. and Mrs. Paul Sherrard.

Mr. and Mrs. Bob Brown and Mrs. Mary Sue Davis and son, Ronnie of Burbank, Calif., are visiting their parents, Mr. and Mrs. W. M. Brown and other relatives and Mrs. Brown's mother, Mrs. Elizabeth Houser of Lilbourn, Mo.

Mr. and Mrs. Huley Williams had as Sunday dinner guests, Mr. and Mrs. J. D. Johnson and son, Mr. and Mrs. J. D. Johnson, Jr., and Lisa of Berkeley, Mich., Mr. and Mrs. Jewel Asher of Ellisnore, Mo., Mrs. Ann Amerson and children and Mr. and Mrs. F. W. Sherrard.

Mr. and Mrs. Paul Sherrard and son, Jack enjoyed a fish-fry Friday night at the home of Mr. Charles Morris, 333 E. Gladys St. in Sikeston.

Mrs. Ella Crady has returned home after spending two weeks with her husband, Lester, on a boat where he is employed.

THE BEATLES' BARBER

Perplexed beyond all comprehension,
The Beatles' barber stands prepared,
Surrounded by screaming apprehension,
That each lock of hair be shared.

His scissors so precisely gleaming,
He handles now in dreaded fear,
For what, if plagued by all the screaming,
He should miss and get an ear! — Gwen N. Duckworth

Looking Back Over The Years

50 years ago
April 17, 1915

The E. C. Robinson Lumber Co., has sold the lumber for the erection of the three dredge boats to be built for the Hoosier Land and Investment Co., to be used on their ditch contract.

A. F. Lindsay will leave Sunday for Manhatton Beach, N. Y., where he will have charge of W. H. Tanner's interests there. R. H. Hutchins will have charge of A. F. Lindsay's office while he is away.

40 years ago
April 17, 1925

Work on the construction of a modern gin plant to be erected in Sikeston by the Roberts Cotton Oil Co., will start at once, according to F. L. Pittman, division manager for the cotton products company. The firm has purchased the lot on the corner of Prosperity and Frisco streets. The lot is the site of the old McCord mule barn.

The Swank - Tanner Engineering Co., of Charleston has been engaged to make surveys for a huge dam in the Black River, near Piedmont. This is expected to be a great factor in the development of this district as a manufacturing center.

D. A. Reese, postal employe, was probably the heaviest loser in a six-house robbery in the southern part of Sikeston Tuesday night. About $75 was removed from Mr. Reese's trousers as they lay on a table within four feet of his bed. The homes of Ed Hollingsworth on Dorothy street; W. H. Tanner and W. P. Wilkerson on Glady's street; Judge William Graham on Dorothy street; and Walter McGee on Gladys street also were entered.

The appointment of committee chairmen was the chief activity at the city council meeting Monday night. The following were named: T. A. Wilson, finance; L. H. Sexton, cemetery; Judson boardman, health; E. C. Matthews, street and alley; Aulton Cravens, charity; J. F. Cox, water works; J. G. Russell, light; and F. H. Smith, parks.

30 years ago

Malone Theatre, today, Joan Blondell in "Traveling Saleslady." Tomorrow, George White's "Scandals of 1935" with Alice Faye, James Dunn, George White and Ned Sparks.

J. W. Baker, jr., resigned from the school board and three new teachers were selected to fill vacancies at a board meeting Wednesday evening. A. J. Renner was appointed to fill Mr. Baker's place until the school election next year. The three new instructors are: Miss Adilda McCord, Miss Helen Baker and Miss Emily Blanton.

Roy V. Ellise was re-elected superintendent of school at a recent board meeting. These members of the faculty were named at Wednesday night's session: High school building -- William E. Mahew, principal; Mrs. Josephine Vieth, Miss Isabell Hess, Miss Frances Burch, Miss Daisy Evans, Miss Uriel Haw, Cletis Bidewell, Glenn S. Duncan, Mrs. Geraldine Young, Miss Electa O'Hara, Miss Madge Davis, Miss Agnes Erley, Tharon E. Stallings, Miss Nellie Goodman, Miss Myra Tanner, Reid Jann, Miss Dorothy Billings, Miss Winnie Eldridge, and Miss Myrtle Dalton.

Grammar school -- Miss Florence Crisler, principal; Miss Wilma Ragains, Miss Lucille Finley, Miss Lucille Mount, Miss Nell Yanson, Miss Ruth Bateman, Miss Lucille Stubblefield, Miss Jewell Mouser, Miss Lydia Chaney, Miss Margaret Clymer, Mrs. E. W. Davis, Miss Mignon Newton, Miss Georgia Houchens, Mrs. W. W. Hinchey, Miss Lillian Putnam, Miss Dorothy Miller, and Miss Burdeen Schroff. Sunset School -- Iola Huddleston, U. S. Grant, and Charlotte Madison.

Loretta, 12-year-daughter of Grant Gilliam of Canalou, was accidentally shot through the left shoulder early Monday morning while sweeping one of the rooms in her home. As she attempted to move her father's .22 rifle, the weapon was accidentally discharged.

Dora, two - year-old daughter of Mr. and Mrs. Carleton McGarity of Essex, was injured Tuesday when she fell on an oil can spout at her home. The spout penetrated the pelvic cavity.

Oran -- Memorial services were held at the Majestic Theatre Saturday afternoon in honor of the late President Roosevelt.

Morley - Mr. and Mrs. Merle Vaughn, who have been residing in St. Louis, are new residents of Morley.

Missouri University Prof. Gives Views After Study

COLUMBIA, Mo. Apr. 16--"To achieve maximum employment in communities dependent on forest - based industries, wood should be processed at home, from tree to finished product," according to a report concerning Missouri forests and wood products.

The study was made by Richard C. Smith, MU professor of forestry; and John K. Myers, formerly a research assistant in the School of Forestry now with the U. S. Forest Service.

The study, Wood Products and Missouri's Forests, is the sixth of a series which define the problems and prospects for Missouri's economy. They are published by the Research Center of the University of Missouri's School of Business and Public Administration.

Smith and Myers pointed out that the Missouri wood-products economy has been characterized by the manufacture of partially-completed stock or products shipped out of the state for completion. This results in "employment and industry opportunities lost to other regions." An exception is the production of oak flooring.

These final stages of manufacture require a substantial share of the total employment required to make a product. It is here, in secondary manufacture, Myers and Smith stated that the large increase in product value occurs.

They noted that Missouri could benefit greatly by promoting the manufacture of finished wood products within the state. This could be done by establishing new firms or, preferably, by encourageing expansion of existing ones.

Elmer Kiehl, dean of the College of Agriculture and director of the Missouri Agricultural Experiment Station, commenting upon the study, remarked that processing of wood products represents a significant potential area for the expansion for Missouri industry. Processing of other agricultural products in Missouri, he said, comprise one of Missouri's principal sources of income and economic growth.

The Smith-Myers study advises that with better timber management in Missouri, net returns from some of the state's forested land can be raised through yield of higher quality timber.

This economic potential from better timber management appears to be considerable since most of the 15 million acres of forest in Missouri are capable of producing commercial timber crops, Myers and Smith reported.

It is also suggested that there are numerous forest settings in the state which may provide added income through development as recreational sites.

The study noted that Missouri's charcoal industry could make an important contribution by utilizing plant residues and low-quality hardwood trees that should be removed from forest stands.

Missouri accounts for 20 percent of the national charcoal production. The amount of charcoal produced in Missouri has tripled since 1956 because of the increased popularity of outdoor barbecues.

Among other facts reported in the study were; of the cedar novelties made in the United States, 90 percent come from Missouri.

The state produces about 10 percent of the nation's oak flooring.

A fifth of the wooden handles made in this country come from Missouri.

Greater love hath no man than this, that a man lay down his life for his friends. (John 15:-13)

PRAYER: Gracious and loving Father, who in the person of Thy Son didst give Thy life for us, fill us with the Holy Spirit, that we may perfectly love and serve Thee and our fellowmen. We pray in the name of Christ, who has taught us when we pray to say, "Our Father who art in heaven. . . Amen."

New Gehl Chop-King

short-chops more tons per hour than any other chopper!
Watch that corn fly! Short-chopped to ¼-inch, and up to 50% more of it in the box every chopping hour. That's capacity and performance possible only with the new, brawny Gehl Chop-King—the one chopper built to make *full use* of today's big-tractor horsepower.
One look at the features explains it:
Rugged 8-knife flywheel. Knives chrome-edged to stay sharp longer.
Big 127 sq. in. throat gulps in crops faster.
Floating heads hug field contours.
New "telescoping" U-joint permits full-power chopping around tight turns.
Select-A-Cut Transmission changes forage lengths with the push of a lever.
Easy-Swing Drawbar adjusts right from the tractor seat.
Come on in and take a closer look at the really big difference in choppers today . . . the biggest-of-'em-all, Gehl Chop-King.

Timely Tips

VEGETABLE COOKERY

Did you know that vegetables cooked one day then reheated and served the next day lose some of their nutrients.

Vitamin C losses are particularly noticable. The vegetable will have only 3/4 as much Vitamin C after 1 day in the refrigerator as when freshly cooked. After 2 days the Vitamin C content drops to 2/3 and after 3 days it's down to 1/3 or 1/2 of its original value.

So don't serve your family the same cooked vegetables day after day.

If you are looking for ways to perk up cooked green vegetables, a few suggestions given below have been made available by the U. S. D. A. Food Specialist.

1. With snap beans or summer squash, cook a tablespoon or two of minced onions, green pepper, or parsley.
2. Cook a few mint leaves with peas.
3. Put a small pinch of herb or spice in the water when you cook lima beans.
4. A little vinegar and sugar heated together make a good dressing for snap beans or cabbage, with or without a few tablespoons of cream.
5. Point up the flavor of any green vegetable with meat drippings, butter, margarine, or salad oil with lemon juice, horseradish, or garlic. Or add bits of crisply fried bacon, especially to spinach or other greens.

Canalou News

Among those from out of town who attended the funeral services for Mae Landers Tuesday afternoon at the Baptist church with the Rev. Joe Smith and Rev. Roy Bennett officiating, were Mr. and Mrs. Willie Landers and family of Calvert City, Ky., Mr. and Mrs. Robert Thrower and children of St. Louis, Mr. and Mrs. Oval Arbuckle of Swinton, Mr. and Mrs. Johnny Arbuckle of Oran, Mr. and Mrs. Dale Lasters and children of near Puxico, Mr. and Mrs. Loyd Newman and Mr. and Mrs. Lois Newman, Marsha and Wanda of Oran, Mr. and Mrs. John Ling of Laforge, Mr. and Mrs. Clifford Newman of Conran, Mrs. Laverne Sexton of Matthews, Mr. and Mrs. Leslie Landers of Pontiac, Mich. Mr. and Mrs. Jack Landers and son of Woodriver Ill. Mrs. Clifton Arbuckle of East Alton, Ill. Rev. and Mrs. S. W. Wommack of Dexter, Rev. Allie Sullivan and Mr. and Mrs. Jim Sexton of Morehouse, Glen Allen Rodgers of Oran, Mr. and Mrs. Doyle Nelson and family of Sikeston, Mr. and Mrs. Johnny Scott, Mrs. Willard Nance and Frank Harr of Sikeston, Mr. and Mrs. Billy Nipper and children of Greenville, Miss. also a number of young people from the Lilbourn school who attended school with the Landers children.

Stave vs. Gary Summers, POSSESSION OF INTOXICATING LIQUOR, BEING UNDER 21.
For good cause shown, PROBATION, previously granted is revoked and Warrant issued.

State vs. James Edwards Lewis, ROBBERY BY FORCE OF ARMS.
Leave granted State to add name, of Ronnie Lynn to information.
Defendant in Court, in custody of Sheriff, and accompanied by his attorney.
The defendant having been previously arraigned and having pled "NOT GUILTY", both parties announce ready for trial.
The court then proceeds to qualify 30 men from Scott County to be placed on a jury panel to try this case.
Both the State and the defendant are given a certified list of the jurors.
Both duly challenge different jurors and finally settle on 12 men to try the case.

Both sides proceed to present their case, and hearing all evidence, the Judge instructs the jury as to the law and the jury, in charge of the Sheriff retires, at 2:26 p.m. to the jury room, to consider their verdict.
At 2:45 p.m., the same day, the jury returns to the Courtroom and announce they have reached a verdict.
The foreman announces, "We the jury find the defendant, James Edward Lewis, "Guilty" as charged in the Information and assess his punishment at a term of 5 years in the State Penitentiary."
Verdict filed and jury discharged.
Defendant granted 15 days within which to file Motion For New Trail, and to appear on April 28, 1965 for sentencing.

IN VACATION

State vs. Napolean Pollock, ASSAULT WITH A DEADLY WEAPON.
Received from Magistrate Clerk, Transcript in this case.
Pros. Atty. filed Information in this cause.

State vs. Wm. H. Henderson, BURGLARY & STEALING.
Received Transcript from Magistrate Clerk and Information from Pros. Atty. in this case.

State vs. J. M. Meeks and D. R. Becker, BURGLARY & STEALING.
Transcript received from Magistrate Clerk and Information from Pros. Atty. in this case.

How many times have you heard someone say, "I applied that chemical according to recommendations and it didn't work." We hear this statement several times each year.

There are several things involved in getting success from any chemical. All of these items must be right if you are to be happy with the results you get. (1) You must be using the best material for your particular job. This may sound strange but we still see people who use the wrong chemicals every year. This is usually expensive and can be destructive. (2) Chemicals must be used in the proper amounts. Many mistakes are made on rates of applications. With most chemicals an over dose is expensive and may do extensive damage. If not enough chemical is used little or no results can be expected. (3) Another mistake often made involves calibrating the spray equipment. The application rate of all chemicals is important. The number of gallons you apply per acre depends upon (a) nozzle size, (b) the pressure and (c) the speed at which your sprayer travels. The delivery rate of a nozzle depends upon the size of the orifice and the discharge pressure. Since the output of a nozzle varies as the pressure is changed, it is essential that a constant pressure be maintained.

The mistake most often made is accurate calibration. Several recommended methods are available. Most spray manufacturers list a calibration procedure in the operators manual. Always take a few minutes and calibrate your sprayer before you go to the field. Check the spray often, at least every other day, during the time you are applying any material. Spray nozzles will wear and this changes the amount of material you apply as well as changing the spray pattern.

Give your spray every possible chance to do a good job. A few simple rules that some people overlook will correct many of the mistakes made in the application of chemicals.

My Boston friend had just discovered Gone With The Wind and was curled up on the sofa, completely engrossed in the story, when her husband came home. He made his way quietly to the kitchen, from which direction came his hurt inquiry: "Didn't you bake me a cherry pie?"

She sat bolt upright, slammed the book shut and bellowed, "I'm not baking a cherry pie for any damn Yankee!" —Mrs. Richard E. Noble

VERY SAXY—In Stockholm, Sweden, singer Ingela Brander doubles in brass as a saxophone tooter. She sings and swings in a Swedish television series.

RECOMMENDATIONS FOR PRE EMERGENCY CHEMICAL WEED CONTROL IN COTTON OUTLINED

Interest in the use of chemicals for weed control in cotton on pre - emergence basis is high, and indications are that this practice will be used on a wide - spread basis this year. Many farmers are wondering which they should use, and we are also receiving numerous questions on methods and rates of application. Let's take a brief look at the chemicals recommended for pre-emergence use on cotton, the conditions under which each is recommended, and methods of application.

Divron, commonly known by its trade name "Karmex" has been used for a number of years and I think most cotton farmers are acquainted with it. It is recommended for use on loamy soils at rates ranging from one pound per acre on light soils to 1 1/2 pounds per acre on heavy soils. Because of the high cost, a band treatment is more practical than overall treatment. Generally speaking, it has produced good results where rainfall has been obtained soon enough after application to make the chemical effective. In such cases where it has produced good results, it is perhaps our most practical chemical. Divron will damage cotton on light sandy soils and has not produced good weed control on heavy clay soils; consequently, it is not recommended for these soil types.

CIPC is recommended for use on all soil types except high organic matter, heavy clay soils. Recommended rates of application range from six pounds per acre on light soils up to nine pounds per acre on heavy soils. CIPC should be applied as a band treatment because of the high cost involved.

Monuron, commonly known by the trade name "Telvar", is recommended for use of high organic matter heavy clay soils at the rate of 1 1/2 pounds per acre. It is recommended only for use of high organic matter heavy clay soils as damage will likely result from its use on lighter soils.

Trifluralin, commonly known by its trade name "Treflan" is recommended for use on all soil types except heavy clay soils. Recommended rates of application for the various soil types are as follows: one-half to three-fourth pound per acre on sands to light sandy loam soils, three - fourths to one pound per acre on sandy loam and silt loam soils, and one to 1 1/2 pounds per acre on silty clay and clay loam soils. Trifluralin should be incorporated into the soil surface before, during or immediately after the planting operation. Incorporation ahead of the planter has generally given best results. This chemical will damage the lateral or feeder roots on the cotton plant when excessive rates are used or when incorporated too deeply. For this reason trifluralin should not be incorporated deeper than one-half inch below seed depth. The best implement for incorporating the chemical into the soil will depend to a great extent on the soil type involved.

For broadcast applications on sandy and sandy loam soils, a "Do - All" or "Bed Conditioner" equipped with a bladed front roller linked to a drag harrow gives the most thorough chemical mixing. Wheel mounting and hydraulic lift aids in the maneuverability and depth control. The double disc harrow performs second best, but requires two trips over the field with the second disking applied to right angles to the first. Again, wheel mounting and hydraulic lift control are highly desirable. The gang rotary hoe appears to perform satisfactorily only on the lighter soils. Two or more trips over the field at a speed of five to seven miles per hour are required for thorough incorporation. For incorporation along the row band on sandy and sandy loam soils power-take-off driven rotary tillers, hoes, and cultivators do a good job of incorporation. When properly guaged with wheels for depth control, and when equipped with hoods and shields, these implements can effectively incorporate trifluraling to the desired depth.

Ground driven band incorporators such as the "Soil Blender", "Rolling Cultivator," or "Mix-A-Product" incorporate satisfactorily to a depth of one to 1 1/2 inches on sandy or firm but unpacked soil but are quite expensive. These implements can be mounted on the front cultivator frame thereby making it possible to apply and incorporate the chemical and plant cotton in one operation. Some broadcast incorporators such as the rotary hoe and "Do-All" have been successfully used for band incorporation on sandy and sandy loam soils, but tend to spread the chemical laterally and are generally unsatisfactory.

For band incorporation on clay and clay loam soils, power-take-off driven tillers, hoes, and cultivators have given best results in experimental trials. Ground driven band incorporators described above perform satisfactorily when the soil is relatively free of trash and clods and the soil surface have been loosened. Implements that incorporate shallowly such as the rotary hoe have been found un - satisfactory on this soil type. For best results on clays and clay loams, the soil should not be sticky at the incorporator operating depth.

Rates of application for various chemicals discussed above are expressed in terms of pounds of actual chemical per acre, and on basis of overall coverage. Where a banded application is used the rate should be adjusted according to the proportion of row width covered by the band.

If holes are punched in a container of water, the liquid will squirt farther from the lowest holes because the pressure is greater.

This Week IN THE GARDEN

LAST CALL

Snow, rain and more rain has certainly delayed early spring plantings in most parts of the state. Some vegetables--those requiring a long, cool growing season--must be planted now, or it will likely be too late.

Peas, potatoes, carrots, cabbage, cauliflower, broccoli, kohlrabi, collards, beets, endive, kale and Swiss chard require 60 plus days to reach maturity. If the weather turns hot in June, which it can, these crops will suffer in yield and quality. This is a last call for these vegetables. Plant now.

One can still plant such crops as spinach, turnip greens, mustard greens, onions, radishes and leaf lettuce and expect good returns. But remember, in a few weeks it will be time to plan warm season vegetables.

One thing is sure. We are starting out this year with plenty of moisture. While this is a disadvantage now, it may become an advantage later in the season. Moisture stored in the surface and sub-soil layers now will be helpful to deep rooted vegetables such as tomatoes and many of the vine crops, come July and August.

In many recent years we have gone into the gardening season with a deficiency of reserve soil moisture. As a result, drouth and high temperatures combined to wreak havoc with our summer crops. We should fare a little better this year, in this respect. Let's hope so.

If you still want to set out cabbage, cauliflower or broccoli plants, see your local plant grower now. He can provide you with some of the best plants available.

Locally grown plants are far superior to shipped in "bundles" of plants. Many so-called "hardened" or "frost - resistant" shipped in plants take to long to receover from the "hardened" condition. Oftentimes they are excessively dried out, because they have not been handled properly.

Then too, you run the risk of bringing in diseases that could prove troublesome. The plants also might carry nematodes on the roots. Also you may not have much selection of adapted varieties.

So see your local plant grower for plants. The plants may be a little leggy, but they will be the best obtainable. Remember, plant growers have had problems holding plants because of the weather.

Plants that are a little large will prove satisfactory if planted on a slant or angle, rather than straight up and down. The slant should be with or in the row to prevent possible upheaval when cultivating in the row.

Speaking of cultivating, how about making this a regular chore this year. Keep ahead of the weeds. If you cultivate when the weeds are small the job is easy. And it's most effective. Remember, weeds harbor insects and viruses. They compete with your plants for moisture, nutrients and light.

They are unwanted customers. But they will be there. We have plenty of moisture now, plus good fertility. And on this diet, weeds thrive -- on my how they thrive!

RUDE AWAKENING

Discussing problems concerning teenagers, one woman asked her neighbor:

"Is your son hard to get out of bed in the morning?"

"No," replied the other, "I just open the door and throw the cat on his bed."

The neighbor was puzzled.

"How," she asked, "does that awaken him?"

"Well, you see," replied the other, "he sleeps with the dog."

37 reasons for extra corn profits

No matter where you farm or what your specific conditions and problems may be . . . there are P-A-G Four-Way Crosses with the bred-in ability to meet your needs and your goals. P-A-G offers 37 Four-Way Crosses to back up this statement. This year four new varieties were added to the P-A-G line . . . three old ones were dropped. By replacing old varieties with new and better ones, the P-A-G line is constantly being revised and improved to keep up with your needs for higher producing, higher profit seed corn.

Some time ago we started classifying and producing corn to fit in with today's specialized farming practices. Our researchers have a stock of over 17,000 Four-Way Crosses which have been developed over the past 21 years. All have potential. But for now, we offer the 37 with proved high-profit performance. Each has "spelled-out" characteristics. From a wide range of varieties adapted for your area, you can select maturities for a progressive harvest. You can choose Four-Ways resistant to your disease and insect problems.

Varieties with the standability, picking and shelling ease, drying characteristics, and end-use requirements of your operation. Special corns for high population and high fertility. Special corns for silage and grain.

Each P-A-G Four-Way Cross is a combination of these high-yield, high-profit factors. So, you can Selectively Plant to match seed . . . to need . . . to conditions. This "no-compromise" approach is *reason enough* to call your P-A-G dealer and select your seed from P-A-G's 37 Four-Way Crosses.
